About Face Jonathan Cole, 1999-02-18 What is special about the face and what happens when neurological conditions make expression or comprehension of the face unavailable Through a mix of science autobiography case studies and speculation Jonathan Cole shows the importance not only of facial expressions for communication among individuals but also of facial embodiment for our sense of self He presents in his words a natural history of the face and an unnatural history of those who live without it The heart of the book lies in the experiences of people with facial losses of various kinds The case studies are of blind autistic and neurologically impaired persons the most extreme case involves Mobius syndrome in which individuals are born with a total inability to move their facial muscles and hence to make facial expressions Cole suggests that it is only by studying such personal narratives of loss that we can understand facial function and something of what all our faces reflect Second and Third Grade Manual Emma Miller Bolenius, 1923 *The Jerusalem Delivered* of Torquato

Vietnam Douglas Schanzenbach Captain USMC,2020-01-03 The book is an exploration of the Vietnam conflict from my personal experience Given the time and distance from the event the perspective becomes more clear Two administrations Lyndon Johnson s and Richard Nixon s lied distorted and extended the war for years resulting in thousands more dead and wounded Cabinet members such as McNamara and Kissinger were directly culpable in misleading the American public regarding the success of operations in that country Perhaps most tragic were the nonstop visits by government officials and members of Congress to Vietnam They were feted debauched and lied to Their subsequent press conferences always painted a rosy picture of progress and winning As early as 1965 the CIA was reporting the conflict as being unwinnable There were several unique properties of this conflict While only one in five GIs were assigned combat duty there were no safe or rear

areas Nobody had the luxury of relaxing feeling safe GIs were rotated in and out of country on an individual basis When our tour was over we were put on an airplane and hours later we were back in the land of the BIG PX with little or no decompression time The logistics of removal of the dead was so efficient there was almost never a chance to say goodbye to pay respects to process the loss Perhaps the two most unique elements of the conflict were the fact that we never lost a battle but lost the war and the surreal intrusion of live war coverage every night into the television sets of America This latter fact gave birth to pressures on MACV to invent such news bits as body count hooches burned acres of defoliation and gallons of Agent Orange Throughout this circus the American fighting man distinguished himself as a warrior as a patriot and as resilient in the face of a determined and skilled enemy Once back in the USA there was trauma and vitriol experienced by many at airports and street demonstrations Agent Orange and PTSD have combined to result in more Vietnam vets dying by suicide than died during the conflict The nation s homeless population is even today comprised approximately 20 percent Nam vets The healing began with the Vietnam Memorial the Wall and has picked up some momentum with the Honor Flight Program Half a century later we ve made a start to the healing <https://www.myvietnamjourney.com> **Inland Printer,**
