A History of the Modern Chinese Navy, 1840-2020 Bruce A. Elleman, 2021-05-09 This book provides a comprehensive history of the modern Chinese navy from 1840 to the present Beginning with a survey of naval developments in earlier imperial times the book goes on to show how China has since the mid 19th century four times built or rebuilt its navy after the Opium Wars a navy which was sunk or captured by the Japanese in the war of 1894 1895 during the 1920s and 1930s a navy again sunk or lost to Japan in the war of 1937 1945 in the 1950s a navy built with Soviet help which stagnated following the Sino Soviet split in the early 1960s and finally the present navy which absorbed its predecessor but with the most modern sections dating from the 1990s a navy which continues to grow and prosper The book also shows how the underlying strategic imperative for the Chinese navy has been the defense of China's coasts and major rivers how naval mutiny was a key factor in the overthrow of the Qing and the Nationalist regimes and how successive Chinese governments aware of the potent threat of naval mutiny have restricted the growth independence and capabilities of the navy Overall the book provides at a time when many people in the West view China and its navy as a threat a rich detailed and realistic assessment of the true nature of the Chinese navy and the contemporary factors that affect its development

The Columbia Guide to Modern Chinese History R. Keith Schoppa, 2000-08-05 China the world's oldest and most populous state remains an enigma to most people in the West even at a time when that country is playing an increasingly prominent role on the international stage At the heart of modern Chinese history have been the efforts of the Chinese people to transform their polity into a modern nation state the Confucian

orthodoxy into an ideology that can help direct that process and an agrarian economy into an industrial one These efforts are ongoing and of great importance This book is both an introduction to the major features of modern Chinese history and a resource for researchers interested in virtually any topic relating to the Chinese experience of the last 220 years This valuable reference contains a historical narrative providing a comprehensive overview of five core aspects of Chinese history domestic politics society the economy the world of culture and thought and relations with the outside world a compendium of 250 short descriptive articles on key figures events and terms a resource guide containing approximately 500 annotated entries for the most authoritative sources for further research in English as well as descriptions of important films depicting modern China and a guide to electronic resources and appendices including a chronology excerpts from key primary source documents and a wealth of tables and graphs on demographic social and economic trends

Arming the Chinese, Second Edition Anthony B. Chan, 2011-01-01 The existence of warlords and warlordism is not a post 9 11 phenomenon The international arms trade has a long history and includes the sale of foreign weapons to Chinese warlords after the First World War First published in 1982 this book remains the classic account of the arms trade in warlord China The second edition includes a new preface that reframes the argument within the paradigm of critical militarism and state criminality Arming the Chinese tells the story of the warlords who sought weapons for their expanding armies and of the merchants and governments in Europe Japan and the United States who provided them Although the warlords were hearty individualists who retained control over domestic affairs and rarely relied on single foreign suppliers the armaments trade Chan argues was a new form of imperialism which perpetrated the continued Western and Japanese domination of China

The Chinese Revolution in the 1920s Roland Felber, A.M. Grigoriev, Mechthild Leutner, M.L. Titarenko, 2013-10-11 Based mainly on Russian and Chinese archival sources that have become available only since the early 1990s the authors of this collection explore the main aspects of the Chinese Revolution in the crucial period of the 1920s such as the United Front policy the development of communism the Guomindang perspective institutional issues and social movements The various approaches and interpretative methods employed by the contributors from seven countries have resulted in a collection of articles representing four very different and until now almost independent discourses the European the American the Chinese and the Russian

Foreign Exchange Judith Liu, 2011-03-28 Foreign Exchange is the story of two women and their experiences at an American Episcopalian missionary school in Wuhan from 1929 1937 Yeh Yuanshuang was a student from a privileged Chinese family Dorothea Kingsley Wakeman was a short term teacher from a privileged American family Both would be transformed by their experiences at St Hilda's School for Girls whose walls served to protect the school from outside danger as well as to help create a space where new gender expectations could be nurtured hidden away from the gaze of prying eyes Examining St Hilda's through the experiences of these two women illuminates the liberating qualities of female education the power of personal narrative as an ethnographic historical research tool and how the stories of Yuanshuang and Dorothea are

embedded in the historical circumstances of their times The telling of their stories also reveals the impact of the modern world on their parents generation A History of East Asia Charles Holcombe,2017-01-11 The second edition of Charles Holcombe s acclaimed introduction to East Asian history from the dawn of history to the twenty first century **Chinese Revolution in Practice** Guo Wu,2023-10-24 This book employs multiple case studies to explore how the Chinese communist revolution began as an ideology oriented intellectual movement aimed at improving society before China s transformation into a state that suppresses dissenting voices by outsourcing its power of coercion and incarceration The author examines the movement s methods of early self organization grass roots level engagement creation of new modes of expression and popular art forms manipulation of collective memory and invention of innovative ways of mass incarceration Covering developments from 1920 to 1970 the book considers a wide range of Chinese individuals and groups from early Marxists to political prisoners in the PRC to illustrate a dynamic interactive process in which the state and individuals contend with each other It argues that revolutionary practices in modern China have created a regime that can be conceptualized as an ideology military propaganda state that prompts further reflection on the relationships between revolution and the state the state and collective articulation and memory and the state and reflective individuals in a global context Illustrating the continuity of the Chinese revolution and past decades socialist practices and mechanisms this study is an ideal resource for scholars of Chinese history politics and twentieth century revolutions **Clausewitz and African War** Isabelle Duyvesteyn,2004-09-30 This book shows that wars that have hitherto been mainly interpreted as driven by economic resource ethnic or clan interests such as the conflicts in Liberia and Somalia in the early 1990s do have an overriding political rationale which revalidates Carl von Clausewitz s nineteenth century understanding of war **Rebel Economies** Nicola Di Cosmo,Didier Fassin,Clémence Pinaud,2021-05-18 As a pervasive occurrence in the contemporary world wars and their economic sources are defining social and political processes in a variety of national and transnational contexts Rebel Economies Warlords Insurgents Humanitarians explores historical anthropological and political dimensions of war economies by non state actors across different periods and regions while presenting their multiple manifestations as a unified congruent phenomenon Through a variety of conceptual and disciplinary approaches the authors investigate in the past and present and across three continents the nexuses between economy war social transformation and state building revealing in the process differences and similarities that would otherwise remain hidden Through this broad gauge approach the book aims first to rethink much of the debate around non state war economies and secondly to expand the conversation by consciously treating this theme as a conspicuous and distinct aspect of both economy and war This is not just a different approach but a fundamental departure from the ways in which current discussions over the economy of wars civil conflicts and revolutions have informed research orientations over several decades *Warfare in China Since 1600* Kenneth Swope,2017-05-15 Warfare has shaped the modern history of China more than any other single factor This book brings together the best recent English language

A Military History of China David A. Graff, Robin Higham, 2012-04-13 Gaining an understanding of China's long and sometimes bloody history can help to shed light on China's ascent to global power Many of China's imperial dynasties were established as the result of battle from the chariot warfare of ancient times to the battles of the Guomindang KMT and Communist regimes of the twentieth century China's ability to sustain complex warfare on a very large scale was not emulated in other parts of the world until the Industrial Age despite the fact that the country is only now rising to economic dominance In *A Military History of China* Updated Edition David A Graff and Robin Higham bring together leading scholars to offer a basic introduction to the military history of China from the first millennium B C E to the present Focusing on recurring patterns of conflict rather than traditional campaign narratives this volume reaches farther back into China's military history than similar studies It also offers insightful comparisons between Chinese and Western approaches to

war This edition brings the volume up to date including discussions of the Chinese military's latest developments and the country's most recent foreign conflicts *China: A History* Harold Miles Tanner, 2009-03-13 A deep and rigorous yet eminently accessible introduction to the political, social, and cultural development of imperial Chinese civilisation, this volume develops a number of important themes such as the ethnic diversity of the early empires that other editions omit entirely or discuss only minimally. Includes a general introduction, chronology, bibliography, illustrations, maps, and an index.

Reimagining Chan Buddhism Jimmy Yu, 2021-11-14 This book is the first socio-intellectual history of the Dharma Drum Lineage of Chan Zen, a new lineage of Buddhism founded by the late Chinese Buddhist cleric Sheng Yen (1931-2009), arguably one of the most influential Chan masters in contemporary times. The book challenges the received academic and popular image of Chan Buddhism as a meditation school that bypasses scriptural learning. Using Sheng Yen's doctrinal classification, Chn panjiao chart as an example, the book shows Sheng Yen's Chan as a synthesis of both Indian and Chinese premodern forms of Buddhism and as the summum bonum of Han transmission of Chinese Buddhism. Chn Hanchuan fojiao. The book demonstrates how Sheng Yen's presentation of Chan was intimately related to the volatile social and political realities of his life: the Communist takeover of China and the subsequent industrial boom that impacted Taiwanese society. In short, this book presents a historically and culturally embodied approach to the formation of Buddhist doctrine and practice. Drawing on the works of postcolonial theories that integrate the role of the researcher into the research, the book also offers a more integrated approach between emic and etic insider and outsider perspectives to research. Advancing the field of Buddhist studies, the book will be of interest to scholars of Buddhism in the modern period, twentieth-century religious history of China and Taiwan, Chan Zen studies, World Religions, Asian civilizations, and Modern Biographies. **Learning to Rule** Daniel Barish, 2022-02-08 In the second half of the nineteenth century, local leaders around the Qing empire attempted to rebuild in the aftermath of domestic rebellion and imperialist aggression. At the same time, the enthronement of a series of children brought the question of reconstruction into the heart of the capital. Chinese scholars, Manchu and Mongolian officials, and writers in the press all competed to have their ideas included in the education of young rulers. Each group hoped to use the power of the emperor, both his functional role within the bureaucracy and his symbolic role as an exemplar for the people, to promote reform. Daniel Barish explores debates surrounding the education of the final three Qing emperors, showing how imperial curricula became proxy battles for divergent visions of how to restabilize the country. He sheds light on the efforts of rival figures who drew on China's dynastic history, Manchu traditions, and the statecraft tools of imperial powers as they sought to remake the state. Barish traces how court education reflected arguments over the introduction of Western learning, the fate of the Manchu Way, the place of women in society, notions of constitutionalism, and emergent conceptions of national identity. He emphasizes how changing ideas of education intersected with a push for a renewed imperial center and national unity, helping to create a model of rulership for postimperial regimes. Through the lens of the education of young emperors,
