The Politics Of Force Media And The Construction Of Police Brutality:

The Politics of Force Regina G. Lawrence, 2023 Published over twenty years ago Regina G Lawrence's *The Politics of Force* was the first scholarly book to look at the way in which media coverage of unexpected dramatic events shaped public consciousness about important social and political problems At a time when police brutality was rarely discussed in the news Lawrence examined police use of force in over 500 incidents with an in depth look at the Rodney King case In doing so she showed that when incidents of police brutality became news they offered one of the few real opportunities for marginalized voices and activists to find a public platform and take on the powerful In the intervening years the empirical and theoretical contributions of *The Politics of Force* have become more significant not only because police brutality is back in the news but because the media system itself has changed In this updated edition Lawrence contextualizes and extends these contributions while including a closer look at race and racial justice in incidents of police use of force Reflecting on the context in which the book was written a time when race and policing received limited coverage in the news and in the field of political communication Lawrence considers what has changed in media studies since the year 2000 what things haven't changed and why Moreover Lawrence examines coverage of more recent incidents of police violence and the ways in which the voices of citizen activists are treated in the news today In turn she addresses the important question of how defining political problems through such events might or might not produce more lasting policy change Expanding on her landmark publication Lawrence provides an accessible update on news production dynamics and police use of force for a new generation of scholars students and activists

The Oxford Handbook of Criminology Rod Morgan, Mike Maguire, Robert Reiner, 2012-04-12 The approach of the year 2000 has made the study of apocalyptic movements trendy But groups anticipating the end of the world will continue to predict Armageddon even after the calendar clicks to triple Os

Holding the Blue Line in Australia Virginia Small, 2025-09-26 This book examines the portrayal of contemporary policing in New South Wales Australia by mainstream media and how its sourcing of social media influences public opinion The observable and measurable consequences of this intermingling of news content with viewpoints is that mainstream media in tandem with social media influence political leaders to respond and pivot readily towards platformed views with either quick reactions through policymaking and new or revised legislation or arbitrarily letting matters slide The phenomenon is analysed through specific case studies in the book and the complications for police media and crisis management are identified This extensive research has relevance for policing globally because mainstream media relies heavily on social media content that is instantaneous global curated and reliant on marketable and readily understood narratives The book analyses the selective process by which actors in mainstream media construct news relying on prior framing narratives and perpetuating the received opinion of social media as if it represents general belief Media framing disrupts and interrupts public understandings of the role of policing and perpetuates misunderstanding in the public arena of the institutional values

and legislated responsibilities of a police force In addition strategies employed by social media activists to frame and re contextualise crisis events impact on police law enforcement operations and can hamper police capacity to respond to protect public safety *Making Sense of Media and Politics* Gadi Wolfsfeld,2022-03-17 In *Making Sense of Media and Politics* Gadi Wolfsfeld introduces readers to the most important concepts for examining the interrelationship of media and politics Five major principles are used to summarize the major arguments Political power can usually be translated into power over all forms of media When the powerful lose control over the political environment they also lose control over all forms of media Every political story that appears in every form of media is biased All forms of media are primarily dedicated to telling good stories which can have a major impact on political processes Many of the most important effects of the various forms of media on citizens tend to be unintentional and unnoticed By identifying these five key principles of political communication Wolfsfeld examines those who package and send political messages those who transform political messages into stories and the effects this can have on citizens and how the more active members of the public users can initiate their own stories The result is a brief engaging guide to help make sense of the wider world of media and politics and an essential companion to more in depths studies of the field New to the Second Edition Up to date coverage of major political events in the last decade including the landmark US elections of 2016 and 2020 Devotes more attention to the hybrid media system that has developed over the last decade providing a greater balance between traditional news and social media in particular Includes more cross national research especially in non Western and non democratic countries Refines the five principles of political communication to better reflect contemporary media trends Covers key emerging topics including misinformation and threats to democratic institutions new forms of political engagement and the economic base of the various forms of media

Unchecked Corporate Power Gregg Barak,2017-02-03 Why are crimes of the suite punished more leniently than crimes of the street When police killings of citizens go unpunished political torture is sanctioned by the state and the financial frauds of Wall Street traders remain unprosecuted nothing succeeds with such regularity as the active failures of national states to obstruct the crimes of the powerful Written from the perspective of global sustainability and as an unflinching and unforgiving expos of the full range of the crimes of the powerful *Unchecked Corporate Power* reveals how legalized authorities and political institutions charged with the duty of protecting citizens from law breaking and injurious activities have increasingly become enablers and colluders with the very enterprises they are obliged to regulate Here Gregg Barak explains why the United States and other countries are duplicitous in their harsh reactions to street crimes in comparison to the significantly more harmful and far reaching crimes of the powerful and why the crimes of the powerful are treated as beyond incrimination What happens to nations that surrender ever growing economic and political power to the globally super rich and the mammoth multinational corporations they control And what can people from around the world do to resist the criminality and victimization perpetrated by multinationals and generated by the prevailing global political economy

Barak examines an array of multinational crimes corporate environmental financial and state and their state legal responses and outlines policies and strategies for revolutionizing these contradictory relations of capital reproduction criminality and unsustainability

The Politics of Protest Nadia E. Brown, Ray Block Jr., Christopher Stout, 2020-12-17 This collection provides a deep engagement with the political implication of Black Lives Matter This book covers a broad range of topics using a variety of methods and epistemological approaches In the twenty first century the killings of Black Americans have sparked a movement to end the brutality against Black bodies In 2013 BlackLivesMatter would become a movement building project led by Alicia Garza Patrisse Cullors and Opal Tometi This movement began after the acquittal of George Zimmerman who murdered 17 year old Trayvon Martin The movement has continued to fight for racial justice and has experienced a resurgence following the 2020 slayings of Ahmaud Arbery George Floyd Breonna Taylor Sean Reed Tony McDade and David McAtee among others The continued protests raise questions about how we can end this vicious cycle and lead Blacks to a state of normalcy in the United States In other words how can we make any advances made by Black Lives Matter stick The chapters in this book were originally published in the journal *Politics Groups and Identities*

The Harms of Crime Media Denise L. Bissler, Joan L. Connors, 2014-01-10 A scan of today's television programming reveals numerous media stories factual and fictional featuring some aspect of crime These depictions can stray far from reality with the effect of creating and reinforcing distorted impressions This collection offers a sociological analysis of race class and gender stereotypes within crime media Essays discuss particular examples of

inequalities and stereotypes consider the implications of such portrayals and demonstrate how they influence the public's expectations and beliefs about real world crime *News Media and the Neoliberal Privatization of Education* Zane C. Wubbena, Derek R. Ford, Brad J. Porfilio, 2016-03-01 This edited volume contributes to a burgeoning field of critical scholarship on the news media and education This scholarship is based on an understanding that the news media has increasingly applied a neoliberal template that mediates knowledge and action about education This book calls into question what the public knows about education how the public is informed and whose interests are represented and ultimately served through the production and distribution of information by the news media about education The chapters comprising this volume serve to enlighten and call to action parents students educators academics and scholars activists and policymakers for social political and economic transformation Moreover as the neoliberal agenda in North America intensifies the chapters in this book help to deepen our understanding of the logics and processes of the neoliberal privatization of education and the accompanying social discourses that facilitate the reduction of social relations to a transaction in the marketplace The chapters examine the news media and the reproduction of neoliberal educational reforms A Nation at Risk Teach For America charter schools think tanks and PISA and resistance to neoliberal educational reforms online activism and radical Black press while also broadening our conceptual understanding of the marketization and mediatization of educational discourses Overall the book provides an in depth understanding of the neoliberal privatization of education by extending critical examinations to this underrepresented field of cultural production the news media coverage of education The contribution of this edited volume therefore helps to build an understanding of the contemporary dynamics of capital accumulation to inform public resistance for social transformation Projection Design for Theatre and Live Performance Alison C. Dobbins, 2021-10-06 Projection Design for Theatre and Live Performance explores the design and creation process of projections from a non technical perspective examining the principles of media for the stage in a manner that is accessible for both beginning designers and advanced designers dabbling in projections for the first time This introductory text covers concepts and tools for designing techniques to help readers tap into their creativity and the core skills required of this field problem solving project management and effective communication Focusing exclusively on design and creativity this book encourages individuals to leap into the creative design process before facing any perceived hurdles of learning everything technical about media delivery systems cueing systems projectors cables computer graphics animation and video production Projection Design for Theatre and Live Performance is a reminder that from the invention of photography to the enormous variety of electronic media that exist today the ways projection designers can enhance a theatrical production are limitless Written in an accessible style this book is a valuable resource for students of Projection Design as well as emerging professionals Its focus on design and creativity will restore the confidence of individuals who may have been daunted by technical hurdles and will encourage the creativity of those who may have been disappointed with their efforts in this field of

design in the past **The Origin of Dialogue in the News Media** Regula Hänggli, 2019-09-03 This book develops a new theoretical framework for studying the interaction between political parties the news media and citizens The model addresses how political actors develop and push different arguments in a debate how the news media select and communicate these arguments and how they ultimately influence citizens democratic decisions The author promotes dialogue as a convincing concept for analyzing the quality of public debate and advances a series of arguments for why and how this concept helps improve our understanding of key processes in democracy Based on a detailed analysis of rich empirical data collected from referendum campaigns in Switzerland the book is relevant beyond the specific context and applicable to election campaigns and public debates more broadly **Not Your Parents Politics** Neta Kligler-Vilenchik, Ioana Literat, 2024-09 **The Unilateral Presidency and the News Media** Mark Major, 2014-07-17 Media coverage of presidential actions can not only serve journalistic purposes but can also act as a check against unilateral decision making The book seeks to uncover how the news media has worked to curtail overreaching power within the executive branch demonstrating how the fourth estate keeps presidential overreach at bay Media and Conflict in the Twenty-First Century P.
