This book moves beyond rehabilitative strategies in corrections to engage a more holistic understanding of the communal experiences behind prison walls Behavioral deficit models dominate the field of corrections theory rehabilitation retribution deterrence incapacitation and restoration Even humanist conceptions of evolution are described as change transformation correction improvement a lexicon fixed on a distorted view of humanity What has not been explored is the resilience and human flourishing despite the systemic injustice and dehumanization of prison What innovations are possible with a change of perspective and focus on self identified stories of transformation where transformation is redefined from the lens of self efficacy and power to change one s world Where we rebuild the lexicon from a humanizing philosophy and our starting point shifts to the inherent goodness of humanity and the potential to evolve beyond limiting narratives and social constructs Where we empower those with the most to lose through our feeble attempts as outsiders to reform prison paradigms Where religious narratives of human depravity give way to trauma informed praxis and neuroscience Where community and relational equity replace solitary confinement and isolation Using an indigenous research methodology analyzing memoirs of formerly incarcerated people the book contextualizes and identifies the role of community and shared emotional connection among incarcerated people This book is essential for scholars practitioners and students concerned with the transformative journey among the incarcerated population and for anyone engaged in higher education in prison or interested in

constructive change of the prison system **Healing Corrections** Chris Innes, 2015-05-22 Unlike critics who see the organizational cultures of prisons jails and community correction agencies as a problem that needs to be fixed with simple sounding reforms Chris Innes argues instead that these types of organizational cultures are adaptive and a source of strength that can be used to genuinely transform them He shows how operational priorities including safety and security become much more difficult to sustain when organizational cultures become fragmented into disconnected subcultures To transform an organizational culture he argues this fragmentation must be healed by changing the patterns of communication that make up the day to day reality of an organization s culture Innes advocates an innovative approach based on the skills and practices of dialogue He describes in detail how Dialogic Practice can be used to transform organizational cultures through an implementation process that begins with the leadership and cascades through the organization as an expanding circle as staff are trained and become engaged in the process Innes draws upon the research and policy literature in several fields the contemporary national debate on the role of the justice system in American society and his own experience during the last forty years in correctional research and policy and in working directly with correctional agencies This innovative approach to transforming organizational cultures will interest correctional decision makers administrators researchers and graduate students in criminal justice advocates and others who manage mission driven human services organizations **Prison**

Pedagogies Joe Lockard, Sherry Rankins-Robertson, 2018-07-20 In a time of increasing mass incarceration US prisons and jails are becoming a major source of literary production Prisoners write for themselves fellow prisoners family members and teachers However too few write for college credit In the dearth of well organized higher education in US prisons noncredit programs established by colleges and universities have served as a leading means of informal learning in these settings Thousands of teachers have entered prisons many teaching writing or relying on writing practices when teaching other subjects Yet these teachers have few pedagogical resources This groundbreaking collection of essays provides such a resource and establishes a framework upon which to develop prison writing programs Prison Pedagogies does not champion any one prescriptive approach to writing education but instead recognizes a wide range of possibilities Essay subjects include working class consciousness and prison education community and literature writing at different security levels in prisons organized writing classes in jails and juvenile halls cultural resistance through writing education prison newspapers and writing archives as pedagogical resources dialogical approaches to teaching prison writing classes and more The contributors within this volume share a belief that writing represents a form of intellectual and expressive self development in prison one whose pursuit has transformative potential Leadership Paradigms in Chaplaincy Joel Graves, 2007 This dissertation argues that business people clergy lay persons and many chaplains do not understand the leadership and management dynamics of chaplaincy and this lack of knowledge has a direct impact on how chaplaincy is done and not done in certain areas In chaplaincy and many churches leadership management and ministry have a synergistic effect when they

come together in response to a problem or crisis An understanding of chaplaincy dynamics scope methods possibilities and issues in relation to this effect is vital to this growing field in four areas Helps prepare people for ministry as chaplains whether clergy or lay benefits those already in chaplaincy ministry helps clergy reexamine their ministry to determine if they are where God wants them serves to teach everyone including upper level management and senior church leaders of the roles actual or potential that chaplains can fill in response to the growing needs of people Developing Leaders for Positive Organizing Bernd Vogel, Rob Koonce, Paula Robinson, 2017-05-19 Leadership is not about individuals it is a complex relational socially co constructed and emergent process This book brings together the latest thinking from business and positive psychology research to provide new insights into leadership organizational development and change

Van Deburg, 2013-10-21 Martin Luther King Jr Malcolm X Muhammad Ali When you think of African American history you think of its heroes individuals endowed with courage and strength who are celebrated for their bold exploits and nobility of purpose But what of black villains Villains just as much as heroes have helped define the black experience Ranging from black slaveholders and frontier outlaws to serial killers and gangsta rappers *Hoodlums* examines the pivotal role of black villains in American society and popular culture Here William L Van Deburg offers the most extensive treatment to date of the black badman and the challenges that this figure has posed for race relations in America He first explores the evolution of this problematic racial stereotype in the literature of the early Republic documents in which the enslavement of African Americans was justified through exegetical claims Van Deburg then probes antebellum slave laws minstrel shows and the works of proslavery polemicists to consider how whites conceptualized

blacks as members of an inferior and dangerous race Turning to key works by blacks themselves from the writings of Frederick Douglass and W E B Du Bois to classic blaxploitation films like Black Caesar and The Mack Van Deburg demonstrates how African Americans have combated such negative stereotypes and reconceptualized the idea of the badman through stories of social bandits controversial individuals vilified by whites for their proclivity toward evil but revered in the black community as necessarily insurgent and revolutionary Ultimately Van Deburg brings his story up to date with discussions of prison and hip hop culture urban rioting gang warfare and black on black crime What results is a work of remarkable virtuosity a nuanced history that calls for both whites and blacks to rethink received wisdom on the nature and prevalence of black villainy

Magic of Fiction in Illuminating Transformation Donald

Stoesz,2020-01-09 This book is a direct response to the two most frequently asked questions that I receive as a prison chaplain Are offenders remorseful for what they have done Is it possible for them to change While the answer to the first question is often a resounding Yes this does not mean that it is always possible for inmates to change Some of them find it too difficult too much sacrifice too much work Others are willingly to make the long journey toward healing and wholeness The intractability of Tom Riddle in the Harry Potter series is used to look at the challenges of feeling remorse The story of Jean Valjean details the journey from remorse to forgiveness from grace to justification from being reborn to becoming sanctified from becoming holy to learning how to love Jesus remarks that he can lay down his life and take it up again is used to develop a stronger theology of the will The divine and human will are ever present in enabling change to occur The sacrificial example of Saint Francis of Assisi shows how voluntary poverty chastity and obedience are necessary ingredients in becoming spiritually whole The book concludes with a reflection on Dismas the first Christian martyr
