The Great Speckled Bird Multicultural Politics And Education Policymaking:

The Great Speckled Bird Catherine Cornbleth, Dexter Waugh, 2012-12-06 This unique volume takes readers behind the scenes for an insider outsider view of education policymaking in action Two state level case studies of social studies curriculum reform and textbook policy California and New York illustrate how curriculum decision making becomes an arena in which battles are fought over national values and priorities Written by a New York education professor and a California journalist the text offers a rare blend of academic and journalistic voices The great speckled bird is the authors counter symbol to the bald eagle a metaphor representing the racial ethnic cultural diversity that has characterized the U S since its beginnings and the multicultural reality of American society today The text breaks new ground by focusing on the intersections of national debates and education policymaking It situates the case studies within historical and contemporary cultural contexts with particular attention to questions of power and knowledge control and how influence is exercised By juxtaposing the contrasting cases of California and New York the authors illustrate commonalities and differences in education policymaking goals and processes By sharing stories of participants at and behind the scenes policymaking comes alive rather than appearing to result from impersonal forces or factors Culture and Educational Policy in Hawai'i

Maenette K.P. A Benham, Ronald H. Heck, 2013-10-18 This comprehensive educational history of public schools in Hawai i shows and analyzes how dominant cultural and educational policy have affected the education experiences of Native Hawaiians Drawing on institutional theory as a scholarly lens the authors focus on four historical cases representing over 150 years of contact with the West They carefully link historical events significant people educational policy and law to cultural and social consequences for Native Hawaiian children and youth The authors argue that since the early 1800s educational policy in Hawai i emphasizing efficiency has resulted in institutional structures that have degenerated Hawaiian culture self image and sovereignty Native Hawaiians have often been denied equal access to quality schools and resulting increased economic and social status These policies were often overtly or covertly racist and reflected wider cultural views prevalent across the United States regarding the assimilation of groups into the American mainstream culture The case of education in Hawai i is used to initiate a broader discussion of similar historical trends in assimilating children of different backgrounds into the American system of education The scholarly analysis presented in this book draws out historical political cultural and organizational implications that can be employed to understand other Native and non Native contexts Given the increasing cultural diversity of the United States and the perceived failure of the American educational system in light of these changes this book provides an exceptionally appropriate starting point to begin a discussion about past present and future schooling for our nation s children Because it is written and comes from a Native perspective the value of the insider view is illuminated This underlying reminder of the Native eye is woven throughout the book in Ha awina No ono o the sharing of thoughts from the Native Hawaiian author With its primary focus on the education of native groups this book is an

extraordinary and useful work for scholars thoughtful practitioners policymakers and those interested in Hawai i Hawaiian education and educational policy and theory A Place Called Home Jack Leonard,R. Martin Reardon,2021-05-01

Describing global trends in forced displacement in 2019 Filippo Grandi United Nations High Commissioner for Refugees declared that we are witnessing a changed reality in that forced displacement nowadays is not only vastly more widespread but is simply no longer a short term and temporary phenomenon At the end of 2019 almost 80 million people had been forced to leave the place they called home as a result of persecution conflict violence human rights violations or events seriously disturbing public order according to the United Nations High Commission for Refugees This volume presents the concerted efforts of chapter contributors to alleviate the alienation of those who have been displaced and help them to feel at home in the country in which they have sought refuge Chapter contributors highlight their endeavors specifically with Latino Hmong and African immigrants in the United States and Canada as well as with a veritable united nations of immigrant identities in general Endeavors oriented to making immigrants feel at home inevitably raise the vexed question of what it means to be a good member of a society regardless of whether one is a citizen But I Don't See Color Terry Husband,2016-07-25 Racism is still very prevalent and pervasive in all aspects of the P 12 educational experience in the United States Far too many teachers and administrators continue to respond to this challenge by applying colorblind perspectives and approaches This edited volume provides a broad and comprehensive critique of colorblindness in various educational contexts In an attempt to advocate for a more color conscious approach to education this book deals with a wide range of issues related to teaching learning curriculum creativity assessment discipline implicit bias and teacher education There are three distinct features that make this book so important and relevant given the current social and racial climate in U S schools today First each chapter in this book draws from a plethora of different theoretical perspectives related to race and racism In this sense readers are equipped with variety of robust theoretical perspectives to better understand this complicated issue of racism in schools Second this book communicates issues of race and racism through multiple voices Unlike other books on race and racism where the central voice is that of a researcher or scholar this book centralizes the voices and perspectives of researchers teachers and teacher educators alike As a result readers are better able to understand issues of race and racism in schools from a more nuanced perspective Finally unlike other books related to race and racism in schools this book provides readers with practical strategies for combating racism in their respective educational contexts **A History of the Book in America, 5-volume Omnibus E-book** David D. Resources in Education ,1997 **The Social Studies Curriculum** E. Wayne Ross,2001-04-12 A new and valuable synthesis of the issues affecting the social studies curriculum *The Future of Civic Education* Elizabeth Yeager Washington,Keith C. Barton,2024-10-01 Speaking to the need to move beyond traditional formulations this textbook presents radical visions for transforming civic education in the United States Drawing on the experience of educators and scholars including those rooted in feminist queer abolitionist global and race conscious perspectives this work offers new practical ideas for civic education reform Responding to recent political crises many scholars educators and public commentators have called for a rebirth of civic education but these all are grounded in the premise that the goal of civic education should be to teach students about the U S Constitutional system and how to operate within it This book argues that the U S governmental system including the Constitution is infused with racist and anti democratic premises and procedures It asks How can we seek a new path one that is more democratic more equitable and more humane A diverse range of leading civic educators who are willing not just to push the boundaries of civic education but to operate outside its assumptions altogether explore what future possibilities for civic education might look like and how these innovative ideas could be implemented in the classroom Combining theory with practice The Future of Civic Education will be important reading for those studying or researching in social studies methods social studies issues citizenship and civic education It will also be beneficial to social studies teachers at elementary and secondary levels as well as policymakers and non governmental organizations NGOs

Corporatism, Social Control, and Cultural Domination in Education: From the Radical Right to Globalization Joel Spring,2012-11-27 Starting with the 1972 publication of his seminal work Education and the Rise of the Corporate State Joel Spring has been documenting and analyzing the politics of knowledge and education Throughout his work he has explored the attempts to use education to advance the economic and political interests of dominant groups The general term he uses for the relationship between schools and power is ideological management His scholarly work first looked at the influence on American schooling of business and economic doctrines embodied in human capital theories and consumerism The next step in his exploration of the politics of knowledge was to examine these issues in the context of globalization leading to a proposed educational rights amendment to national constitutions and a new paradigm for education both of which might ensure that schools are protected from ideological management by economic

and political elites Spring's indigenous background has strongly shaped his interest in the political and economic goals of schooling particularly the attempts of those in power to use schools to destroy indigenous languages and cultures In this collection Spring brings together 10 of his key writings providing an overview not just of his own career but the larger contexts in which it is situated In the Introduction he reviews the evolution and scope of his work and his earlier arguments and reflects on its central themes which are reflected in the writings selected for this volume In the World Library of Educationalists international scholars themselves compile career long collections of what they judge to be their finest pieces extracts from books key articles salient research findings major theoretical and practical contributions so the world can read them in a single manageable volume Readers will be able to follow the themes and strands of their work and see their contribution to the development of a field as well as the development of the field itself Contributors to the series include Michael Apple James A Banks Stephen J Ball Elliot Eisner Howard Gardner John Gilbert Ivor F Goodson Peter Jarvis
