The Pre Text Of Ethics On Derrida And Levinas:

The Pre-text of Ethics Diane Moira Duncan,2000 *Why Ethics?* Robert Gibbs,2012-01-06 Robert Gibbs presents here an ambitious new theory of ethics Drawing on a striking combination of intellectual traditions including Jewish thought continental philosophy and American pragmatism Gibbs argues that ethics is primarily concerned with responsibility and is not as philosophers have often assumed principally a matter of thinking about the right thing to do and acting in accordance with the abstract dictates of reason or will More specifically ethics is concerned with attending to others questions and bearing responsibility for what they do Gibbs builds this innovative case by exploring the implicit responsibilities in a broad range of human interactions paying especially close attention to the signs that people give and receive as they relate to each other Why Ethics starts by examining the simple actions of listening and speaking reading and writing and by focusing on the different responsibilities that each action entails The author discusses what he describes as the mutual responsibilities implicit in the actions of reasoning mediating and judging He assesses the relationships among ethics pragmatics and Jewish philosophy The book concludes by looking at the relation of memory and the immemorial emphasizing the need to respond for past actions by confessing seeking forgiveness and making reconciliations In format Gibbs adopts a Talmudic approach interweaving brief citations from primary texts with his commentary He draws these texts from diverse thinkers and sources including Levinas Derrida Habermas Rosenzweig Luhmann Peirce James Royce Benjamin Maimonides the Bible and the Talmud Ranging over philosophy literary theory social theory and historiography this is an ambitious and provocative work that holds profound lessons for how we think about ethics and how we seek to live responsibly **Deconstruction and the**

Ethical in Asian Thought Youru Wang,2007-03-06 The striking parallels between Derrida s deconstruction and certain strategies eschewing oppositional hierarchies in Asian thought especially in Buddhism and Daoism have attracted much attention from scholars of both Western and Asian philosophy This book contributes to this discussion by focusing on the ethical dimension and function of deconstruction in Asian thought Examining different traditions and schools of Asian thought including Indian Buddhism Zen other schools of East Asian Buddhism the Kyoto School and Daoism the contributors explore the central theme from different contexts and different angles Insights and notions from the contemporary discussion of Derridean deconstruction and its ethic or Derridean Levinasian ethic as a paradigm for comparison or interpretation are used as a framework Furthering our understanding of the relationship between deconstruction and the ethical in Asian traditions this book also enriches the contemporary ethical discourse from a global perspective by bridging Asia and the West

The Premodern Condition Bruce Holsinger,2005-12 Bruce Holsinger identifies and explains an affinity for medievalism and medieval studies among the leading figures of critical theory His book contains original essays by Bataille and Bourdieu translated into English that testify to the strange persistence of medievalisms in French postwar writings Essays on Levinas and Law Desmond Manderson,2009-01-15 Emmanuel Levinas was one of the great writers on ethics of the 20th

century Now for the first time this collection starts to think through exactly what challenges and problems are posed once we try to apply Levinas ideas about ethics to law Essays on Levinas and Law A Mosaic injects Levinas provocative thought right into the heart of living law radically changing our understanding of both It features a broad sweep of essays ranging from critical reflections on the connection between ethics and justice to specific discussions of the effect that Levinas ideas might have on our thinking about immigration or international law or political identity or justice For those interested in philosophy and ethics this book insists that our legal institutions are not a dirty little secret but a crucial realm in which to test our ideas For those interested in law this book insists that ethics is not a dirty little secret but a crucial realm by which to assess our structures and policies For all interested readers Essays on Levinas and Law does not intend to fulfill a need but to awaken one

Venturing Beyond - Law and Morality in Kabbalistic Mysticism Elliot R. Wolfson, 2006-05-25 Are mysticism and morality compatible or at odds with one another If mystical experience embraces a form of non dual consciousness then in such a state of mind the regulative dichotomy so basic to ethical discretion would seemingly be transcended and the very foundation for ethical decisions undermined Venturing Beyond Law and Morality in Kabbalistic Mysticism is an investigation of the relationship of the mystical and moral as it is expressed in the particular tradition of Jewish mysticism known as the Kabbalah The particular themes discussed include the denigration of the non Jew as the ontic other in kabbalistic anthropology and the eschatological crossing of that boundary anticipated in the institution of religious conversion the overcoming of the distinction between good and evil in the mystical experience of the underlying unity of all things divine suffering and the ideal of spiritual poverty as the foundation for transmoral ethics and hypernomian lawfulness

Technologies of Life and Death Kelly Oliver, 2013-06-05 The central aim of this book is to approach contemporary problems raised by technologies of life and death as ethical issues that call for a more nuanced approach than mainstream philosophy can provide To do so it draws on the recently published seminars of Jacques Derrida to analyze the extremes of birth and dying insofar as they are mediated by technologies of life and death With an eye to reproductive technologies it shows how a deconstructive approach can change the very terms of contemporary debates over technologies of life and death from cloning to surrogate motherhood to capital punishment particularly insofar as most current discussions assume some notion of a liberal individual The ethical stakes in these debates are never far from political concerns such as enfranchisement citizenship oppression racism sexism and the public policies that normalize them Technologies of Life and Death thus provides pointers for rethinking dominant philosophical and popular assumptions about nature and nurture chance and necessity masculine and feminine human and animal and what it means to be a mother or a father In part the book seeks to disarticulate a tension between ethics and politics that runs through these issues in order to suggest a more ethical politics by turning the force of sovereign violence back against itself In the end it proposes that deconstructive ethics with a psychoanalytic supplement can provide a corrective for moral codes and political clichés that turn us into mere

answering machines Indigeneity: Before and Beyond the Law Kathleen Birrell, 2016-07-01 Examining contested notions of indigeneity and the positioning of the Indigenous subject before and beyond the law this book focuses upon the animation of indigeneities within textual imaginaries both literary and juridical Engaging the philosophy of Jacques Derrida and Walter Benjamin as well as other continental philosophy and critical legal theory the book uniquely addresses the troubled juxtaposition of law and justice in the context of Indigenous legal claims and literary expressions discourses of rights and recognition postcolonialism and resistance in settler nation states and the mutually constitutive relation between law and literature Ultimately the book suggests no less than a literary revolution and the reassertion of Indigenous Law To date the oppressive specificity with which Indigenous peoples have been defined in international and domestic law has not been subject to the scrutiny undertaken in this book As an interdisciplinary engagement with a variety of scholarly approaches this book will appeal to a broad variety of legal and humanist scholars concerned with the intersections between Indigenous peoples and law including those engaged in critical legal studies and legal philosophy sociolegal studies human rights and native title law **Canadian Philosophical Reviews** ,2002 Deconstruction and Democracy Alex Thomson, 2007-12-15 No democracy without deconstruction Deconstruction and Democracy evaluates and substantiates Derrida's provocative claim assessing the importance of this influential and controversial contemporary philosopher's work for political thought Derrida addressed political questions more and more explicitly in his writing yet there is still confusion over the politics of deconstruction Alex Thomson argues for a fresh understanding of Derrida's work which acknowledges both the political dimension of deconstruction and its potential contribution to our thinking about politics The book provides cogent analysis and exegesis of Derrida's political writings explores the implications for political theory and practice of Derrida's work and brings Derrida's work into dialogue with other major strands of contemporary political thought Deconstruction and Democracy is the clearest and most detailed engagement available with the politics of deconstruction and is a major contribution to scholarship on the later works of Jacques Derrida most notably his Politics of Friendship **Ethics** John K. Roth, 2005 Encyclopedia of Violence, Peace, and Conflict ,2008-09-05 The 2nd edition of Encyclopedia of Violence Peace and Conflict provides timely and useful information about antagonism and reconciliation in all contexts of public and personal life Building on the highly regarded 1st edition 1999 and publishing at a time of seemingly inexorably increasing conflict and violent behaviour the world over the Encyclopedia is an essential reference for students and scholars working in the field of peace and conflict resolution studies and for those seeking to explore alternatives to violence and share visions and strategies for social justice and social change Covering topics as diverse as Arms Control Peace Movements Child Abuse Folklore Terrorism and Political Assassinations the Encyclopedia comprehensively addresses an extensive information area in 225 multi disciplinary cross referenced and authoritatively authored articles In his Preface to the 1st edition Editor in Chief Lester Kurtz wrote The problem of violence poses such a monumental challenge at the end of the 20th century that it is

surprising we have addressed it so inadequately We have not made much progress in learning how to cooperate with one another more effectively or how to conduct our conflicts more peacefully Instead we have increased the lethality of our combat through revolutions in weapons technology and military training The Encyclopedia of Violence Peace and Conflict is designed to help us to take stock of our knowledge concerning these crucial phenomena Ten years on the need for an authoritative and cross disciplinary approach to the great issues of violence and peace seems greater than ever More than 200 authoritative multidisciplinary articles in a 3 volume set Many brand new articles alongside revised and updated content from the First Edition Article outline and glossary of key terms at the beginning of each article Entries arranged alphabetically for easy access Articles written by more than 200 eminent contributors from around the world Postcolonial Asylum David Farrier, 2011-02-24 This book investigates how as postcolonial studies revises its agenda to incorporate twenty first century concerns asylum has emerged as a key field of enquiry A Covenant of Creatures Michael Fagenblat, 2010-06-03 I am not a particularly Jewish thinker said Emmanuel Levinas I am just a thinker This book argues against the idea affirmed by Levinas himself that Totality and Infinity and Otherwise Than Being separate philosophy from Judaism By reading Levinas's philosophical works through the prism of Judaic texts and ideas Michael Fagenblat argues that what Levinas called ethics is as much a hermeneutical product wrought from the Judaic heritage as a series of phenomenological observations Decoding the Levinas's philosophy of Judaism within a Heideggerian and Pauline framework Fagenblat uses biblical rabbinic and Maimonidean texts to provide sustained interpretations of the philosopher's work Ultimately he calls for a reconsideration of the relation between tradition and philosophy and of the meaning of faith after the death of epistemology **Theory for Classics** Louise Hitchcock, 2008-01-10 Theory for Classics provides a concise and clear introduction to the work of major contemporary theorists of the past century and how they can be applied to Classical studies today *Proceed with Caution, when Engaged by Minority Writing in the Americas* Doris Sommer, 1999 Let the reader beware Educated readers naturally feel entitled to know what they're reading often if they try hard enough to know it with the conspiratorial intimacy of a potential partner This book reminds us that cultural differences may in fact make us targets of a text not its co conspirators Some literature especially culturally particular or minority literature actually uses its differences and distances to redirect our desire for intimacy toward more cautious respectful engagements To name these figures of cultural discontinuity to describe a rhetoric of particularism in the Americas is the purpose of *Proceed with Caution* In a series of daring forays from seventeenth century Inca Garcilaso de la Vega to Julio Cortázar and Mario Vargas Llosa Doris Sommer shows how ethnically marked texts use enticing and frustrating language games to keep readers engaged with difference Gloria Estefan's syncopated appeal to solidarity plays on Whitman's undifferentiated ideal unrequitable seductions echo through Rigoberta Menchú's protestations of secrecy Toni Morrison's interrupted confession the rebuffs in a Mexican testimonial novel In these and other examples Sommer trains us to notice the signs that affirm a respectful distance as a

condition of political fairness and aesthetic effect warnings that will be audible and engaging for readings that tolerate difference once we listen for a rhetoric of particularism

Radical Theology Jeffrey W. Robbins, 2016-08-08 Radical theology and political theology are terms that have gained a lot of currency among philosophers of religion today In this visionary new book Jeffrey W Robbins explores the contemporary direction of these movements as he charts a course for their future Robbins claims that radical theology is no longer bound by earlier thinking about God and that it must be conceived of as postsecular and postliberal As he engages with themes of liberation gender and race Robbins moves beyond the usual canon of death of God thinkers thinking against them as much as with them He presents revolutionary thinking in the face of changing theological concepts from reformation to transformation transcendence to immanence messianism to metamorphosis and from the proclamation of the death of God to the notion of God's plasticity

Thinking the Impossible Gary Gutting, 2013-03-07 Gary Gutting tells the story of the remarkable flourishing of philosophy in France in the last four decades of the 20th century He examines what it was to do philosophy what this achieved and how it differs from the Anglophone tradition His key theme is that French philosophy in this period was mostly concerned with thinking the impossible

Engaging Scripture Stephen E. Fowl, 2008-10-14 Some books give new answers to old questions Here is the book that changes the questions themselves We are therefore extremely fortunate to have Fowl's *Engaging Scripture* for this is a book that challenges the presumptions that created the problem of the New Testament and its relationship to theology Fowl's reading of Ephesians on stealing is worth the price of the book in itself One cannot help but think this book will stand out as the mark of a new beginning Stanley Hauerwas Gilbert T Rowe Professor of Theological Ethics Duke University North Carolina The Original Essay will be of interest to all those concerned with the interrelationships between theological and the Bible It may be used as a complement to Fowl's collection of classic and contemporary readings *The Theological Interpretation of Scripture* Blackwell Publishers 1997 *Engaging Scripture* Proposes that Christians must read scripture theologically redressing the recent domination of professional scholarship in this area by historical criticism Drawing on the best interpretive traditions of the past Fowl develops argues for and displays a new model for the theological interpretation of scripture This interpretive framework should enable Christians and particularly Christian theologians to interpret scripture in a way that helps them to live and worship faithfully Theological and theoretical questions are illustrated by reference to particular Christian convictions practices and concerns in the US and Britain and by engaging scriptural passages These serve as examples of the sort of interpretation Fowl is advocating In summary the book looks towards bridging the chasm that arose between biblical studies and theological study following the rise of modernity
