**Sons of the Gods, Children of Earth** Peter W. Rose,2019-03-15 In this ambitious and venturesome book Peter W Rose applies the insights of Marxist theory to a number of central Greek literary and philosophical texts He explores major points in the trajectory from Homer to Plato where the ideology of inherited excellence beliefs about descent from gods or heroes is elaborated and challenged Rose offers subtle and penetrating new readings of Homer's Iliad and Odyssey Pindar's Tenth Pythian Ode Aeschylus's Oresteia Sophocles Philoktetes and Plato's Republic Rose rejects the view of art as a mere reflection of social and political reality a view that is characteristic not only of most Marxist but of most historically oriented treatments of classical literature He applies instead a Marxian hermeneutic derived from the work of the Frankfurt School and Fredric Jameson His readings focus on illuminating a politics of form within the text while responding to historically specific social political and economic realities Each work he asserts both reflects contemporary conflicts over wealth power and gender roles and constitutes an attempt to transcend the status quo by projecting an ideal community Following Marx Rose maintains that critical engagement with the limitations of the utopian dreams of the past is the only means to the realization of freedom in the present Classicists and their students literary theorists philosophers comparatists and Marxist critics will find *Sons of the Gods Children of Earth* challenging reading
