The Politics Of Empire Globalisation In Crisis:

The Politics of Empire Alan Freeman, Boris Kagarlitsky, 2004-09-20 Bringing together nine leading writers and activists from around the world this book explores the origins of a new age of Empire Writers including Walden Bello Jayati Ghosh Kate Hudson Boris Kagarlitsky and Alan Freeman offer a wealth of factual evidence showing that globalisation has driven apart peoples classes and nations shaping and reshaping key regions of the world Challenging the idea that it is inevitable they argue that its economic contradictions have thrown the world order that sustained it into crisis Globalisation s opponents are shaping a new intellectual tradition For the first time the book brings together the critiques thrown up by resistance to globalisation to war and to imperialism Free from ideology and dogma showing how the peace and anti globalisation movements can join forces and face the coming period of world history

Islamophobia and the Novel Peter Morey, 2018-08-14 In an era of rampant Islamophobia what do literary representations of Muslims and anti Muslim bigotry tell us about changing concepts of cultural difference In Islamophobia and the Novel Peter Morey analyzes how recent works of fiction have framed and responded to the rise of anti Muslim prejudice showing how their portrayals of Muslims both reflect and refute the ideological preoccupations of media and politicians in the post 9 11 West Islamophobia and the Novel discusses novels embodying a range of positions from the avowedly secular to the religious and from texts that appear to underwrite Western assumptions of cultural superiority to those that recognize and critique neoimperial impulses Morey offers nuanced readings of works by John Updike Ian McEwan Hanif Kureishi Monica Ali Mohsin Hamid John le Carr Khaled Hosseini Azar Nafisi and other writers emphasizing the demands of the literary marketplace for representations of Muslims He explores how depictions of Muslim experience have challenged liberal assumptions regarding the novel s potential for empathy and its ability to encompass a variety of voices Morey argues for a greater degree of critical self consciousness in our understanding of writing by and about Muslims in contrast to both exclusionary nationalism and the fetishization of difference Contemporary literature s capacity to unveil the conflicted nature of anti Muslim bigotry expands our range of resources to combat Islamophobia This in turn might contribute to Islamophobia s eventual dismantling

Postmodern Imperialism Eric Walberg, 2011-06-09 Eric Walberg s POSTMODERN IMPERIALISM Geopolitics and the Great Game is a riveting and radically new analysis of the imperialist onslaught which first engulfed the world in successive waves in the 19th 20th centuries and is today hurtling into its endgame The term Great Game was coined in the nineteenth century reflecting the flippancy of statesmen and historians personally untouched by the havoc that they wreaked What it purported to describe was the rivalry between Russia and Britain over interests in India But Britain was playing its deadly game across all of Eurasia from the Balkans and Palestine to China and southeast Asia alternately undermining and carving up premodern states disrupting the lives of hundreds of millions with consequences that endure today With roots in the European enlightenment shaped by Christian and Jewish cultures and given economic rationale by industrial capitalism the inter

imperialist competition turned the entire world into a conflict zone leaving no territory neutral The first game was brought to a close by the cataclysm of World War I But that did not mark the end of it Walberg resurrects the forbidden word to scrutinize an imperialism now in denial but following the same logic and with equally horrendous human costs What he terms Great Game II then began with America eventually uniting its former imperial rivals in an even more deadly game to destroy their common revolutionary antagonist and potential nemesis communism Having won this game America and the new player Israel offspring of the early games have sought to entrench what Walberg terms empire and a half on a now global playing field using a neoliberal agenda backed by shock and awe With swift sure strokes Walberg paints the struggle between domination and resistance on a global canvas as imperialism engages its two great challengers communism and Islam its secular and religious antidotes Paul Atwood War and Empire The American Way of Life calls it an epic corrective It is a carefully argued and most of all cliché smashing road map according to Pepe Escobar journalist Asia Times Rigorously documented it is a valuable resource for all those interested in how imperialism works and sure to spark discussion about the theory of imperialism according to John Bell Capitalism and the Dialectic The Rise and Fall of the Welfare State Asbjørn Wahl, 2011-11-07 In an age of government imposed austerity and after 30 years of neoliberal restructuring the future of the welfare state looks increasingly uncertain Asbjørn Wahl offers an accessible analysis of the situation across Europe identifies the most important challenges and presents practical proposals for combating the assault on welfare Wahl argues that the welfare state should be seen as the result of a class compromise forged in the 20th century which means that it cannot easily be exported internationally He considers the enormous shifts in power relations and the profound internal changes to the welfare state which have occurred during the neoliberal era pointing to the paradigm shift that the welfare state is going through This is illustrated by the shift from welfare to workfare and increased top down control As well as being a fascinating study in its own right that will appeal to students of economics and politics The Rise and Fall of the Welfare State also points to an alternative way forward for the trade union movement based on concrete examples of struggles and alliance building

The Oxford Handbook of Karl Marx Matt Vidal, Tony Smith, Tomás Rotta, Paul Prew, 2019-03-26 Karl Marx is one of the most influential writers in history Despite repeated obituaries proclaiming the death of Marxism in the 21st century Marx's ideas and theories continue to guide vibrant research traditions in sociology economics political science philosophy history anthropology management economic geography ecology literary criticism and media studies Due to the exceptionally wide influence and reach of Marxist theory including over 150 years of historical debates and traditions within Marxism finding a point of entry can be daunting The Oxford Handbook of Karl Marx provides an entry point for those new to Marxism At the same time its chapters written by leading Marxist scholars advance Marxist theory and research Its coverage is more comprehensive than previous volumes on Marx in terms of both foundational concepts and state of the art empirical research on contemporary social problems It also provides equal space to sociologists economists and political scientists with

substantial contributions from philosophers historians and geographers The Oxford Handbook of Karl Marx consists of six sections The first section Foundations includes chapters that cover the foundational concepts and theories that constitute the core of Marx s theories of history society and political economy This section demonstrates that the core elements of Marx s political economy of capitalism continue to be defended elaborated and applied to empirical social science and covers historical materialism class capital labor value crisis ideology and alienation Additional sections include Labor Class and Social Divisions Capitalist States and Spaces Accumulation Crisis and Class Struggle in the Core Countries Accumulation Crisis and Class Struggle in the Peripheral and Semi Peripheral Countries and Alternatives to Capitalism

Marxism and World Politics Alexander Anievas,2012-07-26 This book brings together internationally distinguished scholars from History Philosophy Development Studies Geography and International Relations IR to examine recent developments in Marxist approaches to world politics Offering original and stimulating analyses of subjects traditionally at the forefront of Marxist studies of world politics the collection also considers issues which have yet to be fully explored within a number of disciplines Examining a wide array of topics ranging from the imperialism globalization debate the connections between social structures and foreign relations the role of identity and imperialist norms in world politics to the relationship between Marxist and Realist IR Theory the contributors seek to further theoretical discussions and their implications for emancipatory radical politics These contributions are structured around two major themes The relationship between capitalist modernity and the states system in explaining the changing patterns of inter state conflict and cooperation The debates within Marxist and IR discourses on the theoretical significance of the international covering topics including uneven and combined development and passive revolution An impressive collection that seeks to advance dialogue and research Marxism and World Politics will be of interest to students and scholars of IR International Political Economy Political Science and Historical Sociology

Before and After 9/11 Tom Rockmore,2011-04-21

Neoliberalism and Globalization in Africa J. Mensah,2008-12-08 This book looks at Africa s involvement in contemporary neoliberal globalization paying particular attention to the social economic political and cultural cost of the unbalanced structure of global wealth and power between Africa and the rest of the world

Resistance Shane Moran,2021-04-19 In Resistance Sol Plaatje and South Africa Shane Moran studies Sol Plaatje the founding secretary of what was to become the African National Congress ANC and his work within the context of colonial politics and resistance Arguing for a return to the study of one of the founders of anti racism Moran explores issues of land reform human rights and the legacy of colonialism Through an in depth analysis of Plaatje s resistance to racial domination Moran examines the nature of the struggles that continue within and beyond South Africa today In particular Moran analyzes events from the beginning of the previous century that shaped post 1994 South Africa such as the resolution of the ANC to expropriate land without compensation

New Regionalism and Asylum Seekers Susan Kneebone,Felicity Rawlings-Sanaei,2007 Includes statistical tables

Revisiting Globalization Roopinder

Oberoi, Jamie P. Halsall, 2018-06-25 This provocative volume takes an international multidisciplinary approach to understanding globalization and assessing its economic social and environmental effects Representing the Global North and South it addresses important debates stemming from recent political events in the U S and U K the continuing rise of information technology and the constant struggle between corporate interests and the health of the planet The human outcomes of world human rights challenges are considered in the ongoing global narratives of migrants refugees and disabled persons as well as possibilities for greater social equity and integration This expert synthesis takes critical steps to reshape the concept of globalization from an amorphous mass of objectives and initiatives to a forward looking model of clarity and balance Included in the coverage Globalization and migration is there a borderless world A comparative assessment of climate policies of top emitters Neo protectionism in the age of Brexit and Trump Working inclusively and redefining social valorization in the globalized world Understanding the strategy of M As in the globalized perspective Reappraisal of social enterprise in a globalized world Revisiting Globalism will be of particular interest to those in the academic field and the statutory and nonprofit sectors whose work deals with teaching social sciences in higher education settings

Rethinking Imperialism J. Milios, D. Sotiropoulos, 2009-10-09 This book aims at presenting and assessing imperialism as a theoretical concept It aims to provide a comprehensive evaluation focusing specifically on the tension between Marx's theoretical system of the Critique of Political Economy and the theories of capitalist expansion and domination

The Competent Public Sphere J. Roberts, 2009-08-20 Suggesting that an expressive ideology has arisen within the workplace public sphere around the theme of competence this book explores the hegemony of global finance and the fetishism of the new economy exposing the dilemmas of the competence agenda and illustrating how competence is played out in the workplace public sphere

The Palgrave Encyclopedia of Imperialism and Anti-Imperialism Immanuel Ness, Zak Cope, 2016-04-29 The Palgrave Encyclopedia Imperialism and Anti Imperialism objectively presents the prominent themes epochal events theoretical explanations and historical accounts of imperialism from 1776 to the present It is the most historically and academically comprehensive examination of the subject to date

An Introduction to International Migration Studies Marco Martiniello, 2025-10-01 Focusing mainly on the European experience including Eastern Europe this important volume offers an advanced introduction to immigrant incorporation studies from a historical empirical and theoretical perspective Beyond incorporation theories renowned scholars in the field explore incorporation in action in different fields policy issues and normative dimensions An advanced introduction to international migration studies from a historical empirical and theoretical perspective Types of migration and migration regulation are explored by respected scholars in the field Focusing mainly on the European experience including Eastern Europe

An Anthology of Migration and Social Transformation Anna Amelina, Kenneth Horvath, Bruno Meeus, 2015-12-01 The contributions of this book examine contemporary dynamics of migration and mobility in the context of the general societal transformations that have

taken place in Europe over the past few decades The book will help readers to better understand the manifold ways in which migration trends in the region are linked to changing political economic constellations orders of power and inequality and political discourses It begins with an introduction to a number of theoretical approaches that address the nexus between migration and general societal shifts including processes of supranationalisation EU enlargement postsocialist transformations and rescaling It then provides a comprehensive overview of the political regulation of migration through border control and immigration policies The contributions that follow detail the dynamic changes of individual migration patterns and their implications for the agency of mobile individuals The final part challenges the reader to consider how policies and practices of migration are linked to symbolic struggles over belonging and rights describing a wide range of expressions of such conflicts from cosmopolitanism to racism and xenophobia This book is aimed at researchers in various fields of the social sciences and can be used as course reading for undergraduate graduate and postgraduate courses in the areas of international migration transnational and European studies It will be a beneficial resource for scholars looking for material on the most current conceptual tools for analysis of the nexus of migration and societal transformation in Europe

Corporate and Social Transformation of Money and Banking S. Mouatt, C. Adams, 2010-10-29 As the real economy is increasingly digitalized banking lags behind It is thus not well placed to support the new economy The book provides some perspective on the changes taking place identifying the systemic weaknesses in the traditional financial infrastructure and proposing some radical rethinking to address systemic financial instability

War and the World Economy William Jefferies, 2025-03-28 This book offers a deep dive analysis of the period of globalization from the late 1980s to the present through the lens of long wave theory It traces how the end of the Cold War transformed the base of the global economy doubling the working class producing profits and its superstructure reestablishing US monopolar dominance It explores how the hyper globalization of the period up to 2008 has transitioned into a new long wave of de globalization stagnation and multi polar conflict The book focuses particularly on the looming and actual wars in trade tech and military terms intertwined with world economics as the twenty first century progresses The book addresses three overarching themes globalization versus de globalization great power conflict versus cooperation and trade tech integration versus competition It examines the shift from stagnating conditions in the late 1970s to the resurgent hyper global capitalism of the 2000s after the integration of the former Centrally Planned Economies CPEs into the world market leading to but not ending with the 2008 Great Financial Recession Globalization is analysed in depth at both a national and global level with insights on the diverging paths of US and China forming a central focus of the chapters The book provides a comparative analysis of US and Chinese economic development and discusses how globalization inevitably produced de globalization reversing trends towards the integration of production trade and finance that have defined the world economy over the last three decades This book will be of interest to scholars and students in areas including political economy macroeconomics war studies international

relations and more **The Philosophical Foundations of Ecological Civilization** Arran Gare, 2016-08-05 The global ecological crisis is the greatest challenge humanity has ever had to confront and humanity is failing The triumph of the neo liberal agenda together with a debauched scientism has reduced nature and people to nothing but raw materials instruments and consumers to be efficiently managed in a global market dominated by corporate managers media moguls and technocrats The arts and the humanities have been devalued genuine science has been crippled and the quest for autonomy and democracy undermined The resultant trajectory towards global ecological destruction appears inexorable and neither governments nor environmental movements have significantly altered this or indeed seem able to The Philosophical Foundations of Ecological Civilization is a wide ranging and scholarly analysis of this failure This book reframes the dynamics of the debate beyond the discourses of economics politics and techno science Reviving natural philosophy to align science with the humanities it offers the categories required to reform our modes of existence and our institutions so that we augment rather than undermine the life of the ecosystems of which we are part From this philosophical foundation the author puts forth a manifesto for transforming our culture into one which could provide an effective global environmental movement and provide the foundations for a global ecological civilization **Marxism** Amiya Bagchi, Amita Chatterjee, 2015-06-03 This book offers a unique re conceptualization of Marxism in bringing together leading scholars across disciplines history philosophy economics politics sociology and literary and culture studies into one comprehensive corpus It demonstrates the engaging relevance of the perspectives and techniques of the analyses adopted by Karl Marx Frederick Engels and contemporary Marxists and will be immensely useful to scholars and researchers across social sciences as well as general readers interested in Marxism
