Women in Hispanic Literature Beth Miller, 2024-06-28 The topics covered by this pioneering collection of essays range from peninsular Spanish to Latin American literature from the eleventh to the twentieth centuries and from the subject of women as portrayed in Hispanic literature to the literature of Hispanic women writers Some pieces present polemical feminist arguments other are more traditional All the contributors use their subject to take new stands on old controversies ask new questions and reevaluate important aspects of Hispanic literature While there is ample evidence in these essays of the dual archetype in Hispanic literature of women as icon and woman as fallen idol the collection reaches beyond these stereotypes to more complex sociological and theoretical concerns Although such research has been abundantly pursued by scholars of English and American literature it has been notably absent from Hispanic studies This anthology is a comprehensive introduction to its subject and a stimulus to further work in the area Contributors Fernando Alegria Electa

[Dark Brilliance](#) Paul Strathern,2025-01-07 A sweeping history of The Age of Reason revealing how although it was a time of great progress it was also an era of brutality and intolerance with a very human cost During the 1600s between the end of the Renaissance and the start of the Enlightenment Europe lived through an era known as The Age of Reason This was a revolutionary period that saw great advances in areas such as art science philosophy political theory and economics However all this was accomplished against a background of extreme political turbulence on a continental scale in the form of internal conflicts and international wars Indeed the Age of Reason itself was born at the same time as the Thirty Years War which would devastate central Europe to an extent that would not be experienced again until World War I This period also saw the development of European empires across the world as well as a lucrative new transatlantic commerce that brought transformative riches to Western European society However there was a dark underside to this brilliant wealth it was dependent upon human slavery By exploring all the key events and bringing to life some of the most influential characters of the era including Caravaggio Rembrandt Newton Descartes Spinoza Louis XIV and Charles I acclaimed historian Paul Strathern tells the vivid story of this paradoxical age while also exploring the painful cost of creating the progress and modernity upon which the Western world was built
