and women who strapped wings to their backs and took to the sky If only for a few seconds People have been dying to fly quite literally since the dawn of history They've made wings of feather and bone leather and wood canvas and taffeta and thrown themselves off the highest places they could find Theirs is the world's first and still most dangerous extreme sport and its full history has never been told Birdmen Batmen and Skyflyers is a thrilling hilarious and often touching chronicle of these obsessive inventors and eccentric daredevils It traces the story of winged flight from its doomed early pioneers to their glorious high tech descendants who've at last conquered gravity sometimes anyway Michael Abrams gives us a brilliant bird's eye view of what it's like to fly with wings And then inevitably to fall In the Immortal Words of Great Birdmen Someday I think that everyone will have wings and be able to soar from the housetops But there must be a lot more experimenting before that can happen Clem Sohn the world's first batman who plummeted to his death at the Paris Air Show in 1937 The trouble was that he went only halfway up the radio tower If he had gone clear to the top it would have been different Amadeo Catao Lopes in 1946 explaining the broken legs of the man who tried his wings One day a jump will be the last The jump of death But that idea does not hold me back Rudolf Richard Boehlen who died of jump related injuries in 1953 It turned out that almost everyone from the thirties and forties had died That just made me want to do it more Garth Taggart stunt jumper for The Gypsy Moths filmed in 1968 You have to be the first one The second one is the first loser Felix Baumgartner who in 2003 became the first birdman to cross the English Channel September's Camera Jeffrey Scarborough, 2007-03 Jeff Scarborough was the only cameraman on duty at WNBC's newsroom in New York when the attacks of 9/11 began Armed with privileged information from the 9/11 attack on the World Trade Center realizing both towers were doomed Jeff pulled out of an emergency convoy just short of the WTC as he and reporter Rob Morrison approached the burning towers Taking charge at the scene Jeff ordered live truck engineer Eddie Alonzo to stay 500 feet away and told all responding crews to back off dangerously becoming NBC's sole cameraman broadcasting live from Ground Zero He permitted only the live shot reporter to join him at his camera position and during their live broadcast the South Tower collapsed They ran for their lives Jeff rescued Eddie and stayed to videotape the panic and the North Tower collapse September's Camera is the story of that fateful day and of a career lived on the edge of danger as Jeff's lens captured conflict urban riots blackouts serial killers plane crashes and human frailty in all its forms X GAMES: Who we are . . . and what we do!
