The Prayers Of African Religion:

The Prayers of African Religion John S. Mbiti, 1975 *Prayer in the Religious Traditions of Africa* Aylward Shorter, 1975

African Religions & Philosophy John S. Mbiti, 1990 African Religions and Philosophy is a systematic study of the attitudes of mind and belief that have evolved in the many societies of Africa. In this second edition Dr Mbiti has updated his material to include the involvement of women in religion and the potential unity to be found in what was once thought to be a mass of quite separate religions. Mbiti adds a new dimension to the understanding of the history, thinking and life throughout the African continent. Religion is approached from an African point of view but is as accessible to readers who belong to non-African societies as it is to those who have grown up in African nations. Since its first publication this book has become acknowledged as the standard work in the field of study and it is essential reading for anyone concerned with African religion, history, philosophy, anthropology or general African studies.

The Prayers of African Religion John S. Mbiti, 1975

Theology and Identity Kwame Bediako, 2011-06-01 Kwame Bediako examines the question of Christian identity in the context of the Greco-Roman culture of the early Roman Empire. He then addresses the modern African predicament of quests for identity and integration. Theology and Identity was one of the finalists for the 1992 HarperCollins Religious Book Award.

Africa's Social and Religious Quest Randee Ijatuyi-Morphé, 2014-01-30 This well-crafted book probes the key dimensions of Africa's existential predicament. It constitutes an intellectual response to a gnawing African situation, the starting point for grasping Africa's social and religious quest. Beyond split explanations of external versus internal factors (e.g. colonization, slavery vs. leadership, cultural values), this study accounts more comprehensively for emergent issues shaping this situation. The situation reflects a gamut of problems in traditional African religion and material culture which hitherto defines African communality, politics and destinies vis-à-vis the cosmos and nature. Thus African religion and communities, each with its own attendant values, do not operate by critical engagement with larger issues of society and civilization, especially those shaped by the advent of post-modernity. Rather, they operate via adaptation. The communal drive for natural and social harmony inevitably produces a preservationist view of culture, leaving things as they are. This study takes an integrative approach to religion, society and civilization, eschews dichotomies and broadly defines and re-signifies life and wholeness as a true end of Africa's quest today.

RELIGIOUS SYNCRETISM IN AFRICAN CHRISTIANITY ISIAH OLUWAJEMIRIYE OLATOYAN, 2024-04-18 Christianity among the African people, whether on the soil of Africa or in diaspora, is perceived and defined differently by different people. For instance, among African traditional religious people and Muslims, Christianity is a foreign religion that must not be allowed to thrive in Africa. To several Africans who profess Jesus, Christianity is good, but it is not adequate and effective enough to handle all human needs. Still, among some Western Christians and missionaries, African Christianity is superficial and lacks total commitment to Christ. Of course, the Africans are a cultural people with profound religious inclinations. Their traditional religion (ATR) has tremendously shaped their worldviews and socioeconomic and

political activities Consequently when traditional Africans are converted to Christianity they do not break ties with their traditional religions completely The examination of relevant biblical texts on syncretism however reveals that God condemns the worship of many gods and places a curse on anyone who offers sacrifices to carved images and bows to them in worship Therefore this work investigates the root cause of religious syncretism among African people In the attempt to find answers to why the average African Christian finds it difficult if not impossible to abandon his her traditional religious belief systems completely to embrace Christianity the author concludes that unless the issues surrounding the African forgotten and secret covenants are exposed and decisively addressed in the light of biblical teaching syncretism will continue to be a stigma on the fabric of African Christianity Therefore to overcome the threats of syncretism in African Christianity there is a need to establish a sound theological and missiological framework that can address the problems associated with the African worldviews and belief systems This task must be carried out under the searchlight of Scriptures African Christian Theology, Volume 1, Number 2, September 2024 Joshua Robert Barron, 2024-12-20 African Christian Theology is the academic journal of the Association for Christian Theological Education in Africa ACTEA The mission of ACTEA is to strengthen theological education through accreditation scholarship and support services to serve the church and transform society The journal is one way in which ACTEA engages theological educators and church leaders in addressing relevant issues facing the church and society in Africa African Christian Theology serves the whole of Africa and provides a venue for conversations between different regions of Africa as well as an organ through which African voices can address World Christianity at large Following in the footsteps of Kwame Bediako Byang Kato K Mana Lamin Sanneh Andrew F Walls and Isaac Zokou the journal promotes World Christianity perspectives through deep engagement with African contextual realities Articles are published in English French and Portuguese each article has a trilingual abstract in those languages ACTEA was founded in 1976 by the Theological and Christian Education Commission of the Association of Evangelicals in Africa AEA Under its continued sponsorship ACTEA operates with internal autonomy in the accreditation of programmes of theological education throughout Africa in order to stimulate the improvement and standardization of such programmes and in order to secure academic recognition for such programmes wherever possible especially among the constituencies of these institutions in Africa and among similar institutions and their constituencies overseas African Religions Douglas Thomas, Temilola Alanamu, 2018-12-01 This book supplies fundamental information about the diverse religious beliefs of Africa explains central tenets of the African worldview and overviews various forms of African spiritual practices and experiences Africa is an ancient land with a significant presence in world history especially regarding the history of the United States given the ethnic origins of a substantial proportion of the nation's population This book presents a broad range of information about the diverse religious beliefs of Africa that serves to describe the beliefs practices deities sacred places and creation stories of African religions Readers will learn about key forms of spiritual practices and experiences such as

incantations and prayer dance as worship and spirit possession all of which pepper African American religious experiences today The entries also discuss central tenets of the African worldview for example the belief that humankind is not to fight nature but to integrate into the natural environment This volume is specifically written to be highly accessible to students It provides a much needed source of connections between the religious traditions and practices of African Americans and those of the people of the continent of Africa Through these connections this work will inspire tolerance of other religions traditions and backgrounds The included selection of primary documents provides users first hand accounts of African religious beliefs and practices serving to promote critical thinking skills and support Common Core State Standards
