brings to you So practicing mental control the self discipline of personal thought you actually start bringing into your life exactly what you want Consider this from Lesson 16 You will find that each day as you focus your forces on this thought at the center of the stream of consciousness new plans ideas and methods will flash into your mind There is a law of attraction that will help you accomplish your purpose An advertiser for instance gets to thinking along a certain line He has formed his own ideas but he wants to know what others think He starts out to seek ideas and he soon finds plenty of books plans designs etc on the subject although when he started he was not aware of their existence The same thing is true in all lines We can attract those things that will help us Very often we seem to receive help in a miraculous way It may be slow in coming but once the silent unseen forces are put into operation they will bring results so long as we do our part They are ever present

and ready to aid those who care to use them By forming a strong mental image of your desire you plant the thought seed which begins working in your interest and in time that desire if in harmony with your higher nature will materialize Atkinson however goes further he tells you that you have to practice your concentration to improve it to gain that complete mastery of your life And he gives you practical exercises to achieve this control This book is for you to improve your own abilities to achieve what you want in life what you want to do have or become And your dreams are what prompted this series This book and this series is simply give you the tools you need to do so From the Introduction Get Your Copy Now [The Power of Concentration](#) Theron Q.,2017-08-15 It is of the utmost value to learn how to concentrate To make the greatest success of anything you must be able to concentrate your entire thought upon the idea you are working on The person that is able to concentrate utilizes all constructive thoughts and shuts out all destructive ones The greatest man would accomplish nothing if he lacked concentration **The Power of Concentration** Q. improving concentration concentration power increase concentration memory improvement This book was originally written as a sequel to my book The Power of Observation and I undertook this project to dispel some myths that my readers sent me Because of these myths people are having difficulty putting the power of the mind to work in their lives The first myth is this Concentration IS NOT another word for FOCUS The human mind concentrates or is targeted to something or some object but can be focused on something else A good example of this is reading a book concentration but your mind is wandering focused on another subject maybe a problem or a person or whatever I know everybody has had this occur in their lifetime many all too often The other day I was reading one of my professional journals and I had read maybe ten pages when I realized that I was concentrating on the professional journal but my mind was focused on the fact that I could not attend an engagement I had committed to and was trying to think of an excuse to get out of it Concentration is defined as targeting the mind on a task object or event focusing is defined as placing your attention on a task object or event Concentration is the first step the mind utilizes to learning Focusing is the first step the mind uses to identify if something is worthy of learning In other words the human mind focuses first and then if it determines it wants to learn it then concentrates This is an important distinction and often confused This fascinating study is a must read book because it unlocks the power of the human mind Get your copy today
