seldom been studied Fictions of the Feminine in the Nineteenth-Century Spanish Press Lou Charnon-Deutsch, 2010-11-01
How was the female body perceived in the popular culture of late nineteenth century Spain Using a wide array of images from popular magazines of the day Lou Charnon Deutsch finds that women were typically presented in ways that were reassuring to the emerging bourgeois culture Charnon Deutsch organizes the 190 images reproduced in this book into six broad categories or fictions of the feminine she reads women's bodies as a romantic symbol of beauty or evil as a privileged link with the natural order as a font of male inspiration as a mouthpiece of bourgeois mores as a focalized point of male fear and desire and as an eroticized expression of Spanish exoticism and political ambitions These imaginary visions of femininity Charnon Deutsch argues were a response to and also helped to create gendered stereotypes by suggesting ideal feminine behavior and poses Further they comprised a reassuring between male cultural medium that provided graphic validation of women's docile body for a culture enthralled with femininity Integrating the fields of literature and cultural studies Charnon Deutsch's approach to this subject is unique Many of the images collected here are available for the first time and they represent only a fraction of the two thousand images Charnon Deutsch collected during her research This book will appeal to students of Spanish cultural studies and gender studies as well as to art historians **Key Concepts** Trevor

Pateman, 2016-05-05 First published in 1991 The arts can only thrive in a culture where there is conversation about them This is particularly true of the arts in an education context Yet often the discussion is poor because we do not have the necessary concepts for the elaboration of our aesthetic responses or sufficient familiarity with the contending schools of interpretation The aim of *Key Concepts* is to engender a broad and informed conversation about the arts By means of over sixty alphabetically ordered essays the author offers a map of aesthetics critical theory and the arts in education The essays are both informative and argumentative with cross references a supporting bibliography and suggestions for further reading

Morgan, 1994-01-01 The introductory essay provides an overview of current issues and methodologies in gender theory while the 11 essays in the book discuss novels and poems from the seventeenth century to the present by British American and French male writers who speak as through or like the feminine **Violence and the Female Imagination** Paula Ruth Gilbert, 2006-03-31 In the past twenty years Quebec women writers including Aline Chamberland Claire D Suzanne Jacob and H l ne Rioux have created female characters who are fascinated with bold sexual actions and language cruelty and violence at times culminating in infanticide and serial killing Paula Ruth Gilbert argues that these Quebec feminist writers are re

framing gender Violence and the Female Imagination explores whether these imagined women are striking out at an external other or harming themselves through acts of self destruction and depression Gilbert examines the degree to which women are imitating men in the outward direction of their anger and hostility and suggests that such tough women may be mocking men in their macho exploits of sexuality and violence She illustrates the ways in which Quebec female authors are feminizing violence or re envisioning gender in North American culture Gilbert bridges methodological gaps and integrates history sociology literary theory feminist theory and other disciplinary approaches to provide a framework for the discussion of important ethical and aesthetic questions

Saint Thecla Rosie Andrious, 2020-09-17 This volume questions the prevailing female empowering interpretation of Thecla in the Acts of Paul and Thecla Rosie Andrious examines the way that Thecla is voyeuristically paraded and subjected to a kind of sado erotic torture and demonstrates how this perception clashes with any notion that she is presented as a positive role model for a woman Rather Andrious sets this discourse about female self control and chastity over against the wider narrative of Christian men struggling against the invasive violence of Rome and suggests that the victimized voyeuristic female representation of Thecla has very little to do with women and is rather a complex literary text that represents a power struggle between men The ideological function of Thecla is therefore as a constructed body that transcends its natural feminine weakness Andrious thus provides an original interpretative framework for understanding Thecla's representation and suggests a completely new way of seeing the saint
