Jesus Christ Superstar Ellis Nassour, 2024-02-29 In 1969 when Andrew Lloyd Webber and Tim Rice decided to write a rock opera about Jesus Christ they had little idea they were about to embark on one of the most popular boundary pushing and influential musicals ever The show's success was hardly assured at first unable to secure enough funding they initially resorted to just releasing its title song as a single A full album followed to widespread acclaim and only then could a full production get

underway More than fifty years later Jesus Christ Superstar continues to be beloved in all its forms the live show various cast albums and the wildly successful movie Few people had the chance to witness the musical s evolution from as many angles as Ellis Nassour whether collaborating with Rice and Lloyd Webber at MCA writing for the New York Times or assisting with the Broadway and LA productions In this expansive beautifully illustrated book Nassour draws on a wealth of knowledge first hand experience and new interviews to give the definitive story of the musical Combining an engaging narrative with abundant photographs many in color and never before published he follows the show from its uncertain beginnings through setbacks and controversies to Tim Rice and Andrew Lloyd Webber s ultimate triumph serving up an unparalleled look at one of the most important and best selling musical works of all time **Crop Circles and Climate Change** Jerry Lesac,2008 Of all of the arguments ever given by science regarding faith and religion that it is really nothing more than conjecture and it would be that God can t be observed to exist Looking at the topic of climate change and what we are presented with is something altogether different For according to the bible it makes no bones about the fact that when it comes to the weather and it is Almighty God who is ultimately responsible for it all Industrial pollution however it may aggravate the environment in which we live is not the real reason behind what is happening Rather it has got everything to do with another kind of pollution that the bible calls SIN This is what is really happening to our weather and by all appearances these crop circles now and it is reaching a place wherein like Noah s generation could have some serious implications for our own Jerry Lesac is a cook by trade and a layman in the church Considered by many to have the gift of a prophet he comes to the bible with a unique perspective born not out of any formal education but rather taught by God In fact if there was one scripture that could possibly sum up this man s life it would have to be what St Paul said to young Timothy Do not neglect your gift which was given you through a prophetic message 1Tim 4 14 That and perhaps what St John said as well As for you the anointing you received from Him remains in you and you do not need anyone to teach you But as His anointing teaches you about all things and as that anointing is real not counterfeit just as it has taught you remain in Him 1 John 2 27 **The Christian Century** ,1923
