Sound and Sign Hilde S. Schlesinger, Kathryn P. Meadow-Orlans, 1972 **Sound and Sign: Childhood Deafness and Mental Health** Hilde S. and Meadow Kathryn P. Schlesinger, 2000 **Mental Health and Deafness** Margaret du Feu MD, Cathy Chovaz PhD, 2014-03-27 The assessment and treatment of mental health concerns for Deaf individuals has been largely ignored and or misunderstood by many mental health professionals In *Mental Health and Deafness* Margaret du Feu and Cathy Chovaz seek to rectify this by outlining current issues surrounding mental health and deafness The book provides valuable information to professionals interested in expanding their knowledge of mental health and deafness and the authors share their extensive clinical experience with the reader through a variety of case studies The authors primarily focus on individuals who were born deaf or deafened early in life but also describe the mental health aspects of acquired deafness and individuals with both deafness and blindness *Mental Health and Deafness* begins by describing the historical and social context of deafness and follows the life journey of a Deaf individual focusing on parental reactions language acquisition and mental health disorders of children adolescents adults and the elderly Chapters cover relevant issues regarding assessment treatment and forensic and legal issues The book concludes with an overview of service development *Mental Health Care of Deaf People* Neil S. Glickman, Sanjay Gulati, 2003-05-14 Deaf adults and children like their hearing counterparts experience a full range of mental health problems They develop psychoses sink into deep depressions abuse alcohol and drugs commit sexual offenses or simply have trouble adjusting to new life situations But when a deaf client appears on the doorstep of an ordinary hospital residential facility clinic or office panic often ensues *Mental Health Care of Deaf People* A Culturally Affirmative Approach offers much needed help to clinical and counseling psychologists psychiatrists social workers nurses and other mental health professionals and to their program administrators The editors a psychologist and a psychiatrist and the authors leading authorities with a variety of expertises systematically review the special needs of deaf patients particularly those who regard themselves as culturally Deaf and provide professionals with the tools they need to meet those needs Among these tools is an extensive library of pictorial questionnaires and information sheets developed by one of the very few psychiatric units in the country devoted to the deaf These handouts greatly simplify the processes involved in the diagnosis and treatment of people who in many cases are not good readers for example explaining medication and inquiring about side effects The handouts are reproduced on downloadable resources to enable purchasers to print out and use copies in their work This comprehensive clinical guide and its accompanying downloadable resources constitute vital resources for all those who seek to provide sensitive effective mental health care to deaf people *Sound Minds in a Soundless World* Luther D. Robinson, 1978 *Culturally Affirmative Psychotherapy With Deaf Persons* Neil S. Glickman, Michael A. Harvey, 2013-10-23 The impetus for this volume is the growing awareness within the mental health and larger community of a culturally affirmative model for understanding and assisting deaf people In contrast to the medical pathological model

which treats deafness as a disability the cultural model guides us to view deaf persons in relation to the deaf community a group of people with a common language culture and collective identity A primary tenant of culturally affirmative psychotherapy is to understand and respect such differences not to eradicate them The contributors to this volume present a practical and realistic model of providing culturally affirmative counseling and psychotherapy for deaf people The three dimensions of this model have been delineated by the multicultural counseling literature These dimensions assert that culturally affirmative psychotherapy with deaf persons requires therapist self awareness knowledge of the deaf community culture and understanding of culturally syntonetic therapeutic interventions The first to exhaustively delineate the implications of the cultural model of deafness for counseling deaf people this book is essential reading for anyone who works in an educational or counseling capacity with the deaf This audience includes not only psychotherapists but also vocational guidance and residence counselors teachers independent living skills specialists interpreters and administrators of programs for the deaf

Deaf Mental Health Care Neil S. Glickman, 2013-01-04 This volume presents a state of the art account of the clinical specialty of mental health care of deaf people Drawing upon some of the leading clinicians teachers administrators and researchers in this field from the United States and Great Britain it addresses critical issues from this specialty such as Deaf hearing cross cultural dynamics as they impact treatment organizations Clinical and interpreting work with deaf persons with widely varying language abilities Adaptations of best practices in inpatient residential trauma and substance abuse treatment for deaf persons Overcoming administrative barriers to establishing statewide continua of care University training of clinical specialists The interplay of clinical and forensic responses to deaf people who commit crimes An agenda of priorities for Deaf mental health research Each chapter contains numerous clinical case studies and places a heavy emphasis on providing practical intervention strategies in an interesting easy to read style All mental health professionals who work with deaf individuals will find this to be an invaluable resource for creating and maintaining culturally affirmative treatment with this population

Deafness and Challenging Behaviour Sally Austen, Dave Jeffery, 2006-11-02 Challenging behaviours such as aggression and violence are more common in deaf people than hearing people Filling a crucial gap in the international market this book will appeal equally to those who work occasionally or entirely with Deaf or hearing impaired client groups of all ages Multi disciplinary professionals with specialist knowledge of working with deaf people explore aspects of mild to severe challenging behaviour with reference to its cause assessment prevention and management This book will be of relevance to professionals and carers involved in the delivery of actual and potential aggression management in the fields of Mental health Education Learning disability Speech and language therapy Prison and forensic services Audiology Nursing International contributors providing a wealth of easily accessible knowledge consider this extremely heterogeneous group from neurological behavioural socio political service user psychodynamic and systemic perspectives

Psychological Perspectives on Deafness Marc Marschark, M. Diane Clark, 2014-04-08 This edited volume picks up where

Psychological Perspectives on Deafness Volume 1 ended Composed of review chapters that reflect cutting edge views from well known international researchers within the field this book surveys issues within the field of deafness such as cognition learning disabilities social development language development and psychopathology It also highlights the many new and exciting findings currently emerging from researchers across a variety of disciplines psychology education linguistics and child development The chapters will engage challenge and lead the field on to productive empirical and theoretical work relating to the broad range of questions which concern the psychological perspectives on deafness **Inner Lives of Deaf**

Cory Moore,Kathryn Gorham Morton,Joni B. Mills,1977 Emotional Rehabilitation of Physical Trauma and Disability David W. Krueger,1984-06-30 **Rutter's Child and Adolescent Psychiatry** Sir Michael J. Rutter,Dorothy Bishop,Daniel S. Pine,Stephen Scott,Jim S. Stevenson,Eric A. Taylor,Anita Thapar,2011-08-24 Rutter s Child and Adolescent Psychiatry has become an established and accepted textbook of child psychiatry Now completely revised and updated the fifth edition provides a coherent appraisal of the current state of the field to help trainee and practising clinicians in their daily work It is distinctive in being both interdisciplinary and international in its integration of science and clinical practice and in its practical discussion of how researchers and practitioners need to think about conflicting or uncertain findings This new edition now offers an entirely new section on conceptual approaches and several new chapters including neurochemistry and

basic pharmacology brain imaging health economics psychopathology in refugees and asylum seekers bipolar disorder attachment disorders statistical methods for clinicians This leading textbook provides an accurate and comprehensive account of current knowledge through the integration of empirical findings with clinical experience and practice and is essential reading for professionals working in the field of child and adolescent mental health and clinicians working in general practice and community pediatric settings Oxford Handbook of Deaf Studies, Language, and Education Marc Marschark, Patricia Elizabeth Spencer, 2005 This title is a major professional reference work in the field of deafness research It covers all important aspects of deaf studies language social psychological issues neuropsychology culture technology and education **The Deaf Child in the Family and at School** Patricia Elizabeth Spencer, Carol J. Erting, Marc Marschark, 1999-11-01 This book presents chapters by many eminent researchers and interventionists all of whom address the development of deaf and hard of hearing children in the context of family and school A variety of disciplines and perspectives are provided in order to capture the complexity of factors affecting development of these children in their diverse environments Consistent with current theory and educational practice the book focuses most strongly on the interaction of family and child strengths and needs and the role of educational and other interventionists in supporting family and child growth This work and the authors represented in it have been influenced by the seminal work of Kathryn P Meadow Orland whose work continues to apply a multidisciplinary developmental approach to understanding the development of deaf children The book differs from other collections in the degree to which the chapters share ecological and developmental theoretical bases A synthesis of information is provided in section introductions and in an afterword provided by Dr Meadow Orland The book reflects emerging research practice in the field by representing both qualitative and quantitative approaches In addition the book is notable for the contributions of deaf as well as hearing authors and for chapters in which research participants speak for themselves providing first person accounts of experiences and feelings of deaf children and their parents Some chapters in the book may surprise readers in that they present a more positive view of family and child functioning than has historically been the case in this field This is consistent with emerging data from deaf and hard of hearing children who have benefitted from early identification and intervention In addition it represents an emerging recognition of strengths shown by the children and by their deaf and hearing parents The book moves from consideration of child and family to a focus on the role and effects of school environments on development Issues of culture and expectations pervade the chapters in this section of the book which includes chapters addressing effects of school placement options positive effects of learning about deaf culture and history effects of changing educational practice in developing nations and the need for increased knowledge about ways to meet individual needs of the diverse group of deaf and hard of hearing students Thus the book gives the reader a coherent view of current knowledge and issues in research and intervention for deaf and hard of hearing children and their families Because the focus is on child and family instead of a specific discipline

the book can serve as a helpful supplemental text for advanced undergraduate and graduate courses in a variety of disciplines including education psychology sociology and language studies with an emphasis on deaf and hard of hearing children **The Deaf Child and His Family** Glenn T. Lloyd,1973 **The Oxford Handbook of Deaf Studies,**
