**The Handbook of Bird Identification** Mark Beaman, Steve Madge, 2010-09-30

An identification guide covering all the bird species to have occurred in the European region Birding is one of the most popular activities and pastimes in Europe and so it follows that it is essential to be able to identify the birds on view be it in the back garden or for making more serious in depth studies This book aims to bring together as much information as possible in one volume using extremely detailed up to date guides and identification of every species known to have occurred in Europe and the West Palearctic that is the whole of Europe North Africa as far south as the Central Sahara the Middle East to the border of Iran the Azores Madeira Canary Islands the islands off Mauritania and the Cape Verde islands as defined by Cramp and Simons 1977 They have certainly been successful in doing so and have produced a wonderfully comprehensive guide covering nearly 900 species showing a wide range of differing plumages The colour plates are exquisite and have been painted by some of Europe's leading bird artists The text is clear and can be followed by beginners but finer points of identification are included for the benefit of more serious bird watchers Particularly helpful is the cross referencing of the text and colour plates There are more than 600 colour maps to identify where the birds are to be found which are simple and easy to use with excellent descriptions of status and habitat

*Birds in Europe* BirdLife International, 2004 New review of bird conservation compiled by Ian Burfield and Frans van Bommel In 1994 BirdLife International published the landmark *Birds in Europe their Conservation Status* the first ever review of the conservation status of all regularly occurring European birds This book rapidly became a cornerstone of BirdLife's conservation work and is widely used by the European Commission national governments and NGO's Fully updated *Birds in Europe Population Estimates Trends and Conservation Status* covers the European continent from Greenland in the west to the Urals in the east and from Svalbard in the north to the Canary Islands in the south including Balkan and Caucasian countries where political instability made data collection impossible in 1994 Setting a new standard for conservation data *Birds in Europe 1994* was highly praised for the depth and breadth of its research Monitoring programmes established since then have provided an even higher accuracy and quality of data for *Birds in Europe 2004* Full population data is included on all 526 species regularly occurring in Europe Half a page is devoted to each species including an illustration distribution map population and trends data status information and a concise summary of its status across Europe What the reviewers said about *Birds in Europe 1994* This work can only be described as monumental *British Birds* Anyone travelling to a European country should use this book to find out what is really happening *British Birds* This professionally researched excellently presented and yet affordable book provides a unique review of the conservation status of European birds *Biological Conservation* an astonishing tour de force Ibis an ornithological bible for any bookshelf *Bird Book of the Year 1995* *Birdwatch* a veritable goldmine of information on breeding

and wintering populations across the continent Birdwatch Should be compulsory reading for Europe's environment ministers New Scientist Any serious birder will find this fascinating reading New Scientist The baseline for the conservation of the birds of Europe Birding World easily readable information has been crammed into a small space with which it is possible to get a good general picture of the status of a species in Europe Alula An invaluable indicator of the health of Europe's birdlife clearly showing where conservation efforts should be concentrated The publishers should be congratulated Birdwatch A fascinating browse well produced and not expensive so everyone with a serious interest in the birds of Europe should own a copy Birding World Genuinely continent wide a frightening amount of information is packed into each species account but the layout is clear and you can cut to the chase quickly if you are in a hurry Deserves a wide audience Highly recommended British Birds *Habitats for Birds in Europe* Graham M. Tucker, M. I. Evans, 1997 The greatest threats to Europe's birds and biodiversity come from loss and degradation of habitat This book brings together more than 190 bird and habitat conservation experts from all over Europe to examine the threats to Europe's eight major habitat types and propose policies and actions to protect and restore them Although the emphasis is on birds particularly the 40 percent of European species with an unfavourable conservation status many recommendations would help conserve all elements of biodiversity in the wider European environment An important contribution to the conservation of biodiversity in Europe Peter L Nielsen European Commission An extremely valuable reference for bird conservationists in any continent The Wilson Bulletin
