Samizdat, Tamizdat, and Beyond Friederike Kind-Kovács,Jessie Labov,2013-03-01 In many ways what is identified today as cultural globalization in Eastern Europe has its roots in the Cold War phenomena of samizdat do it yourself underground publishing and tamizdat publishing abroad This volume offers a new understanding of how information flowed between East and West during the Cold War as well as the much broader circulation of cultural products instigated and sustained by these practices By expanding the definitions of samizdat and tamizdat from explicitly political print publications to include other forms and genres this volume investigates the wider cultural sphere of alternative and semi official texts broadcast media reproductions of visual art and music and in the post 1989 period new media The underground circulation of uncensored texts in the Cold War era serves as a useful foundation for comparison when looking at current examples of censorship independent media and the use of new media in countries like China Iran and the former Yugoslavia 100 Film Musicals Douglas Pye,Jim Hillier,2019-07-25 From the coming of sound to the 1960s the musical was central to Hollywood production Exhibiting often in spectacular fashion the remarkable resources of the Hollywood studios musicals came to epitomise the very idea of light entertainment Films like Top Hat and 42nd Street Meet Me in St Louis and On the Town Singin in the Rain and Oklahoma West Side Story and The Sound of Music were hugely popular yet were commonly regarded by cultural commentators as trivial and escapist It was the 1970s before serious study of the Hollywood musical began to

change critical attitudes and foster an interest in musical films produced in other cultures Hollywood musicals have become less common but the genre persists and both academic interest in and fond nostalgia for the musical shows no signs of abating 100 Film Musicals provides a stimulating overview of the genre's development its major themes and the critical debates it has provoked While centred on the dominant Hollywood tradition 100 Film Musicals includes films from countries that often tried to emulate the Hollywood style like Britain and Germany as well as from very different cultures like India Egypt and Japan Jim Hillier and Douglas Pye also discuss post 1960s films from many different sources which adapt and reflect on the conventions of the genre including recent examples such as Moulin Rouge and High School Musical demonstrating that the genre is still very much alive

Kilerci-Stevanović,2025-06-16 This book challenges Eurocentric interpretations of the so called Turkish German cinema from a transnational perspective advocating for a comprehensive reevaluation to encourage enriched dialogues The first part critically assesses dominant media discourses on guest workers and migrants in the historiography of Turkish German cinema arguing for a shift from traditional identity focused narratives to a broader exploration of shared emotions The second part explores Arabesk which while originating as a hybrid musical genre has evolved into a significant cultural force encompassing a range of emotional phenomena Arabesk embodies the visceral often painful expressions of migration and dislocation characterized by a profound emotional intensity It articulates a painful passion and longing for the homeland left behind providing an invaluable method for understanding aesthetic nuances of Turkish German films Arabesk serves as an analytical tool for deconstructing cinematic expressions revealing complex emotional ties and cultivating a feeling of familiarity through the dynamic circulation and exchange of cultural media Thus Arabesk s poetics significantly shape transnational cinema practices and contribute to global cinema discourse
