Domesticating Slavery Jeffrey Robert Young, 2005-10-12 In this carefully crafted work Jeffrey Young illuminates southern slaveholders strange and tragic path toward a defiantly sectional mentality Drawing on a wealth of archival evidence and integrating political religious economic and literary sources he chronicles the growth of a slaveowning culture that cast the southern planter in the role of benevolent Christian steward even as slaveholders were brutally exploiting their slaves for maximum fiscal gain Domesticating Slavery offers a surprising answer to the long standing question about slaveholders relationship with the proliferating capitalistic markets of early nineteenth century America Whereas previous scholars have depicted southern planters either as efficient businessmen who embraced market economics or as paternalists whose ideals placed them at odds with the industrializing capitalist society in the North Young instead demonstrates how capitalism and paternalism acted together in unexpected ways to shape slaveholders identity as a ruling elite Beginning with slaveowners responses to British imperialism in the colonial period and ending with the sectional crises of the 1830s he traces the rise of a self consciously southern master class in the Deep South and the attendant growth of political tensions that would eventually shatter the union

When Men Revolt and Why James Chowning Davies, 1997-01-01 The environment within which humans interact has changed dramatically since the Industrial Revolution However their expectations stem from the same hopes and dreams people have had from the beginning of humankind When Men Revolt and Why encourages readers to look closer and more deeply into the relationships between humans and the institutions that have originated to help them realize their full potential The contributors not only examine people but also the need to change institutions that have outworn their usefulness When institutions inhibit rather than facilitate everyone's desire to live a full life the result is likely to be violence This book offers the ideas of many people who have tried to dig deeper into basic causes of violence Included in this volume are selections by Aristotle Tocqueville Marx and Engels and Brinton The ideas they espoused still hold vitality In his new introduction James Davies talks about the circumstances under which this book was originally published In Vietnam a people were fighting for their autonomy In the United States many Americans were protesting against American involvement in the Vietnam War Blacks were marching for their civil rights Women were fighting for equality Time has tempered these conflicts Davies maintains that we remain ignorant of the elemental forces that impel people and nations to resort to violence We are usually surprised by their anger and shocked by

their violence Davies asserts that we need to learn more about how humans respond to change so as to prepare ourselves for such responses to change When Men Revolt and Why is as timely as ever as we deal with uncertainty in various areas of the world the former Yugoslavia the Middle East and Ireland among others It is especially pertinent for political scientists historians and sociologists
