Proceedings of 4th International Conference on Artificial Intelligence and Smart Energy S. Manoharan,Alexandru Tugui,Zubair Baig,2024-06-07 This book presents a comprehensive collection of research chapters focusing on innovative solutions to energy and sustainability challenges It reflects the collaborative efforts of researchers worldwide showcasing novel approaches to complex problems Topics discussed range from securing cyber physical systems to revolutionizing healthcare with AI and robotics emphasizing sustainable research The book emphasizes smart and sustainable energy solutions highlighting advancements in solar panel efficiency fault analysis and fuzzy controlled converters for grid tied photovoltaic systems Additionally it explores AI s transformative potential in water solutions agriculture and renewable energy technologies across domains like smart cities transportation and healthcare The insights shared aim to inspire further research foster discussions and drive real world impact toward a resilient inclusive and sustainable future Discusses issues and offers sustainable solutions to meet the challenges faced by today s economy and industry Presents recent research in the sustainable transformation of engineering and technological systems Serves as a valuable resource for both academic researchers and industry practitioners interested in Artificial Intelligence AI and smart energy sectors **First European Conference on Smart Structures and Materials, Proceedings of the INT Conference held in Glasgow, 12-14 May 1992** B. Culshaw,Peter T. Gardiner,A. McDonach,European Optical Society,Society of Photo-optical Instrumentation Engineers,Institute of Physics (Great Britain),1992-01-01 First European Conference on Smart Structures and Materials provides a detailed review of developments and applications in the exciting area of smart structures and materials Topics covered include polymer chemistry materials research advanced sensor technology signal processing and innovative approaches to control and actuation These invited contributed and poster papers are written by many of the leading international researchers in this rapidly developing area This book will be invaluable reading for researchers in all aspects of smart materials and structures a subject encompassing aerospace technology civil and mechanical engineering biomedicine and component manufacture **Smart City and Informatization** Guojun Wang,Abdulmotaleb El Saddik,Xuejia Lai,Gregorio Martinez Perez,Kim-Kwang Raymond Choo,2019-11-05 This book constitutes the refereed proceedings of the 7th International Conference on Smart City and Informatization iSCI 2019 held in Guangzhou China in November 2019 The volume presents 52 full papers which were carefully reviewed and selected from 139 submissions The papers are organized in topical sections on Internet of Things IoT and smart sensing urban computing and big data smart society informatization technologies cloud edge fog computing for smart city applications for smart city informatization assistive engineering and information technology cyberspace security blockchain and applications International Index to Periodicals ,1929
Intelligent Sustainable Systems Atulya K. Nagar,Dharm Singh Jat,Gabriela Marín-Raventós,Durgesh Kumar Mishra,2022-01-03 This book provides insights of World Conference on Smart Trends in Systems Security and Sustainability

WS4 2021 which is divided into different sections such as Smart IT Infrastructure for Sustainable Society Smart Management prospective for Sustainable Society Smart Secure Systems for Next Generation Technologies Smart Trends for Computational Graphics and Image Modeling and Smart Trends for Biomedical and Health Informatics The proceedings is presented in two volumes The book is helpful for active researchers and practitioners in the field *5th European Conference of the International Federation for Medical and Biological Engineering 14 - 18 September 2011, Budapest, Hungary* Ákos Jobbágy,2012-02-02 This volume presents the 5th European Conference of the International Federation for Medical and Biological Engineering EMBEC held in Budapest 14 18 September 2011 The scientific discussion on the conference and in this conference proceedings include the following issues Signal Image Processing ICT Clinical Engineering and Applications Biomechanics and Fluid Biomechanics Biomaterials and Tissue Repair Innovations and Nanotechnology Modeling and Simulation Education and Professional **International Index to Periodicals** ,1952 An author and subject index to publications in fields of anthropology archaeology and classical studies economics folklore geography history language and literature music philosophy political science religion and theology sociology and theatre arts **Artificial Intelligence and Heuristics for Smart Energy Efficiency in Smart Cities** Mustapha Hatti,2021-11-24 This book emphasizes the role of micro grid systems and connected networks for the strategic storage of energy through the use of information and communication techniques big data the cloud and meta heuristics to support the greed for artificial intelligence techniques in data and the implementation of global strategies to meet the challenges of the city in the broad sense The intelligent management of renewable energy in the context of the energy transition requires the use of techniques and tools based on artificial intelligence AI to overcome the challenges of the intermittence of resources and the cost of energy The advent of the smart city makes an increased call for the integration of artificial intelligence and heuristics to meet the challenge of the increasing migration of populations to the city in order to ensure food energy and environmental security of the citizen of the city and his well being This book is intended for policymakers academics practitioners and students Several real cases are exposed throughout the book to illustrate the concepts and methods of the networks and systems presented This book proposes the development of new technological innovations mainly ICT the concept of Smart City appears as a means of achieving more efficient and sustainable cities The overall goal of the book is to develop a comprehensive framework to help public and private stakeholders make informed decisions on smart city investment strategies and develop skills for assessment and prioritization including resolution of difficulties with deployment and reproducibility International Business: Concepts, Methodologies, Tools, and Applications Management Association, Information Resources,2016-03-17 Business transactions and partnerships across borders have become easier than ever due to globalization and global digital connectivity As part of this shift in the business sphere managers executives and strategists across industries must acclimate themselves with the challenges and opportunities for conducting business globally

International Business Concepts Methodologies Tools and Applications presents the latest research innovations focusing on cross cultural communications and training international relations multinational enterprises outsourcing international business strategies and competitive advantage in the global marketplace This publication is an exhaustive multi volume work essential to academic and corporate libraries who serve researchers scholars business executives and professionals and graduate level business students Congress on Smart Computing Technologies Jagdish Chand Bansal, Harish Sharma, Antorweep Chakravorty, 2024-10-29 This book presents high quality research papers presented at Congress on Smart Computing Technologies CSCT 2023 organized by SAU Center for Research and Innovative Learning SCRIL South Asian University India from 23 December 2023 The book extensively covers recent research in algorithms for smart computing AI and machine learning in smart computing edge computing algorithms adversarial networks and autoencoders data visualization data mining data analytics machine learning game theory high performance computing mobile and ubiquitous platforms for smart environments cloud edge fog computing technologies for smart systems Internet of Things IoT and industrial IoT technologies for smart systems smart device and hardware security privacy and economics in smart environments big data healthcare informatics smart precision agriculture smart transportation social network analysis and human computer interaction The work is presented in two volumes Smart Modeling for Engineering Systems Alena V. Favorskaya, Margarita N. Favorskaya, Sergey S. Simakov, Lakhmi C. Jain, 2019-01-08 This book highlights the work of several world class researchers on smart modeling of complex systems The contributions are grouped into the four main categories listed below Numerical schemes construction for the solution of partial differential equations Numerical methods in continuum media mechanics problems Mathematical modeling in aerodynamics plasma physics deformable body mechanics and geological hydrocarbon exploration Mathematical modeling in medical applications The book offers a valuable resource for theoreticians and application scientists and engineers as well as postgraduate students in the fields of computational methods numerical experiments parallel algorithms deformable solid bodies seismic stability seismic prospecting migration elastic and acoustic wave investigation gas dynamics astrophysics aerodynamics fluid dynamics turbulent flows hypersonic flows detonation waves composite materials fracture mechanics melting of metals mathematical economics medicine and biology **Information and Communication Technology for Competitive Strategies (ICTCS 2020)** M. Shamim Kaiser, Juanying Xie, Vijay Singh Rathore, 2021-07-05 This book contains the best selected research papers presented at ICTCS 2020 Fifth International Conference on Information and Communication Technology for Competitive Strategies The conference was held at Jaipur Rajasthan India during 11-12 December 2020 The book covers state of the art as well as emerging topics pertaining to ICT and effective strategies for its implementation for engineering and managerial applications This book contains papers mainly focused on ICT for computation algorithms and data analytics and IT security **Mobility for Smart Cities and Regional Development - Challenges for Higher Education** Michael E. Auer, Hanno Hortsch, Oliver

Michler,Thomas Köhler,2022-01-28 This book presents recent research on interactive collaborative learning We are currently witnessing a significant transformation in the development of education and especially post secondary education To face these challenges higher education has to find innovative ways to quickly respond to these new needs On the one hand there is a pressure by the new situation in regard to the COVID pandemic On the other hand the methods and organizational forms of teaching and learning at higher educational institutions have changed rapidly in recent months Scientifically based statements as well as excellent experiences best practice are absolutely necessary These were the aims connected with the 24th International Conference on Interactive Collaborative Learning ICL2021 which was held online by Technische Universität Dresden Germany on 22-24 September 2021 Since its beginning in 1998 this conference is devoted to new approaches in learning with a focus on collaborative learning in Higher Education Nowadays the ICL conferences are a forum of the exchange of relevant trends and research results as well as the presentation of practical experiences in Learning and Engineering Pedagogy In this way we try to bridge the gap between pure scientific research and the everyday work of educators This book contains papers in the fields of Teaching Best Practices Research in Engineering Pedagogy Engineering Pedagogy Education Entrepreneurship in Engineering Education Project Based Learning Virtual and Augmented Learning Immersive Learning in Healthcare and Medical Education Interested readership includes policymakers academics educators researchers in pedagogy and learning theory schoolteachers learning industry further and continuing education lecturers etc

Advanced Computing and Intelligent Technologies Monica Bianchini,Vincenzo Piuri,Sanjoy Das,Rabindra Nath Shaw,2021-07-21 This book gathers selected high quality research papers presented at International Conference on Advanced Computing and Intelligent Technologies ICACIT 2021 held at NCR New Delhi India during March 20-21 2021 jointly organized by Galgotias University India and Department of Information Engineering and Mathematics Università Di Siena Italy It discusses emerging topics pertaining to advanced computing intelligent technologies and networks including AI and machine learning data mining big data analytics high performance computing network performance analysis Internet of things networks wireless sensor networks and others The book offers a valuable asset for researchers from both academia and industries involved in advanced studies Advancements in Smart Computing and Information Security Sridaran

the 14th International Conference on Soft Computing and Pattern Recognition SoCPaR 2023 and 14th World Congress on Nature and Biologically Inspired Computing NaBIC 2023 SoCPaR NaBIC 2023 was held in 5 different cities namely Olten Switzerland Porto Portugal Kaunas Lithuania Greater Noida India Kochi India and in online mode The conference had contributions by authors from 39 countries This Volume offers a valuable reference guide for all scientists academicians researchers students and practitioners focused on Information Retrieval and Applications

Smart Nanomaterials in Biomedical Applications Jin-Chul Kim, Madhusudhan Alle, Azamal Husen, 2022-01-19 With the start of 2020 the wrath of pandemic challenged the scientific community to develop more advanced drug delivery approaches for biomedical applications endowing conventional drugs with additional therapeutic benefits and minimum side effects Although significant advancements have been done in the field of drug delivery there is a need to focus towards strategizing novel and improved drug delivery systems that should be convenient and cost effective to the patients and simultaneously they should also provide financial benefits to pharmaceutical companies Controlled drug delivery technology offers ample opportunities and scope for improvising the therapeutic efficacy of drugs via optimizing the drug release rate and time For this endeavour smart nanomaterials have served as remarkable candidates for biomedical applications owing to their ground breaking properties and design The development of such nanomaterials requires a broad knowledge related to their physio chemical properties molecular structure mechanisms by which the nanomaterials interact with the cells and methods by which drugs are released at the site of action This knowledge must also be allied with the knowledge of signaling crosstalk mechanisms that are modulated by the nanomaterial drugs composite It can be anticipated that these emerging drug delivery technologies can facilitate the world to successfully encounter such pandemic outbursts in the future in a cost effective and time effective manner The chapters in this book deal with the advanced technologies and approaches that can benefit advanced students researchers and industry experts in developing smart and intelligent nanomaterials for future biomedical applications and development manufacturing and commercialization for controlled and targeted drug delivery
