**Sophia's Destiny** Prisl,2006-02-17      *Sophia* Karsten Massei,2025-09-25 Over time I realized that Sophia has long since united herself with the human being It became apparent to me that her sphere of being has become the sphere of the human soul With a strong emphasis on personal inquiry Karsten Massei provides a unique guide to inner pathways that lead to Sophia using spiritual writings meditations and imagery He reveals Sophia as a goddess who embodies diverse aspects of ancient creative deities such as Isis Gaia Athene and Persephone who have accompanied humanity through the ages Though each journey toward her is personal they share a common goal to deepen our understanding of life and infuse it with wisdom This book invites readers to awaken their own direct experience of the spiritual being known as Sophia Drawing on his personal spiritual investigations and inspired by figures such as Hildegard of Bingen and Jacob Boehme who both encountered Sophia consciously Massei explores her relevance to our time and her significance for the modern soul Who is Sophia How can we come to know her And what can we do to develop our own insights and relationship with her These are the questions at the heart of this profound and timely work The gateway to Sophia is wide open I was surprised that nothing obstructed my entry into her intrinsic sphere except my reticence or perhaps my sense of inadequacy or lack of trust Her light illumines our souls whether we wish it or not

know the clues to solving the case may be right in front of them displayed in Sophia's mother's special quilt design Who will realize the secret Sophia's unwittingly been hiding in plain sight When the truth comes to light will Sophia find her voice again Or will the murderer still at large silence her forever *Illness and Healing Alternatives in Western Europe* Marijke Gijswit-Hofstra, Hilary Marland, Hans de Waardt, 2013-01-11 Despite the recent upsurge in interest in alternative medicine and unorthodox healers *Illness and Healing Alternatives in Western Europe* is the first book to focus closely on the relationship between belief culture and healing in the past In essays on France the Netherlands Germany Spain and England from the sixteenth century to the present day the authors draw on a broad range of material from studies of demonologists and reports of asylum doctors to church archives and oral evidence **Sophia's Unfaithful Lovers** Charles E. Brewster, 1996-05 **Pistis Sophia** John van den Berg, 2021-12-11 A Coptic manuscript from late antiquity is known by the scientific name Codex Askewianus attributed to Anthony Askew He acquired it at a London market in 1785 His heirs later entrusted it to the curators of the British Museum At the end of the nineteenth century the manuscript was translated and from then on became known as the Gospel of the Pistis Sophia The German translation by Carl Schmitt from 1905 is the basis for the later English translations by G R S Mead from 1921 and that by Violet MacDermot from 1978 This completely revised English translation is also based on the work of Carl Schmitt To make reading easier titles have been given to the chapters and the codex is treated as one scripture where a thematic distinction in six themes is added Recent research by Erin Evans has made it very plausible that the scripture originates from a congregation once active in Egypt It contains part of their teachings from the third to the fourth century of our era An older scripture by them is known as the books of Jeu Both scriptures are written in Coptic most likely based on an unknown Greek original Coptic is a language that came into vogue in ancient Egypt It is Old Egyptian called Demotic written with Greek characters supplemented with seven extra characters A word that occurs frequently in this English version is the word repent The original Greek word for it is metanoia which literally means meta thought or beyond thought Thus repentance has the meaning of a state of consciousness beyond the human thought To repent then is to come to an awareness of what is beyond the world of thought beyond the human mind The repentance of the Pistis Sophia thus takes her beyond the spiritual powers of the darkness with their archons and emanations of Authades the mighty human willpower Through consciousness she enters the thirteenth eon after an outpouring of light has taken her there as if she has grown wings and no longer needs to touch the darkness From then on she brings back to mankind the wisdom from beyond the human mind which once had become forgotten What this scripture wants to tell the reader in our modern times is that on the basis of the inner intention to truly get to know the mysteries a power appears to help in this process The myth tells us the story of Jesus with his disciples on the Mount of Olives after the crucifixion after the power of Jesus connected itself with mankind The disciples are the people who start becoming conscious of this liberating power For it is the act from true awareness that makes all the powers of the saviour active in the human life

in the world of space and time As soon as someone decides to be a disciple there is a readiness to let the saviour guide this inner life This is why the entire scripture is written as a dialogue between Jesus and his disciples This dialogue begins on the Mount of Olives From this place the holy city of Jerusalem can be seen It is the state of consciousness of the disciples who are preparing themselves to enter into the holy city Jerusalem the treasury of the light When Jesus has spoken the first words in the midst of the disciples and the disciples understand their privileged position Jesus ascends surrounded by a threefold light He comes back with his garments of light from the treasury of the light These garments of light contain all the mysteries that is all the hidden knowledge that need to be revealed to the disciples in order to enable them to enter the treasury of light themselves Thus they gain a higher level of consciousness beyond thought [Pistis Sophia](#) G. R. S. Mead,     Pistis Sophia Unknown,2016-10-02

The Pistis Sophia is a gnostic book thought to have originated from the 4th century C E It focuses first on the risen Christ teaching his disciples plus the two Mary's about the lower mysteries and then goes on to explain the higher mysteries of gnostic belief The figure of Sophia is prevalent in this text     **Pistis Sophia and The Corpus Hermeticum** ,1947-01-01 It came to pass when Jesus had risen from the dead that he passed eleven years discoursing with his disciples and instructing them only up to the regions of the First Commandment and up to the regions of the First Mystery that within the Veil within the First Commandment which is the four and twentieth mystery without and below those four and twenty which are in the second space of the First Mystery which is before all mysteries the Father in the form of a dove What the First Mystery surroundeth And Jesus said to his disciples I am come forth out of that First Mystery which is the last mystery that is the four and twentieth mystery And his disciples have not known nor understood that anything existeth within that mystery but they thought of that mystery that it is the head of the universe and the head of all existence and they thought it is the completion of all completions because Jesus had said to them concerning that mystery that it surroundeth the First Commandment and the five Impressions and the great Light and the five Helpers and the whole Treasury of the Light And moreover Jesus had not told his disciples The regions of the great Invisible the total expansion of all the regions of the great Invisible and of the three triple powers and of the four and twenty invisibles and all their regions and their ons and their orders how they are extended those which are the emanations of the great Invisible and their ungenerated and their self generated and their generated and their light givers and their unpaired and their rulers and their authorities and their lords and their archangels and their angels and their decans and their servitors and all the houses of their spheres and all the orders of every one of them The Treasury of the Light And Jesus had not told his disciples the total expansion of the emanations of the Treasury nor their orders how they are extended nor had he told them their saviours according to the order of every one how they are nor

had he told them what guard is at every gate of the Treasury of the Light nor had he told them the region of the Twin saviour who is the Child of the Child nor had he told them the regions of the three Am ns in what regions they are expanded nor had he told them into what region the five Trees are expanded nor as to the seven Am ns that is the seven Voices what is their region how they are expanded The Light world And Jesus had not told his disciples of what type are the five Helpers nor into what region they are brought nor had he told them how the great Light hath expanded itself nor into what region it hath been brought nor had he told them of the five Impressions nor as to the First Commandment into what region they have been brought But he had discoursed with them generally teaching that they exist but he had not told them their expansion and the order of their regions how they are For this cause they have not known that there were also other regions within that mystery And he had not told his disciples I have gone forth out of such and such regions until I entered into that mystery and until I went forth out of it but in teaching them he said to them I am come forth from that mystery For this cause then they thought of that mystery that it is the completion of completions and that it is the head of the universe and that it is the total Fulness For Jesus had said to his disciples That mystery surroundeth that universe of which I have spoken unto you from the day when I met with you even unto this day For this cause then the disciples thought there is nothing within that mystery
