The Politics Of Genocide The Holocaust In Hungary Volume I:

The Politics of Genocide Randolph L. Braham, 2000 The Politics of Genocide The Holocaust in Hungary Condensed Edition is an abbreviated version of the classic work first published in 1981 and revised and expanded in 1994 It includes a new historical overview and retains and sharpens its focus on the persecution of the Jews Through a meticulous use of Hungarian and many other sources the book explains in a rational and empirical context the historical political communal and socioeconomic factors that contributed to the unfolding of this tragedy at a time when the leaders of the world including the national and Jewish leaders of Hungary were already familiar with the secrets of Auschwitz The Politics of Genocide is the most eloquent and comprehensive study ever produced of the Holocaust in Hungary In this condensed edition Randolph L. Braham includes the most important revisions of the 1994 second edition as well as new material published since then Scholars of Holocaust Slavic and East Central European studies will find this volume indispensable *The Politics of Genocide* Randolph L. Braham, 1994 *Budapest Building Managers and the Holocaust in Hungary* Istvan Pal Adam, 2016-09-30 This book traces the role of Budapest building managers or concierges during the Holocaust It analyzes the actions of a group of ordinary citizens in a much longer timeframe than Holocaust scholars usually do Thus it situates the building managers activity during the war against the background of the origins and development of the profession as a by product of the development of residential buildings since the forming of Budapest Instead of presenting a snapshot from 1944 it shows that the building managers wartime acts were influenced and shaped by their long term social aspiration for greater recognition and their economic expectations Rather than focusing solely on pre war antisemitism this book takes into consideration other factors from the interwar period such as the culture of tipping In Budapest during June 1944 the Jewish residents were separated not into a single closed ghetto area but by the authorities designating dispersed apartment buildings as ghetto houses The almost 2 000 buildings were spread throughout the entire city and the non Jewish concierges serving in these houses represented the link between the outside and the inside world The empowerment of these building managers happened as a side effect of the anti Jewish legislation and these concierges found themselves in an intermediary position between the authorities and the citizens **The Politics of Genocide** Randolph L. Braham, 1981 **Holocaust a History** Deborah Dwork, Robert Jan Pelt, 2003-08-26 Unrivaled in scope Holocaust is a story of all Europe of the vast sweep of events in which this great atrocity was rooted from the Middle Ages to the modern era Holocaust City Tim Cole, 2013-10-18 Drawing from the ideas of critical geography and based on extensive archival research Cole brilliantly reconstructs the formation of the Jewish ghetto during the Holocaust focusing primarily on the ghetto in Budapest Hungary one of the largest created during the war but rarely examined Cole maps the city illustrating how spaces cafes theaters bars bathhouses became divided in two Throughout the book Cole discusses how the creation of this Jewish ghetto just like the others being built across occupied Europe tells us a great deal about the nature of Nazism what life was like under Nazi

occupation and the role the ghetto actually played in the Final Solution Jews, Nazis and the Cinema of Hungary David Frey, 2017-02-28 Between 1929 and 1942 Hungary's motion picture industry experienced meteoric growth. It leapt into Europe's top echelon trailing only Nazi Germany and Italy in feature output. Yet by 1944 Hungary's cinema was in shambles, internal and external forces having destroyed its unification experiments and productive capacity. This original cultural and political history examines the birth, unexpected ascendance, and wartime collapse of Hungary's early sound cinema by placing it within a complex international nexus. Detailing the interplay of Hungarian cultural and political elites, Jewish film professionals and financiers, Nazi officials, and global film moguls, David Frey demonstrates how the transnational process of forging an industry designed to define a national culture proved particularly contentious and surprisingly contradictory in the heyday of racial nationalism and antisemitism **Arnošt Frischer and the Jewish Politics of Early 20th-Century**

Europe Jan Láníček, 2016-11-17 In this analysis of the life of Arnošt Frischer, an influential Jewish nationalist activist, Jan Láníček reflects upon how the Jewish community in Czechoslovakia dealt with the challenges that arose from their volatile relationship with the state authorities in the first half of the 20th century. The Jews in the Bohemian Lands experienced several political regimes in the period from 1918 to the late 1940s: the Habsburg Empire, the first democratic Czechoslovak republic, the post-Munich authoritarian Czechoslovak republic, the Nazi regime, renewed Czechoslovak democracy, and the Communist regime. Frischer's involvement in local and central politics affords us invaluable insights into the relations and negotiations between the Jewish activists and these diverse political authorities in the Bohemian Lands. Vital coverage is also given to the relatively under-researched subject of the Jewish responses to the Nazi persecution and the attempts of the exiled Jewish leadership to alleviate the plight of the Jews in occupied Europe. The case study of Frischer and Czechoslovakia provides an important paradigm for understanding modern Jewish politics in Europe in the first half of the 20th century, making this a book of great significance to all students and scholars interested in Jewish history and Modern European history *The Jews of Hungary* Raphael Patai, 1996-01-05 This mindset kept them apart and isolated from the Jewries of the Western world until overtaken by the tragedy of the Holocaust in the closing months of World War II **Deaf People in**

Hitler's Europe Donna F. Ryan, 2002 Key presentations from the Deaf People in Hitler's Europe 1933-1945 Conference have been integrated with additional important work into three crucial parts: Racial Hygiene, the German Experience, and the Jewish Deaf experience *Reader's Guide to Judaism* Michael Terry, 2013-12-02 The Reader's Guide to Judaism is a survey of English language translations of the most important primary texts in the Jewish tradition. The field is assessed in some 470 essays discussing individuals, Martin Buber, Gluckel of Hameln, literature, Genesis, Ladino, literature, thought, and beliefs, Holiness, Bioethics, practice, Dietary Laws, Passover, history, Venice, Baghdadi Jews of India, and arts and material culture, Synagogue Architecture, Costume. The emphasis is on Judaism rather than on Jewish studies more broadly **Studies in Contemporary Jewry: XI: Values, Interests, and Identity** Peter Y. Medding, 1995 This collection of original articles

addresses the often conflicting roles of values interests and identity in contemporary Jewish politics with its focus on Jews and contemporary politics particularly the interplay of politics and Jewish history this new work makes an outstanding contribution to the scholarly literature *Gendarmes, Bureaucrats, and Jews* Judit Fejes Schulmann, David Alan Rich, Judit Molnár, 2025-10-01 Between May and July 1944 over 440 000 Jews were deported from the Hungarian provinces to the Auschwitz Birkenau extermination camp where 330 000 perished *Gendarmes Bureaucrats and Jews* offers a fresh perspective on these events examining not only the Nazi regime but also the complicity of the Hungarian state particularly its Gendarmerie in facilitating these deportations This book presents for the first time in English the essential unabridged primary sources on the concentration ghettoization and deportation of Hungarian Jews Of particular significance are progress reports of Gendarmerie Lieutenant Colonel László Ferenczy Hungary's liaison to Adolf Eichmann and the previously unpublished reports from two cities Ungvár and Szolnok These documents provide crucial insight into one of the darkest chapters in European history making this book a much needed chronicle of the Holocaust **Fascist Interactions** David D. Roberts, 2016-05-01 Although studies of fascism have constituted one of the most fertile areas of historical inquiry in recent decades more and more scholars have called for a new agenda with more research beyond Italy and Germany less preoccupation with definition and classification and more sustained focus on the relationships among different fascist formations before 1945 Starting from a critical assessment of these imperatives this rigorous volume charts a historiographical path that transcends rigid distinctions while still developing meaningful criteria of differentiation Even as we take fascism seriously as a political phenomenon such an approach allows us to better understand its distinctive contradictions and historical variations **In Defense of Christian Hungary** Paul Hanebrink, 2018-09-05 In this important historical account of the role that religion played in defining the political life of a modern national society Paul A Hanebrink shows how Hungarian nationalists redefined Hungary a liberal society in the nineteenth century as a narrowly Christian nation in the aftermath of World War I Drawing on impressive archival research Hanebrink uncovers how political and religious leaders demanded that Christian values influence public life while insisting that religion should never be reduced to the status of a simple nationalist symbol *In Defense of Christian Hungary* also explores the emergence of the idea that a destructive Jewish spirit was the national enemy In combining the historical study of antisemitism with more recent considerations of religion and nationalism Hanebrink addresses an important question in Central European historiography how nations that had been inclusive of Jews before World War I became rabidly antisemitic during the interwar period As he traces the crucial and complex legacy of religion's role in shaping exclusionary antisemitic politics in Hungary Hanebrink follows the process from its origins in the 1890s to the Holocaust and beyond More broadly *In Defense of Christian Hungary* squarely addresses the relationship between antisemitic words and antisemitic violence and between religion and racial politics deeply contested issues in the history of twentieth century Europe The Hungarian example is a chilling demonstration

of how religious nationalism can find a home even within a pluralist and tolerant civil society *Official Secrets* Richard Breitman, 2025-09-23 Richard Breitman's *Official Secrets* is an important work based on newly declassified archives. As defeat loomed over the Third Reich in 1945, its officials tried to destroy the physical and documentary evidence about the Nazis' monstrous crimes about their murder of millions. Great Britain already had some of the evidence, however, for its intelligence services had for years been intercepting, decoding, and analyzing German police radio messages and SS ones too. Yet these important papers were sealed away as *Most Secret Never to Be Removed from This Office* and they have only now reappeared. Integrating this new evidence with other sources, Richard Breitman reconsiders how Germany's leaders brought about the Holocaust and when and reassesses Britain's and America's suppression of information about the Nazi killings. His absorbing account of the tensions between the two powers and the consequences of keeping this information secret for so long shows us the danger of continued government secrecy, which serves none of us well, and the failure to punish many known war criminals.

Everyday Nationalism in Hungary Alexander Maxwell, 2019-09-23 This book examines Hungarian nationalism through everyday practices that will strike most readers as things that seem an unlikely venue for national politics. Separate chapters examine nationalized tobacco, nationalized wine, nationalized moustaches, nationalized sexuality, and nationalized clothing. These practices had other economic, social, or gendered meanings: moustaches were associated with manliness, wine with aristocracy, and so forth. The nationalization of everyday practices thus sheds light on how patriots imagined the nation's economic, social, and gender composition. Nineteenth-century Hungary thus serves as the case study in the politics of everyday nationalism. The book discusses several prominent names in Hungarian history but in unfamiliar contexts. The book also engages with theoretical debates on nationalism, discussing several key theorists. Various chapters specifically examine how historical actors imagine the relationship between the nation and the state, paying particular attention to Rogers Brubaker's constructivist approach to nationalism without groups, Michael Billig's notion of banal nationalism, Carole Pateman's ideas about the nation as a national brotherhood, and Tara Zahra's notion of national indifference.

No Jews Live Here John Lorinc, 2024-11-12 A stolen sign "No Jews Live Here" kept John Lorinc's Hungarian Jewish family alive during the Holocaust. From pre-war Budapest to post-war Toronto, journalist John Lorinc unspools four generations of his Hungarian Jewish family's journey through the Holocaust, the 1956 Revolution, and finally exodus from a country that can't rid itself of its antisemitic demons. This braided saga centers on the writer's eccentric and defiant grandmother, a consummate survivor who, with her love of flashy jewelry and her vicious tongue, was best appreciated from afar. Lorinc also traces the stories of both his grandfathers and his father, all of whom fell victim in different ways to the Nazis' genocidal campaign to rid Europe of Jews. This is a deeply reported but profoundly human telling of a vile part of history, told through Lorinc's distinctively astute and compassionate consideration of how cities and cultures work. Set against the complicated and poorly understood background of Hungary's Jewish community, *No Jews Live Here* is about family stories and how the narratives of our lives are

shaped by our times and historical forces over which we have no control John Lorinc weaves Hungarian history with the equally fascinating history of his own family to tell a deeply researched story with universal resonance how events enormous and seemingly tiny a genocidal war foggy skies conspire to create outcomes with life and death implications through generations Marsha Lederman author of *Kiss the Red Stairs The Holocaust Once Removed Raoul Wallenberg* Ulf Zander, 2024-05-14 The Swedish diplomat Raoul Wallenberg was responsible for saving the lives of thousands of Jews in Budapest between 1944 and 1945 He is recognised by the Israeli state as one of the Righteous among the Nations This book examines both Wallenberg s activities during the Holocaust and the ways posterity has remembered him It explores secret Swedish diplomacy and how Wallenberg was transformed over time into a Swedish brand It considers the political aspects of Wallenberg s Americanisation and analyses his portrayals in music film and television Representations of Wallenberg as a monument are discussed with special reference to Swedish and Hungarian examples The question of how Wallenberg s memory can and should be kept alive in future is an essential issue related to the politics of memory *Hitler's Pope* John Cornwell, 2000 Draws on secret archives to present a record of the career of Pope Pius XII showing his collaboration with the Nazis and his anti-Semitism and discusses his continuing influence
