Sounds Australian , 2006 [Jazz Diaspora](#) Bruce Johnson, 2019-10-16 Jazz Diaspora Music and Globalisation is about the international diaspora of jazz well underway within a year of the first jazz recordings in 1917 This book studies

the processes of the global jazz diaspora and its implications for jazz historiography in general arguing for its relevance to the fields of sonic studies and cognitive theory Until the late twentieth century the historiography and analysis of jazz were centred on the US to the almost complete exclusion of any other region The driving premise of this book is that jazz was not invented and then exported it was invented in the process of being disseminated Jazz Diaspora is a sustained argument for an alternative historiography based on a shift from a US centric to a diasporic perspective on the music The rationale is double edged It appears that most of the world s jazz is experienced performed and consumed in diasporic sites that is outside its agreed geographical point of origin and to ignore diasporic jazz is thus to ignore most jazz activity It is also widely felt that the balance has shifted as jazz in its homeland has become increasingly conservative There has been an assumption that only the authentic version of the music as represented in its country of origin was of aesthetic and historical interest in the jazz narrative that the forms that emerged in other countries were simply rather pallid and enervated echoes of the real thing This has been accompanied by challenges to the criterion of place and race based authenticity as a way of assessing the value of popular music forms in general As the prototype for the globalisation of popular music diasporic jazz provides a richly instructive template for the study of the history of modernity as played out musically **BiblioAsia** ,2011-04 *My Giddy Aunt and Other Sister Comedians* Sharon Connolly,2022-08-02 Whip smart and fabulously funny the women of vaudeville entertained Australia and challenged ideas of how women should behave Opening a forgotten case of photographs Sharon Connolly begins a search for the great aunt she never knew Gladys Shaw was a whistling comedian a singer and saxophonist an eccentric dancer and a whip cracker one of the girls who once made Australia laugh They were musical comics character actors and male impersonators in an entertainment industry being transformed by cinema and radio They parodied men played naive maidens and maiden aunts but they were modern women independent determined and sometimes wild And they lived in a world of changing ideas about how women were expected to behave and dress Filmmaker Sharon Connolly finds a sisterhood of jesters who charmed and surprised the backblocks towns and big cities of Australia and New Zealand during the early 20th century With a foreword by historian Professor Ann Curthoys *My Giddy Aunt* tells how funny girls became entertaining women while negotiating a society made for men **Always Already New** Lisa Gitelman,2008-08-29 In *Always Already New* Lisa Gitelman explores the newness of new media while she asks what it means to do media history Using the examples of early recorded sound and digital networks Gitelman challenges readers to think about the ways that media work as the simultaneous subjects and instruments of historical inquiry Presenting original case studies of Edison s first phonographs and the Pentagon s first distributed digital network the ARPANET Gitelman points suggestively toward similarities that underlie the cultural definition of records phonographic and not at the end of the nineteenth century and the definition of documents digital and not at the end of the twentieth As a result *Always Already New* speaks to present concerns about the humanities as much as to the emergent field of new media studies Records and documents are kernels of

humanistic thought after all part of and party to the cultural impulse to preserve and interpret Gitelman s argument suggests inventive contexts for humanities computing while also offering a new perspective on such traditional humanities disciplines as literary history Making extensive use of archival sources Gitelman describes the ways in which recorded sound and digitally networked text each emerged as local anomalies that were yet deeply embedded within the reigning logic of public life and public memory In the end Gitelman turns to the World Wide Web and asks how the history of the Web is already being told how the Web might also resist history and how using the Web might be producing the conditions of its own historicity

Media International Australia ,2002 *BiblioAsia* National Library (Singapore),2008 *International History of the Recording Industry* Pekka Gronow,Ilpo Saunio,1999-07-26 This book explores the fascinating world of the record business its technology the music and the musicians from Edison s phonograph to the compact disc The great artists Caruso Toscanini Louis Armstrong Elvis Presley and their successors all achieved fame through the medium of records and in turn have influenced the recording industry But just as important are the record producers those invisible figures who decide from behind the scenes how a record will sound The history of recording is also the history of record companies the book follows the vicissitudes of the multinational giants without neglecting the small pioneering labels which have brought valuable new talents to the fore

Dance Hall & Picture Palace Jill Julius Matthews,2005 This book paints Sydney between the depressions of the 1890s and the 1930s as a prosperous city riding an international wave of modernism In the pub parlour and pulpit people clashed over the significance of moving pictures jazz new dance crazes the radio gramophone records and cheap magazines Conventional accounts of the Australian film industry at the beginning of the twentieth century focus on the impact of Hollywood on local production But in this vibrant history the author shows how moving pictures captured the imagination of Sydneys people and transformed how they thought about the world Jill Julius Matthews describes how in Sydney as elsewhere young flappers came to embody both glamour and decadence in modern city life She uncovers entrepreneurs bribing politicians as they aggressively pursued profits for their American patrons and reveals the innovative marketing techniques that provoked cultural elites to deplore commercialisation
