The Politics Of Power Elites Of An Early Modern State In Germany:

The Politics of Power Kenneth H. Marcus, 2000 *Empire and Power in the Reign of Süleyman Kaya Şahin*, 2013-03-29 A revisionist reading of Ottoman history during the reign of Süleyman the Magnificent 1520-66 examining the life of a bureaucrat Celalzade Mustafa

Dynasties and State Formation in Early Modern Europe Liesbeth Geevers, Harald Gustafsson, 2025-10-01 In state formation research princely houses have been a blind spot The development of states has been discussed from many perspectives like interstate competition internal social conflicts fiscal military developments etc but at the centre of most European states there was a princely house These ruling houses have been overlooked in studies about state formation What is more when discussing such dynasties the vertical chronological perspective grandfather father son is all dominating for instance in the focus on dynastic continuity dynastic culture and representation and the like This collection of essays highlights the horizontal perspective ruler all children siblings cousins in asking how the members of a princely family acted as a power network The quest is to develop an understanding how this family network interplayed with other factors in the state formation process This volume brings together existing knowledge of the topic with the aim of exchanging insights and furthering knowledge

The Realities of Witchcraft and Popular Magic in Early Modern Europe E. Bever, 2008-06-11 Exploring the elements of reality in early modern witchcraft and popular magic through a combination of detailed archival research and broad ranging interdisciplinary analyses this book complements and challenges existing scholarship and offers unique insights into this murky aspect of early modern history

The Holy Roman Empire, 1495-1806: A European Perspective Robert Evans, Peter Wilson, 2012-07-25 This text offers a collective exploration of aspects of cross border and transnational interaction in the Holy Roman Empire

Schoenberg and Hollywood Modernism Kenneth H. Marcus, 2016-01-14 Schoenberg is often viewed as an isolated composer who was ill at ease in exile In this book Kenneth H Marcus shows that in fact Schoenberg's connections to Hollywood ran deep and most of the composer's exile compositions had some connection to the cultural and intellectual environment in which he found himself He was friends with numerous successful film industry figures including George Gershwin Oscar Levant David Raksin and Alfred Newman and each contributed to the composer's life and work in different ways helping him to obtain students making recordings of his music and arranging commissions While teaching at both the University of Southern California and the University of California Los Angeles Schoenberg was able to bridge two utterly different worlds the film industry and the academy Marcus shows that alongside Schoenberg's vital impact upon Southern California Modernism through his pedagogy compositions and texts he also taught students who became central to American musical modernism including John Cage and Lou Harrison

The Holy Roman Empire Brian A. Pavlac, Elizabeth S. Lott, 2019-06-01 Reference entries overview essays and primary source document excerpts survey the history and unveil the successes and failures of the longest lasting European empire The Holy Roman Empire endured for ten centuries This book surveys the history of the empire from the

formation of a Frankish Kingdom in the sixth century through the efforts of Charlemagne to unify the West around A D 800 the conflicts between emperors and popes in the High Middle Ages and the Reformation and the Wars of Religion in the Early Modern period to the empire's collapse under Napoleonic rule A historical overview and timeline are followed by sections on government and politics organization and administration individuals groups and organizations key events the military objects and artifacts and key places Each of these topical sections begins with an overview essay which is followed by alphabetically arranged reference entries on significant topics The book includes a selection of primary source documents each of which is introduced by a contextualizing headnote and closes with a selected general bibliography

From Reich to Revolution

Peter H. Wilson, 2019-10-10 German history after the Reformation is often seen as a confusing period of political failures before the emergence of powerful states like Prussia give some coherence to the national story The inability of Emperor Charles V to solve Germany's political and religious problems by 1558 seems to condemn the country to the chaos of the Thirty Years War and the subsequent partition of the Reich or Holy Roman Empire into virtually independent states until its final collapse in 1806 Peter H Wilson's major new study Weaves insights from the latest research into a comprehensive account of German social political and cultural development across two and a half centuries Addresses fundamental questions such as how the apparently fragile structure of the Reich survived the trauma of the Thirty Years War and why despite gross social inequality Germany did not experience mass French style revolution Provides a helpful glossary detailed appendices and a guide to further reading to aid study

The Fiscal-Military State in Eighteenth-Century Europe

Christopher Storrs, 2016-03-03 In recent decades historians of early modern Europe and above all those who study the eighteenth century have elaborated the concept of what has been called the fiscal military state This is a state whose international effectiveness was founded upon the development of large armed forces whose performance and supply necessitated both further administrative development and the provision of large sums the raising of which involved unprecedented levels of taxation and borrowing by governments The present collection of essays by leading authorities in their individual fields all of whom have published widely on their chosen topic explores the subject of the fiscal military state by focusing on its leading exemplars in eighteenth century Europe Austria Britain France Prussia and Russia It also includes a chapter on the Savoyard state the kingdom of Sardinia a lesser power whose career illuminates by comparison developments elsewhere In addition and rather unusually a further chapter considers the fiscal military state in a broader comparative international context in the arena of international relations Each chapter provides a summary of the state of knowledge regarding the fiscal military state debate insofar as it relates to the state under consideration As well as contributing to that debate they take matters further by systematically analysing the sources of wealth and income and the way these were tapped and the broader impact that this attempt to extract resources had on society and the state both in the short and longer term The differing patterns and the variety of models of fiscal military state makes for ease of comparison

across Europe making the volume an invaluable resource to both students and researchers alike Heart of Europe Peter H. Wilson, 2016-04-04 The Holy Roman Empire lasted a thousand years far longer than ancient Rome Its continuity rested on the ideal of a unified Christian civilization As Peter Wilson shows the Empire tells the story of Europe better than histories of individual nation states and its legacy can be seen today in debates over the nature of the European Union **The Beauty of Belief** Róisín Watson, 2024-12-30 The Beauty of Belief sheds new light on Lutheran relationships with ecclesiastical decoration in southwest Germany following the Duchy of Württemberg's Reformation in 1534 Based on extensive original archival research and engagement with surviving images and objects Róisín Watson compellingly demonstrates how Lutherans moved away from initial acts of iconoclasm and towards embracing the possibilities of the religious image in their devotional routines She explores the interactions of Württemberg rulers pastors and congregations with their ecclesiastical spaces across the political upheavals of the sixteenth and seventeenth centuries In doing so this book tells not only the story of the visual culture of the Reformation but an account of Württemberg's Reformation itself *Aesthetic Practices and Politics in Media, Music, and Art* Rocío G. Davis, Dorothea Fischer-Hornung, Johanna C. Kardux, 2010-09-13 This volume analyzes innovative forms of media and music art installations television commercials photography films songs telenovelas to examine the performance of migration in contemporary culture Though migration studies and media studies are ostensibly different fields this transnational collection of essays addresses how their interconnection has shaped our understanding of the paradigms through which we think about migration ethnicity nation and the transnational Cultural representations intervene in collective beliefs Art and media clearly influence the ways the experience of migration is articulated and recalled intervening in individual perceptions as well as public policy To understand the connection between migration and diverse media the authors examine how migration is represented in film television music and art but also how media shape the ways in which host country and homeland are imagined Among the topics considered are new mediated forms for representing migration widening the perspective on the ways these representations may be analyzed readings of enactments of memory in trans and inter disciplinary ways and discussions of globalization and transnationalism inviting us to rethink traditional borders in respect to migration nation states as well as disciplines *War and the State in Early Modern Europe* Jan Glete, 2002-09-11 The sixteenth and seventeenth centuries saw many ambitious European rulers develop permanent armies and navies Jan Glete examines this military change as a central part of the political social and economic transformation of early modern Europe *Princely Power in the Dutch Republic* Geert H. Janssen, 2008 Princely Power in the Dutch Republic offers a vivid analysis of the role of patronage in the Dutch Golden Age It is based on the highly illuminating private diaries of William Frederick of Nassau 1613-1664 Philipp of Hesse and the Reformation Richard Andrew Cahill, 2001 Power Elites and State Building Wolfgang Reinhard, 1996 The Origins of the Modern State in Europe series arises from an important international research programme sponsored by the European Science Foundation The aim of the series which comprises

seven volumes is to bring together specialists from different countries who reinterpret from a comparative European perspective different aspects of the formation of the state over the long period from the beginning of the thirteenth to the end of the eighteenth century. One of the main achievements of the research programme has been to overcome the long established historiographical tendency to regard states mainly from the viewpoint of their twentieth century borders. The modern European state defined by a continuous territory with a distinct borderline and complete external sovereignty by the monopoly of every kind of legitimate use of force and by a homogeneous mass of subjects each of whom has the same rights and duties is the outcome of a thousand years of shifting political power and developing notions of the state. This major study sets out to examine the processes of state formation and the creation of power elites. A team of leading European historians explores the dominant institutions and ideologies of the past and their role in the creation of the contemporary nation state.

Machiavelli and the Modern State Alissa M. Ardito, 2021-02-11. This book offers a significant reinterpretation of the history of republican political thought and of Niccol Machiavelli's place within it. It locates Machiavelli's political thought within enduring debates about the proper size of republics. From the sixteenth century onward as states grew larger it was believed only monarchies could govern large territories effectively. Republicanism was a form of government relegated to urban city states anachronisms in the new age of the territorial state. For centuries history and theory were in agreement constructing an extended republic was as futile as trying to square the circle but then James Madison devised a compound representative republic that enabled popular government to take on renewed life in the modern era. This work argues that Machiavelli had his own Madisonian impulse and deserves to be recognized as the first modern political theorist to envision the possibility of a republic with a large population extending over a broad territory. **Patrons, Partisans, and Palace**

Intrigues Christoph Rosenmüller, 2008. Palace intrigues and clientelism drove politics at the viceregal court of colonial Mexico. By carefully reconstructing social networks in the court of Viceroy Duke of Albuquerque 1702-1710 Christoph Rosenmüller reveals that the Duke presided over one of the most corrupt viceregal terms in Mexican history. Albuquerque was appointed by Spain's King Philip V at a time when expanding state power was beginning to meet with opposition in colonial Mexico. The Duke and his retainers though seemingly working for the crown actually built close alliances with locals to thwart the reform efforts emanating from Spain. Albuquerque collaborated with contraband traders and opposed the secularization of Indian parishes. He persecuted several local craftsmen and merchants some of whom died after languishing in jail accusing them of treason to bolster his own credentials as a loyal official. In the end however the dominant clique at the royal court in Madrid sought revenge. Albuquerque was forced to pay an unheard of indemnity of 700 000 silver pesos to regain the king's favour. Dealing with a topic and period largely ignored by historiography Rosenmüller exposes the vast patronage power of the viceroy at the historical watershed between the expiring Habsburg dynasty and the incoming Bourbon rulers. His analysis reveals that precursors of the Bourbon reforms and the struggle for Mexican independence were

already at play in the early eighteenth century

Systems, Relations, and the Structures of International Societies

Jack Donnelly, 2023-11-02 Argues that systems approaches are necessary in order to identify and understand important features of the world

Monarchy, Aristocracy, and the State in Europe 1300-1800 Hillay Zmora, 2001

Monarchy and the State in Europe 1300 1800 is an important survey of the relationship between monarchy and state in early modern European history Spanning five centuries and covering England France Spain Germany and Austria this book considers the key themes in the formation of the modern state in Europe The relationship of the nobility with the state is the key to understanding the development of modern government in Europe In order to understand the way modern states were formed this book focusses on the implications of the incessant and costly wars which European governments waged against each other which indeed propelled the modern state into being Monarchy Aristocracy and the State in Europe 1300 1800 takes a fascinating thematic approach providing a useful survey of the position and role of the nobility in the government of states in early modern Europe
