Kaufman, M.D.,2005-03-01 Experts now predict that more than one third of American children born in 2000 will develop diabetes in their lifetime Written by one of the world s leading authorities on the link between obesity and diabetes this passionate frightening but ultimately hopeful book points the way to a solution To enter Dr Francine Kaufman s clinic is to see the future of America a 220 pound twelve year old boy a 267 pound thirteen year old girl their concerned but equally overweight parents the human faces and human suffering behind the epidemic of type 2 diabetes that threatens to overwhelm our health care system Once a disease of the elderly type 2 diabetes now strikes adults in their prime and increasingly children It has nearly doubled in the last decade The cause Our soaring rates of obesity Diabesity takes us to the front lines of the fight against this preventable but deadly disease Through vivid patient stories it explains how excess weight destroys the body s ability to process sugar properly with life threatening consequences It shows what happens when the genes that evolved to protect us from famine collide with a sedentary lifestyle that has put bacon cheeseburgers on every corner And it demonstrates why our usual blame the victim response is futile in face of the complex worldwide forces behind this epidemic Detailing the tools for change at every level from families to school systems to government and reporting on innovative programs that are already making a difference Diabesity offers a compelling action plan for winning this battle **The Faces and Stakes of Brand Insertion** Sébastien Lefait,Sandrine Villers,2022-03-22 With traditional forms of advertisement facing increasing challenges brand placement the integration of a product or brand in a work of art has exploded It has become a lucrative phenomenon whose goal is to produce a reaction of purchase in the mind of the receiver reader viewer or listener This volume seeks to complement extant studies of product placement strategies by introducing a methodology more systematically related to the field of cultural studies especially where the reception and impact of product placement are concerned It explores the many iterations of brand placement in popular culture with a consideration of the crossover between advertisement and art in everything from Wes Anderson Blade Runner and the Fast and Furious franchise to music videos late night shows and plastic art The book considers the impact of brand placement in TV series on teenagers as well as the evolution of such placement in

literature The originality of this volume is that when the impact of the placement is mentioned it is to be understood as an intended aesthetic impact at least as much as a prompt to buy a product Consequently the placement of consumer goods in a cultural production the book suggests may both increase the sales of specific products and positively impact the production s ratings This book is perfect for researchers and students interested in marketing brand placement mass media art film and cultural studies
