Darwin's On the Origin of Species Daniel Duzdevich, 2018-11-01 An essential new edition of the 19th century scientific masterpiece that translates Darwin's Victorian prose into modern English Most useful Walter Brock Columbia University Charles Darwin's most famous book *On the Origin of Species* is without question one of the most important books ever written Yet many students have great difficulty understanding it While even the grandest works of Victorian English can be a challenge for modern readers Darwin's dense scientific prose is especially difficult to navigate For an era in which Darwin is more talked about than read doctoral student Daniel Duzdevich offers a clear modern English rendering of Darwin's first edition Neither an abridgement nor a summary this version might best be described as a translation for contemporary English readers A monument to reasoned insight the *Origin* illustrates the value of extensive reflection carefully gathered evidence and sound scientific reasoning By removing the linguistic barriers to understanding and appreciating the *Origin* this edition brings 21st century readers into closer contact with Darwin's revolutionary ideas

Small fish for food security and nutrition Food and Agriculture Organization of the United Nations, 2023-11-13 Food insecurity hunger and malnutrition have been on the rise in recent years due to disruptions such as the COVID 19 pandemic increasing climate shocks and conflicts Decades of steady progress to reduce food insecurity and malnutrition were often attributed to increased food production and intensification of few food staple crops and livestock however more recent focus has shifted to the role of small scale producers and the importance of diverse and nutritious foods This technical paper brings focus to the often overlooked small fish which play an integral role in the food security nutrition and livelihoods of the small scale fisherfolk who harvest process market trade and distribute small fish to communities near and far from water bodies The technical paper explores the various dimensions of the small fish food system addressing drivers scales interactions and multiple outcomes and trade offs such as that of small fish used for food versus feed Throughout the work applies a human

centred perspective emphasizing how people are involved in various stages of a food system and how interactions and networks between them play a role in food system dynamics and outcomes It is also emphasizes how people play multiple roles within a food system and thus should not be narrowly defined as fishers processors or consumers The paper documents project implementation and lessons from the FAO subprogramme titled Implementing the Small Scale Fisheries Guidelines for gender equitable and climate resilient food systems and livelihoods and the SmallFishFood Ikan F3 Dried Fish Matters and Fish4Food projects led by the University of Bergen the University of Amsterdam and the University of Manitoba

Andrews,Trevor N. Petney,Shahid A. Khan,2023-09-03 This volume discusses new developments in the etiology diagnosis and treatment of cholangiocarcinoma induced by the liver fluke Opisthorchis viverrini Although cholangiocarcinoma is rare in the Western world it has a very high incidence in continental

Southeast Asian countries where it is linked to infection with *O. viverrini*. In Southeast Asia this cancer causes thousands of deaths every year and places a severe socioeconomic burden on the affected families. Diagnosis is usually at a late disease stage and in the past palliative surgery and care have been the major therapeutic options. Recently however techniques have become available for early stage diagnosis that offer the possibility of curative surgery and novel chemotherapeutic options are also under development. In Thailand alone more than 2 million individuals have now been registered for screening for this cancer. The aim of this book is to highlight the latest research in the field and to explain how the newly available techniques can be applied to reduce the risk of developing cholangiocarcinoma and increase the likelihood of survival. **Perspectives**

and Applications of Indigenous Small Fish in India Archana Sinha, Aparna Roy, Pranab Gogoi, 2024-07-08 This contributed volume covers all aspects of small indigenous fish for nutritional and livelihood security.
