you write a history of a group that has been written out of history In The Accidental Archives of the Royal Chicano Air Force world famous archaeologist La Stef and the clandestine Con Sapos Archaeological Collective track down the facts about the elusive RCAF the Rebel Chicano Art Front that through an understandable mix up with the Royal Canadian Air Force became the Royal Chicano Air Force La Stef and her fellow archaeologists document the plight and locura que cura of the RCAF a group renowned for its fleet of adobe airplanes ongoing subversive performance stance and key role as poster makers for the United Farm Workers Union during the height of the Chicano civil rights movement As the Con Sapos team uncovers tensions between fact and fiction in historical consciousness and public memory they abandon didactic instruction and strive instead to offer a historiography in which various cultural paradigms already intersect seamlessly and on equal ground That

they often fail to navigate the blurred lines between objective Western archival sciences and Indigenous Chicana/o cosmologies reflects the very human predicament of documenting the histories of complicated New Worlds everywhere. Uniquely blending art history, oral history, cultural studies, and anthropology, *The Accidental Archives* of the Royal Chicano Air Force suspends historical realities and leaps through epochs and between conversations with various historical figures both dead and alive to offer readers an intimate experience of RCAF history.

[Herbal Medicines for Gastrointestinal and Hepatic Diseases - Novel Pharmacological and Toxicological approaches, Volume I, 2nd edition](#)

Muhammad Hasnat,, Mirza Muhammad Faran Ashraf Baig,, Mohammad Saleem, Aftab Ullah, Muhammad Faisal Nadeem, Alessandra Durazzo, Massimo Lucarini, 2023-07-21 This Research Topic is part of a series with *Herbal Medicines for Gastrointestinal and Hepatic Diseases Novel Pharmacological and Toxicological approaches Volume II Ethnopharmacology*. deals with the exchange of knowledge about people's use of herbal medicines and their pharmacological effects. The information related to therapeutic agents of plant origin and their toxic effects was preserved by oral tradition as well as recorded in *materia medica*. Many drugs that are now available on the market have been developed from this valuable information. Today scientists that specialize in medicinal chemistry use these existing herbal drugs to develop and produce more therapeutically active agents with less toxic side effects. The gastrointestinal tract (GIT) is a multi-organ system consisting of bacteria and digestive enzymes that have the capacity of degrading food and other molecules. Diseases associated with this organ system include peptic ulcer, inflammatory bowel disease, gastric cancer, to name a few. The liver receives seventy percent of its blood supply from the GIT via the hepatic portal vein. The disruption in the gut-liver axis is associated with liver diseases including alcohol-associated liver disease (ALD), non-alcoholic fatty liver disease (NAFLD), and autoimmune liver disease (AILD). NAFLD can cause non-alcoholic steatohepatitis, which can develop into liver cirrhosis through inflammation and fibrosis. Liver cirrhosis is categorized as an end stage of chronic liver disease which impairs innate

immunity related genes Growing evidence from preclinical studies proposes that the gut liver axis leads to targeted therapeutic modalities for various liver injuries Therefore therapeutic treatment of these conditions is essential to prevent progression to these more harmful late stage diseases *A Year in Seventeenth-century Kyoto* Gerald Groemer, 2022-12-31
Before the twentieth century Japanese religious and cultural life was shaped by a variety of yearly ceremonies festivals and customs These annual events nenju gyoji included Shinto festivals in which participants danced through the night to boisterous music and Buddhist temple practices that honored deities great priests or temple founders with solemn rituals and prayers and sometimes when the Buddha was invoked raucous dancing Temples also hosted popular fairs where holy objects and artwork were displayed to the faithful and curious Countless other celebrations were held annually at the residences of the nobility and military elite and at commoner domiciles Kyoto the imperial and cultural capital since the eighth century was the center of many of these events From Kyoto festivals rituals and celebrations diffused to other parts of the land ultimately shaping religious artistic and everyday life as a whole By the seventeenth century the Kyoto public wished to inform itself more accurately about nenju gyoji and their dates and meanings As a result a growing number of guidebooks and almanacs were written and published for the urban populace This volume is the first to present translations of two such publications Introductory chapters explain Japanese conceptions of time and space within which annual celebrations took place and outline how ceremonies and festivals in and about Kyoto were chronicled described and interpreted from the earliest times to the seventeenth century The final two chapters offer annotated translations of writings from the seventeenth century that catalogue and describe the dates sites meanings and histories of many Kyoto annual events The two works one largely historical the other more ethnographic in nature indicate not only when and where observances and commemorations took place but also how their authors understood the significance of each Both translations feature a large number of illustrations depicting events as they appeared in Kyoto at the time **Reference Encyclopedia of the American Indian** Barry T.
