**The Ismailis in the Middle Ages** Shafique N. Virani, 2007-04-19 None of that people should be spared not even the babe in its cradle With these chilling words the Mongol warlord Genghis Khan declared his intention to destroy the Ismailis one of the most intellectually and politically significant Muslim communities of medieval Islamdom The massacres that followed convinced observers that this powerful voice of Shi i Islam had been forever silenced Little was heard of these people for centuries until their recent and dramatic emergence from obscurity Today they exist as a dynamic and thriving community established in over twenty five countries Yet the interval between what appeared to have been their total annihilation and their modern seemingly phoenix like renaissance has remained shrouded in mystery Drawing on an astonishing array of sources gathered from many countries around the globe **The Ismailis in the Middle Ages A History of Survival A Search for Salvation** is a richly nuanced and compelling study of the murkiest portion of this era In probing the period from the dark days when the Ismaili fortresses in Iran fell before the marauding Mongol hordes to the emergence at Anjudan of the Ismaili Imams who provided a spiritual centre to a scattered community this work explores the motivations passions and presumptions of historical actors With penetrating insight Shafique N Virani examines the rich esoteric thought that animated the Ismailis and enabled them to persevere A work of remarkable erudition this landmark book is essential reading for scholars of Islamic history and spirituality Shi ism and Iran Both specialists and informed lay readers will take pleasure not only in its scholarly perception but in its lively anecdotes quotations of delightful poetry and gripping narrative style This is an extraordinary book of historical beauty and spiritual vision

**Esotericism, Mysticism, and the Politics of Transcendence in Modern Asia** Soumen Mukherjee, Toshio Akai, 2025-07-15 This invaluable anthology examines histories of esotericism mysticism and occultism in modern Asia understood here as the period roughly stretching from the late nineteenth through the twentieth century and paving eventually the way for the so called New Age The idea of histories in plural has to do with the complexities of their lineages the many pathways through which their affinities encounters and entanglements flowed and or developed during the period under review The contributors hail from different disciplines history literature and religious studies for instance and in what accounts for a cutting edge of the book provide truly multidisciplinary insights on the subject in one single volume Their select case studies illuminate key aspects of contemporaneous socio religious processes They explicate how aspects of mysticism esotericism and occultism were closely tied to wider socio political and intellectual processes of the period that were at once transregional even global and frequently transcultural and or cosmopolitan in character Postgraduate students research scholars and academics in general working in the fields of religious studies and or Asian religions in modern times will find this collection to be of great interest

**Who Owns Religion?** Laurie L. Patton, 2019-11-27 Who Owns Religion focuses on a period the late 1980s through the 1990s when scholars of religion were accused of scandalizing or denigrating the very communities they had imagined

themselves honoring through their work While controversies involving scholarly claims about religion are nothing new this period saw an increase in vitriol that remains with us today Authors of seemingly arcane studies on subjects like the origins of the idea of Mother Earth or the sexual dynamics of mysticism have been targets of hate mail and book banning campaigns As a result scholars of religion have struggled to describe their own work to their various publics and even to themselves Taking the reader through several compelling case studies Patton identifies two trends of the 80s and 90s that fueled that rise the growth of multicultural identity politics which enabled a form of volatile public debate she terms eruptive public space and the advent of the internet which offered new ways for religious groups to read scholarship and respond publicly These controversies she shows were also fundamentally about something new the very rights of secular Western scholarship to interpret religions at all Patton's book holds out hope that scholars can find a space for their work between the university and the communities they study Scholars of religion she argues have multiple masters and must move between them while writing histories and speaking about realities that not everyone may be interested in hearing

Miracles David L Weddle, 2010-07-09 Despite the dominance of scientific explanation in the modern world at the beginning of the twenty first century faith in miracles remains strong particularly in resurgent forms of traditional religion In *Miracles* David L Weddle examines how five religious traditions Hinduism Judaism Buddhism Christianity and Islam understand miracles considering how they express popular enthusiasm for wondrous tales how they provoke official regulation because of their potential to disrupt authority and how they are denied by critics within each tradition who regard belief in miracles as an illusory distraction from moral responsibility In dynamic and accessible prose Weddle shows us what miracles are what they mean and why despite overwhelming scientific evidence they are still significant today belief in miracles sustains the hope that if there is a reality that surpasses our ordinary lives it is capable of exercising from time to time creative liberating enlightening and healing power in our world

*Songs of Wisdom and Circles of Dance* Tazim R. Kassam, Pir Shams Sabzawāri, 1992 To date the syncretic nature of Satpanth Isma ilism has been viewed within a framework of conversion Thus generally the gnan literature has been explained as the creative attempts of Isma ili pirs venerated teachers to effect changes in religious orientation by conveying Nizari Isma ili teachings through Hindu symbols and themes However an examination of the internal evidence in the ginans of Pir Shams who belonged to the beginnings of Satpanth in conjunction with events in Sind and the greater Isma ili world at the time has brought into focus crucial social and political factors that may also have instigated the formation of Satpanth Isma ilism
