Soul Destination Noy Imani Saara, 2011-11-15 I had to dedicate this piece of work to our long long struggle because after all which we have experienced we have not given up We have been pushed way beyond our limits and we are now learning that we have all strengths all powers that we truly do not have any limitations so we should also know that we should have no fears In this cosmic battle taking place on this physical plane on a planet call Earth it is the warrior within the soul which has carried us thus far it is the warrior component of our being which has allowed us to say to this day we want back the planet Without the warrior s aspectability our warrior within how would we have been able to clear the paths within our hearts to even want to fight back about the coffle lines after the dungeons after the sailing labyrinths after the plantations after the united states constitution after the ghetto isolations after the prison camps after the drug epidemic then our dis uniting which has evolved into a civil war it is our warrior which has carried us this far We are on two fronts fighting the worst enemy ever in a land which is dangerous far from home surrounded and completely infiltrated by this enemy mentally physically spiritually psychologically genetically with the lost of our gods our language our connection to the universe Our only means to survive and to win is for our warrior within to prepare to kill and to die But first our warriors within must defend defeat and clean our inner atmosphere our inner demons our inner enemies Only with the warrior s aspectability can the will be used with the mind and heart to achieve complete victory complete harmony with ourselves and our universe our GODS

Yijiang Zhong analyses the formation of Shinto as a complex and diverse religious tradition in early modern and Meiji Japan 1600 1868 Highlighting the role of the god Okuninushi and the mythology centered on the Izumo Shrine in western Japan as part of this process he shows how and why this god came to be ignored in State Shinto in the modern period In doing so Zhong moves away from the traditional understanding of Shinto history as something completely internal to the nation of Japan and instead situates the formation of Shinto within a larger geopolitical context involving intellectual and political developments in the East Asian region and the role of western colonial expansion The Origin of Modern Shinto in Japan draws extensively on primary source materials in Japan many of which were only made available to the public less than a decade ago and have not yet been studied Source materials analysed include shrine records and object

materials contemporary written texts official materials from the national and provincial levels and a broad range of visual sources based on contemporary prints drawings photographs and material culture      *Soul Keeping* John Ortberg, 2014-04-22
