*Adult Learning and Social Change in the UK* Jules Robbins, Alan Rogers, 2023-02-09 Adult education offers the potential to enhance the individual's sense of agency to direct and improve their future this is especially important in times of significant societal unrest It may lead to social change and even social justice This book begins with a new consideration of historical perspectives of radical adult education in the UK and how these might inform planning for future adult education which is both relevant and emancipatory The volume aims to capture some of the messiness of adult education through analysis of a wide range of its many forms and a focus on the learners themselves the different kinds of providers and the wider community around them Individual chapters offer insights into an environmental community gardening scheme provision for refugees and asylum seekers the radical role of volunteers the impact of discussion groups for older people and the National Community Service scheme for young adults The book considers the significance of the Sustainable Development Goals each of which includes targets linked with adult training awareness raising or education Considering the factors for effective adult education programmes for social change this volume questions the extent to which it can be argued that positive social change results from adult education Active learning group learning and education which is practical flexible and individualised may provide the best routes ahead The wide ranging case studies demonstrate the importance of recognising and valuing adult learners prior knowledge and the need for alternative approaches to assessment

**Education for Adults** Malcolm Tight, 2014-06-17 The nature of adult education at individual group and community levels is the concern of this book Definitions and patterns of adult learning are critically assessed in both this country and abroad and the processes involved considered in detail Both case studies and thematic articles have been included and are selected to illustrate the breadth of the field along a number of areas formal non formal and informal education face to face and distance education from basic levels of education to higher education from highly deterministic to more open or self directed forms of education It is felt that the study and practice of the education of adults can be best advanced by the adoption of such a broad view
