Gottlieb,2014-01-14 Examine the impact of disclosure on sons whose fathers are gay In this book Andrew Gottlieb author of

Out of the Twilight Fathers of Gay Men Speak explores yet another side of the impact of homosexuality on families. He now looks at how sons react to learning that their fathers are gay, allowing us to see over time how this has changed their family relationships and their own lives. Simply and elegantly written, this psychoanalytically oriented qualitative research study is accessible to both the beginner and the more advanced researcher and practitioner. It draws from a wide range of literary, popular, and psychological sources and includes an interview guide, a reference section, and an index. When someone discloses as gay, lesbian, or bisexual, it is not just an individual event; it is a family event. Based on estimates of married gay, lesbian, and bisexual persons, a spouse's coming out affects up to 2,000,000 couples. Yet its impact has been largely ignored. Children's voices are the least often heard. Little has been written about sons of fathers who came out during or after marriage. Data for studies that do exist most often draw from the fathers' point of view. The significance of this study lies in its comprehensive, detailed picture of sons and gay fathers as they develop their separate self-images as well as the images of their son-father relationships over time. Painful, sensitive, often triumphant, the stories and the author's analysis of their thoughts, perceptions, and feelings afford a multidimensional, longitudinal viewing. Step by step, we follow the complicated dance of these sons and fathers as they develop and define their connection from the Foreword by Amity Pierce Buxton, Author of *The Other Side of the Closet: The Coming Out Crisis for Straight Spouses and Families*. *Sons Talk About Their Gay Fathers: Life Curves* is a storybook, an extended narrative, moved along but not overshadowed by psychoanalytic theory. The Introduction briefly reviews more recent writings of the fathering experience as told by gay men themselves, setting the stage for Father to Child to look at the father as seen through the ever-shifting eyes of his son at different phases of the life cycle. The Quest for the Real Father: an examination of sons' responses to their fathers' homosexuality as captured in film, fiction, nonfiction, television, and the psychological literature. Methodology: the story of the research process, including sampling, the search for subjects, trustworthiness, the interview, bias, and data collection. The Stories: an anthology of narratives the author constructed from the interview material, painting an intimate portrait of each individual son. Findings: a categorical analysis. Discussion: a summary of all the preceding material, cast in a developmental framework, highlighting implications for future research and clinical practice.

The Son of God Martin Hengel, 2007-02-01. This work significantly advances the critical discussion of New Testament Christology. Hengel examines the titles Son and God. He points toward an inner consistency and dynamic in the development of the doctrine of Christ in primitive Christianity as the movement proceeded from the Gospels' account of the death of Jesus to the high Christology present in the Pauline writings. Historical scholarship and theological one might even say dogmatic questions must not stand in unresolved contradiction. On the contrary, the historian misunderstands the nature of New Testament Christology if he does not grasp its theological concern and its inner consistency while a dogmatic approach that does not take seriously the historical course of Christianity is in danger of becoming no more than abstract speculation. It is therefore vitally important to unite historical research and the theological search for truth. The
