Small Acts Of Treachery:

Erving Goffman and the Cold War Gary D. Jaworski, 2023-08-07 Erving Goffman and the Cold War presents a provocative new reading of the work of sociologist Erving Goffman. Instead of viewing him as a marginal man or academic outsider, Gary D. Jaworski explores Goffman as a social theorist of the Cold War. Goffman was deeply connected to both the ethos of his time and to a range of cold warriors and their critics such as Edward A. Shils, Thomas C. Schelling, and the researchers on brainwashing associated with the Walter Reed Army Institute of Research, among others. Chapters on loyalty, betrayal, secrecy, strategy, interrogation, provocation, and aggression concretely illustrate these connections. Erving Goffman and the Cold War shows that Goffman was much more than a microsociologist of mundane life; he was a perceptive analyst of the Cold War America.

The Narreme in the Medieval Romance Epic Eugene Dorfman, 1969-12-15 In this study Professor Dorfman applies the methods of modern linguistics to literary analysis Literature may be described as the structured use of language the modern linguistic analyzes language in a search for the minimal units of sound and form phoneme and morpheme and determines the combinations by which they can communicate meaning The author here searches for a minimal structural unit in the literary narrative analogous to the phoneme and the morpheme in language structure Based on a detailed analysis of the Roland and the Cid and twelve additional Romance narratives Professor Dorfman s argument is that the structure of the medieval Romance epics may be analyzed into functional units which he calls narremes He divides a narrative into two types of structure the superstructure and the substructure A narrative by definition is a series of incidents All the incidents in the narrative taken as written form the superstructure Analysis however shows that many of the incidents may be abstracted from the narrative without deflecting the story line On the other hand other incidents reveal themselves as organically linked with each other so they cannot be omitted without destroying the story line These selected incidents are the narremes which make up the substructure of the narrative This method of analysis produces so interesting and surprising results results which make an important advance in research in linguistics and Romance literature Eugene Dorfman as an orthodox structuralist has focused strictly on the formal descriptions of the narratives but his analysis leads into the great traditional problems of literary history and in particular poses anew the problem of the origins of the epic
