## **The Pour Le Merite And Germanys First Aces:**

"The" Pour Le Mérite and Germany's First Aces John R. Angola, Clint R. Hackney, 1984-01-01      *World War I* Spencer C. Tucker, 2014-10-28 Offering exhaustive coverage detailed analyses and the latest historical interpretations of events this expansive five volume encyclopedia is the most comprehensive and detailed reference source on the First World War available today One hundred years after the beginning of World War I in 1914 this conflict still stands as perhaps the most important event of the 20th century World War I toppled all of the existing empires at the time transformed the Middle East and vaulted the United States to becoming the world s leading economic power Its effects were profound and lasting and included outcomes that led to World War II This multivolume encyclopedia provides a wide ranging examination of World War I that covers all of the important battles key individuals both civilian and military weapons and technologies and diplomatic social political cultural military and economic developments Suitable as a reference tool for high school and undergraduate students as well as faculty members and graduate level researchers World War I The Definitive Encyclopedia and Document Collection offers accessible in depth information and up to date analyses in a format that lends itself to quick and easy use The set comprises alphabetically arranged cross referenced entries accompanied by further reading selections as well as a comprehensive bibliography A fifth volume provides chronologically arranged documents and an A Z index

*Hermann Goering in the First World War* Blaine Taylor ,2017-05-17 When modern readers think of Hermann Goering what probably comes to mind is the overweight drug addict and convicted war criminal who cheated the hangman s noose at Nuremberg by committing suicide just hours before he was due to die Or perhaps there is the image of his powerful German air force in the Second World War the Luftwaffe bombing defenceless European cities and towns in the early part of the war until it was defeated by the Royal Air Force in the epic Battle of Britain Perhaps the reader might think of Goering the debauched art collector who pirated captured collections all over Nazi Europe during the Occupation years All of these images are correct but here we see another Hermann Goering the slim dashing fighter pilot and combat ace of an earlier struggle the Great War of 1914 18 which he began as an infantry officer fighting the French Army in the 1914 Battle of the Frontiers During a hospitalization his friend Bruno Lorzer convinced him to become an aerial observer photographer photographing the mighty French fortress of Verdun He did and began these never before seen personal photo albums of men and aircraft at war up close This remarkable book the first of an intimate series of photographic diaries is a unique photographic record of the early years of this notorious figure Illustrations 348 black and white photographs      Authority, Identity and the Social History of the Great War Frans Coetzee, Marilyn Shevin-Coetzee, 1995 The unprecedented scope and intensity of the First World War has prompted an enormous body of retrospective scholarship However efforts to provide a coherent synthesis about the war s impact and significance have remained circumscribed tending to focus either on the operational outlines of military strategy and tactics or on the cultural legacy of the conflict as transmitted by the war s most

articulate observers This volume departs from traditional accounts on several scores by exploring issues barely touched upon in previous works by deviating from the widespread tendency to treat the experiences of front and homefront isolation and by employing a thematic treatment that by considering the construction of authority and identity between 1914 and 1918 illuminates the fundamental question of how individuals whether in uniform or not endured the war's intrusion into so many aspects of their public and private lives German Knights of the Air, 1914-1918 Terry C. Treadwell, Alan C. Wood, 1998

**Luftwaffe War Diary** Uwe Feist, Thomas McGuirl, 2014-07-01 Visual history of the German air force in World War II Hundreds of color and b w images of pilots and crews aircraft uniforms awards sidearms and more Includes Stuka dive bombers Messerschmitt Bf 109 fighters and other planes Must have for historians modelers World War II buffs and aviation enthusiasts

**500 Great Military Leaders** Spencer C. Tucker, 2014-12-16 This insightful encyclopedia examines the most influential commanders who have shaped military history and the course of world events from ancient times to the present From Alexander the Great and Attila the Hun to Ho Chi Minh and Colin Powell 500 Great Military Leaders provides readers with insight into the most innovative and prominent individuals who have led armies to victory on battlefields all over the world The broad coverage ranges from military leaders from the ancient world to the present day including political figures who directed war efforts and those who were responsible for major technological improvements This encyclopedia goes beyond providing factual information about each individual's life to delve into the greater historical context and impact on their contemporaries as well as on future military history The presentation of information is designed to enable readers to both observe the gradual evolution of warfare over time and clearly perceive the differences in tactics used by generals with varying military resources at their disposal The entries include not only information on the individual's life and work but a summary statement that assesses successes and failures across each leader's career and summarizes the overall impact Each entry also provides several references for further reading about that individual The accessible writing style of this resource and in depth information and analyses make it appropriate for high school and undergraduate level students as well as scholars of military history and individuals who simply enjoy reading about military history

**The Devil's General** Raymond Bagdonas, 2014-01-19 A detailed military biography of the most highly decorated Nazi regimental commander in WWII The most highly decorated German regimental commander of World War II Hyazinth Graf Strachwitz first won the Iron Cross in the Great War He was serving with the 1st Panzer Division when the Polish campaign inaugurated World War II Strachwitz's exploits as commander of a panzer battalion during the French campaign earned him further decorations before he transferred to the newly formed 16th Panzer Division There he participated in the invasion of Yugoslavia and then Operation Barbarossa where he earned the Knight's Cross At Stalingrad he reached the Volga and fought on the northern rim of Sixth Army's perimeter Severely wounded during battle he was flown out of the Stalingrad pocket and was thus spared the fate of the rest of Sixth Army Upon recuperation he was named commander of the Grossdeutschland Division's panzer

regiment and won the Swords to the Knight's Cross during Manstein's counteroffensive at Kharkov Wounded twelve times during the war and barely surviving a lethal car crash Strachwitz finally surrendered to the Americans in May 1945 Historian Raymond Bagdonas though impaired by the disappearance of 16th Panzer Division's official records at Stalingrad and the fact that many of the Panzer Graf's later battlegroups never kept them has written a vividly detailed account of this combat leader's life as well as ferocious armored warfare in World War II

A Companion to World War I John Horne, 2011-11-23 A Companion to the First World War brings together an international team of distinguished historians who provide a series of original and thought provoking essays on one of the most devastating events in modern history Comprises 38 essays by leading scholars who analyze the current state of historical scholarship on the First World War Provides extensive coverage spanning the pre war period the military conflict social economic political and cultural developments and the war's legacy Offers original perspectives on themes as diverse as strategy and tactics war crimes science and technology and the arts Selected as a 2011 Outstanding Academic Title by CHOICE

*Angels Of Armageddon: The Royal Air Force In The Battle Of Megiddo [Illustrated Edition]* Major Gary J. Morea, 2014-08-15 Includes World War One In The Desert Illustration Pack 115 photos illustrations and 19 maps spanning the Desert campaigns 1914 1918 Egypt and Palestine offered the British an opportunity to fight a war of movement Unlike the Western Front Egypt and Palestine were undeveloped with wide expanses of land It was ripe for the development of maneuver warfare using the mechanical products of the industrial age motor cars machine guns tanks and aeroplanes In particular the use of aeroplanes proved vital to the successful British defense of the Suez Canal by providing reconnaissance of enemy formations and early warnings of attack This role of the Royal Flying Corps expanded in this theater to cover the breadth and depth of British efforts at the tactical operational and strategic levels The strategic success of the Royal Air Force in wresting air superiority from the Germans was the key that allowed the Egyptian Expeditionary Force EEF to prepare and conduct its campaign against the central powers across the plains surrounding Megiddo It provided the EEF intelligence of enemy positions freedom to maneuver forces undetected and the depth to attack and rout the retreating Turkish forces to the point of annihilation The evolution of local air superiority in Palestine properly coordinated with the ground offensive was the deciding factor for victory in that theater

The German Air Force I Knew 1914-1918 Bob Carruthers, 2014-03-31 Major Georg Paul Neumann was a former German Air Force officer who had served in the Great War He produced his outstanding survey of the German Air Force in 1920 while the events were still recent history He was able to draw on his own experience and his contacts to compile a large number of personal accounts from officers and men who had so recently fought in the cause The result is an accurate faithful and comprehensive review of the aircraft personnel and organisation of the force which began life in 1910 as the Imperial German Army Air Service and ended the war as the Luftstreitkräfte This comprehensive and compelling review includes a series of primary sources dealing with some of the unusual and lesser known aspects of the Luftstreitkräfte including a gripping account of defending a Zeppelin against

attack by British fighters Major Neumann's indispensable work has never been surpassed and this English language translation is essential reading for anyone with an interest in the realities of the war in the air in the Great War **Military Aviation of the First World War** Alan Sutton, Alan C. Wood, 2017-04-21 over 470 black and white photographs This beautifully illustrated book provides details of every power that took part in Military aircraft activity during the First World War The war was a global conflict with 57 nations involved but with aviation being in its infancy only eight nations had a major air arm to their fighting Services The Allies Britain America Italy Belgium France and Russia and then the Central Powers comprising Germany and Austria Hungary The book covers the formation establishment and wartime exploits of all the major air powers during the war as well as providing thumbnail sketches of all the major aces for each country giving full coverage to The Allies The Royal Flying Corps The French Military Air Service The United States Air Service Aeronautica de Region Esercito Italy The Belgian Air Arm The Russian Imperial Air Services The Central Powers The Imperial German Air Service and the Austro Hungarian flying service However smaller powers at the time like Australia Canada and Japan as well as Portugal Serbia Romania and South Africa are all featured in this fascinating book **Researching World War I** Robin Higham, Dennis Showalter, 2003-12-30 World War I was the greatest cataclysm Europe had ever known directly involving 61 million troops from 16 nations Yet the history of the war and the reasons it started and spread so rapidly were vastly more complex than the players realized Written by highly respected authorities this book discusses the literature on all aspects of the war making it an excellent starting point for anyone seeking guidance to the immense and often daunting body of World War I literature The struggle mobilized manpower from home troops from the colonies abroad and in most countries women as well as men Governments increasingly intervened in everyday life New weapons and organizational structures were developed Yet the history of the war and the reasons it started and spread so rapidly were vastly more complex than the players realized Written by highly respected authorities this book discusses the literature on all aspects of the war Dennis Showalter's opening chapter covers the controversial issue of the war's origins a complex subject that has been much debated by historians Ensuing chapters consider the literature on each of the participating countries The broader subjects of the war at sea and the war in the air are also covered Daniel Beaver's final chapter discusses the mobilization of industry and the new military technology This book is an excellent starting point for anyone seeking guidance to the immense and often daunting body of World War I literature **Iron Man** Peter Kilduff, 2012-12-19 This biography of a tenacious fighter pilot is a powerful story about a fascinating man who seemed to know no fear Aerodrome As one of the most successful German fighter pilots of World War I Rudolf Berthold was victorious in forty four aerial combats He was also shot down or forced to land after six fights and survived crash landings in every case Early in WWI when only fighter pilots were awarded the Kingdom of Prussia's and de facto Imperial Germany's highest bravery decoration the Pour le Mrite Berthold became the tenth recipient of the honor Of that early cohort of air heroes only Berthold and one other pilot survived the war This book

tells his remarkable story Six weeks into the war Berthold became the first airman in the 2nd Army area to be awarded an Iron Cross in recognition of his bravery and tenacity in combat The symbolism of the award was appropriate Described by one of his pilot prot g s as an Iron Man with an absolutely unbendable iron will he was a dedicated patriot And after he became a fighter pilot he demonstrated a fierce fighting spirit in many encounters with British and French adversaries All of his aerial combats with other Pour le M rite awarded flyers are detailed in this book Indeed Berthold was so relentless in his approach to aerial combat that when badly wounded on at least six occasions he cut short his convalescent leave to return to flying with his comrades The injuries included a hit to his right arm which shattered the bone rendering it useless yet an undaunted Berthold taught himself to fly using his left Peter Kilduff has produced a landmark volume based on extensive research into Berthold s life and military career to form the most complete account of Germany s sixth highest scoring fighter ace of WWI Illustrated with over eighty photographs and other artworks many never published before Iron Man tells the tale of this ruthless fearless fighter whose perseverance and bravery made him one of the most famous airmen of the Great War

**The German People versus Hitler (RLE Responding to Fascism)** Heinrich Fraenkel,2010-11-01 The extent to which the Nazi regime was truly representative of the German people was a key issue for external commentators First published in 1940 The German People versus Hitler sets out to prove that the identification of Germany and the Third Reich Germanism and Nazism the German people and the Nazi Party is a fallacy It identifies widespread sources of opposition to the Nazi regime from all strata including the Church and from the former socialist parties The Battle of Britain Christer Bergström,2015-09-19 A thorough look at this turning point WWII aerial battle with eyewitness accounts maps and rare photos incredibly well researched Aircrew Book Review By late summer 1940 Nazi Germany had conquered all its opponents on the continent including the British Army itself which was forced to scramble back aboard small boats to its shores A non aggression pact with the Soviet Union in hand Hitler had only one remaining object that season the British Isles themselves However before he could invade his Luftwaffe needed to wipe the Royal Air Force from the skies History s first strategic military campaign conducted in the air alone was about to take place This book contains a large number of dramatic eyewitness accounts even as it reveals new facts that will alter common perceptions of the battle For example the twin engined Messerschmitt Bf 110 was actually a good day fighter and it performed at least as well in this role as the Bf 109 during the battle The Luftwaffe s commander Hermann G ring performed far better than has been believed The British night bombers played a more decisive role than previously thought in addition this book disproves that the German 109 pilots were in any way superior to their Hurricane or Spitfire counterparts The author has examined records from both sides and provides surprising statistics that shatter much conventional wisdom laying out the Battle of Britain as seldom seen before Includes color photos of the relevant aircraft Faustian Bargain Ian Ona Johnson,2021-05-28 Offers the full story of a fateful alliance between past and future mortal enemies long preceding the well known Ribbentrop Molotov Pact whose

dimensions were kept secret from the outside world and yet which set the stage for World War Two and its outcome      Over the Front ,2008      *Collision of Empires* A. D. Harvey,1993-07-01 The only previous war to match the world wars of the twentieth century in scale and impact was the French War of 1793 1815 This book is the first book to compare these conflicts which together shaped the history of the modern world A D Harvey relates the causes conduct and outcome of these wars to the fundamental nature of the societies which fought them Political decisions economic power and social attitudes interfaced with the demands of military technology to determine the outcome of each case Britain is the centre of focus but is seen against a background of the other combatants Harvey s ability to make large scale generalisations is backed up by a wealth of fascinating and carefully documented detail making this outstanding and exceptionally well written book a pleasure to read The author has tackled a huge subject and has not been afraid to face up to either its complexities or its implications By asking new questions and using a range of unfamiliar sources this book provides an unusually profound analysis not only of these wars but also of the nature of modern society and of our understanding of the past      *The German War Machine in World War II* David T. Zabecki,2019-12-02 This invaluable resource offers students a comprehensive overview of the German war machine that overran much of Europe during World War II with close to 300 entries on a variety of topics and a number of key primary source documents This book provides everything the reader needs to know about the German war machine that developed into the potent armed force under Adolf Hitler This expansive encyclopedia covers the period of the German Third Reich from January 1933 to the end of World War II in Europe in May 1945 Dozens of entries on key battles and military campaigns military and political leaders military and intelligence organizations and social and political topics that shaped German military conduct during World War II are followed by an illuminating epilogue that outlines why Germany lost World War II A documents section includes more than a dozen fascinating primary sources on such significant events as the Tripartite Pact among Germany Italy and Japan the Battle of Stalingrad the Normandy Invasion the Ardennes Offensive and Germany s surrender In addition six appendices provide detailed information on a variety of topics such as German aces military commanders and military medals and decorations The book ends with a chronology and a bibliography of print resources
