 private sector and patchy uncoordinated oversight of the public sector Tracing the history of the American debate over
 preschool education Andrew Karch argues that the current state of decentralization and fragmentation is the consequence of
 a chain of reactions and counterreactions to policy decisions dating from the late 1960s and early 1970s when preschool

 have become ardent defenders of the status quo Today advocates of greater government involvement must take on a diverse

 Karch demonstrates how to apply the concepts of policy feedback critical junctures and venue shopping to the study of social
