Soothing Your Child's Pain Kenneth Gorfinkle, 1998. Renowned expert Dr. Kenneth Gorfinkle gives parents proven techniques that include touch, visualization, massage, distraction, and dispensing appropriate medicinal treatment to help communicate and soothe their child's hurting. Techniques vary by age and symptoms. **Child and Infant Pain** Bernadette Carter, 2013-11-11. This book intends to act as a resource for those caring for children. The children I nursed who experienced pain are the stimulus for both my interest in the issue of pain and latterly in writing this book. Some of the children I cared for stand out as milestones in terms of provoking thought and in questioning practice. James, Ralph, and Felicity. These children were tough and brave and taught me a lot about the human aspect of pain and suffering. However, as children, especially vulnerable children in hospital, they would not have had to have been as tough or as brave if had been more knowledgeable about practice issues such as distraction, imagery, massage, and so on, or had a better understanding of the complexity of pain. Nursing should add to a child's life. By developing knowledge and skills within pain management and prevention, nurses are in

a strong position to ensure that they the child and their family are in control of the pain and that the pain is not in control of the child Developing these skills is ultimately rewarding both personally and professionally and nurses should be encouraged to scrutinize their practice carefully and identify areas where improvements could be made Listening carefully to what children and their families say about their pain and in identifying the needs of the individual child is an essential part of holistic and comprehensive nursing care When Your Child Is Grieving Amy O'Hana,2019-07-02 To Heal Your Child s Broken Heart Start with Hope How can you help your child get through a deeply painful loss the breakup of a family the death of a pet or even the passing of a loved one especially when you might be dealing with your own grief God sees your family s pain and longs to walk through it with you It s one of the reasons He sent His Son Jesus to heal our broken hearts Most important God wants to give your child hope Dr Amy Ford is a licensed professional counselor professor and parent who specializes in complex psychological issues including trauma and grief She offers spiritual encouragement from God s Word and expert advice to address your child s specific needs You will gain the wisdom skills and practical ideas you need to help your child during this difficult time Grieving can be a long and difficult process especially for children but with God s help and the loving support of friends and family grief can give way to new life Your child will get through this and so will you
