**The great errors of humanity; the population explosion** Luis Arturo Acevedo Acevedo, 2019-08-04 Every time I get up in the last 25 years or so I have been noticing the great changes that Medellin Colombia has suffered the city where I was born it is impressive the amount of forest that has been lost by the number of people who have been invading the land to build a house of tin and wood and thus demand of the government services of water electricity and improvements The arrival of so many people who come from villages at war or from remote areas looking for better opportunities or simply opportunists looking for more land to invade With the arrival of this number of people it has also changed the means of transport which were not so full were faster without so much traffic and where the metro system was more comfortable quiet agile and without congestion and where the avenues regional and motorways did not have as much traffic or as much car truck and motorcycle **The Population Explosion** Edward G. Stockwell, 1963 **The Population Explosion** C. W. Park, 1970
