**The Practice of Poetry** Robin Behn, Chase Twichell, 1992 A distinctive collection of more than 90 effective poetry writing exercises combined with corresponding essays to inspire writers of all levels      **The Practice of Poetry** Robin Behn, 2001

**The Practice of Poetry** Robin Skelton, 1971      **Practice of Poetry** Robin Behn, Chase Twichell, 2009-07-01 A distinctive collection of more than 90 effective poetry writing exercises combined with corresponding essays to inspire writers of all levels      **The Practice of Poetry** Robin Skelton, 1971      **The Practice of Rhetoric** Debra Hawhee, Vessela

Valiavitcharska, 2022-10-18 Rhetoric broadly conceived as the art of making things matter is both a practice and theory about that practice In recent decades scholars of rhetoric have turned to approaches that braid together poetics performance and philosophy into a practical art By practical art they mean methods tested in practice by trial and error with a goal of offering something useful and teachable This volume presents just such an account of rhetoric The account here does not turn away from theory but rather presumes and incorporates theoretical approaches offering a collection of principles assembled in the heat and trials of public practice The approaches ventured in this volume are inspired by the capacious conception of rhetoric put forth by historian of rhetoric Jeffrey Walker who is perhaps best known for stressing rhetoric's educational mission and its contributions to civic life The Practice of Rhetoric is organized into three sections designed to spotlight in turn the importance of poetics performance and philosophy in rhetorical practice The volume begins with poetics stressing the world making properties of that word in contexts ranging from mouse infested medieval fields to the threat of toxin ridden streams in the mid twentieth century Susan C Jarratt for instance probes the art of ekphrasis or vivid description and its capacity for rendering alternative futures Michele Kennerly explores a little studied linguistic predecessor to prose logos psilos or naked speech exposing the early rumblings of a separation between poetic and rhetorical texts even as it historicizes the idea of clothed or ornamented speech In an essay on the almost magical properties of writing Debra Hawhee considers the curious practice of people writing letters to animals in order to banish or punish them thereby casting the epistolary arts in a new light Part 2 moves to performance Vessela Valiavitcharska examines the intertwining of poetic rhythm and performance in Byzantine rhetorical education and how such practices underlie the very foundations of oratory Dale Martin Smith draws on the ancient stylistic theory of Dionysius of Halicarnassus along with the activist work of contemporary poets Amiri Baraka and Harmony Holiday to show how performance and persuasion unify rhetoric and poetics Most treatments of philosophy and rhetoric begin within a philosophical framework and remain there focusing on old tools like stasis and disputation Essays in part 3 break out of that mold by focusing on the utility and teachability of rhetorical principles in education Jeanne Fahnestock and Marie Secor update stasis a classical framework that encourages aspiring rhetors to ask after the nature of things their facts and their qualities as a way of locating an argument's position Mark Garrett Longaker probes the medieval practice of disputation in order to marshal a new argument about why exactly John

Locke detested rhetoric and the longstanding opposition between science and rhetoric as modes of proof that has lasting implications for the way argument works today Ranging across centuries and contexts the essays collected here demonstrate the continued need to attend carefully to the co operation of descriptive language and normative reality conceptual vocabulary and material practice public speech and moral self shaping The volume promises to rekindle long standing conversations about the public world making practice of rhetoric thereby enlivening anew its civic mission

Rawlinson,1968-11-01 Many people associate practical criticism with a short sighted brand of literary analysis which kills a student's interest in literature by drilling him to concentrate narrowly on verbal detail Handled properly however practical criticism can play a vital part in a literature course especially in the crucial stages in the last years at schools or first university year when many students are coming to literature seriously for the first time This 1968 book is a useful introduction to practical criticism for students It offers an impressive range of closely analysed passages and exercises in prose and verse Mr Rawlinson considers the problems of the beginner and discussed the mistakes and misconceptions that sometimes spoil practical criticism courses In his general discussion of topics such as rhythm tone and imagery the author is careful not to be too abstract throughout the book precept is reinforced by example theory by practice

Wordsworth, Dialogics and the Practice of Criticism Don H. Bialostosky, 1992-02-28

Wordsworth's poetry has been a focus for many of the theoretical schools of criticism that comprise modern literary studies Don Bialostosky here proposes to adjudicate the diverse claims of these numerous schools and to trace their implications for teaching Bialostosky draws on the work of Bakhtin and his followers to create a dialogic critical synthesis of what Wordsworth's readers from Coleridge to de Man have made of his poetry He reveals Wordsworth's poetry as itself dialogically responding to its various contexts and opens up fruitful possibilities for criticism and teaching of Wordsworth This challenging book uses the case of Wordsworth studies to make a far reaching survey of modern literary theory and its implications for the practice of criticism and teaching today
