the Atlantic and Pacific coasts to about 10 days. It became the West's most direct means of east-west communication before the transcontinental telegraph was established October 24, 1861, and was vital for tying the new U.S. state of California with the rest of the United States. Despite a heavy subsidy, the Pony Express was not a financial success and went bankrupt in 18 months when faster telegraph service was established. Nevertheless, it demonstrated that a unified transcontinental system of communications could be established and operated year-round. When replaced by the telegraph, the Pony Express quickly became romanticized and became part of the lore of the American West. Its reliance on the ability and endurance of individual young, hardy riders and fast horses was seen as evidence of rugged American individualism of the frontier times.

The Story of the Pony Express Glenn D. Bradley, 2016-07-12. The Pony Express was the first rapid transit and the first fast mail line across the continent from the Missouri River to the Pacific Coast. It was a system by means of which messages were carried swiftly on horseback across the plains and deserts and over the mountains of the far West. It brought the Atlantic coast and the Pacific slope ten days nearer to each other. It had a brief existence of only sixteen months and was supplanted by the transcontinental telegraph. Yet it was of the greatest importance in binding the East and West together at a time when overland travel was slow and cumbersome and when a great national crisis made the rapid communication of news between these sections an imperative necessity.

The Groundbreaking Pony Express Patricia R. Quiri, 2017-08-01. Jump on your horse and prepare for an adventure. Deliver the mail along with the brave employees of the Pony Express as they face dangerous terrain, frightful weather, and hostile American Indians.

Saddles and Spurs Raymond W. Settle, 1955-01-01. The story of the Pony Express, which carried transcontinental mail from April 3, 1860, to October 24, 1861, is one of the most invigorating and satisfying episodes in American history. *Saddles and Spurs: The Pony Express Saga* brings together a storehouse of information about this brilliant operation. Projected against an account of the historical background, the great overland mail issue, the freighting and the stagecoach business, the development of the telegraph and the Pacific railroad is the narrative of the Pony Express's organization and the laying out of its route, biographical sketches of the founders, company personnel and riders, and a list and description of the stations. While undertaking their exhaustive research, the authors collected some three hundred photographs of which more than fifty of the best appear in this volume.

The Pony Express A. I. Lake, 1990. Describes the history of the Pony Express and the daring riders who risked their lives to deliver the mail.

The Story of the Pony Express Glenn Danford Bradley, 2020-12-24. The Pony Express was a mail service delivering messages, newspapers, and mail using relays of horse-mounted riders that operated from April 3, 1860, to October 26, 1861, between Missouri and California in the United States of America. The Pony Express was the first rapid transit and the first fast mail line across the North American continent from the Missouri River to the Pacific Coast. It was a system by means of

which messages were carried swiftly on horseback across the plains and deserts and over the mountains of the far West It brought the Atlantic coast and the rapidly developing state of California ten days nearer to each other The Pony Express had only a brief existence from April 1860 to October 1861 when it was supplanted by the trans continental telegraph Yet it was of the greatest importance in binding the East and West together at a time when overland travel was slow and cumbersome and when a great national crisis made the rapid communication of news between these sections an imperative necessity The Pony Express marked the highest development in overland travel prior to the coming of the Pacific railroad which it preceded by nine years In fact it proved the feasibility of a transcontinental road and demonstrated that such a line could be built and operated continuously the year around a feat that had always been regarded as impossible The operation of the Pony Express was a supreme achievement of physical endurance on the part of man and his ever faithful companion the horse The history of this organization should be a lasting monument to the physical sacrifice of man and beast in an effort to accomplish something worthwhile Its history should be an enduring tribute to American courage and American organizing genius
