The Presence Of The Word:

The Presence of the Word Walter J. Ong, 1967-01-01 This provocative exploration of the nature and history of the word in some of its social psychological literary phenomenological and religious dimensions argues that the word is initially aural and in the last analysis always remains sound it cannot be reduced to any other category Father Ong contends that sound is essentially an event manifesting power and personal presence and his descriptive analysis of the development of the media of verbal expression from their oral sources through the laborious transfer to the visual world and then to contemporary means of electronic communication shows that the predicament of the human word is the predicament of man himself Examining the close alliance of the spoken word with the sense of the sacred particularly in the Hebreo Christian tradition he reveals that in a world where presence has penetrated time and space as never before modern man must find the God who has given himself in the Word which brings man more into the world of sound than of sight *The Presence of the Word* Walter Jackson Ong, 1967 *The Presence of the Word* Walter Jackson Ong, 1981 The Presence of the Word Walter J. Ong, 2000 The deed of gift declares that the object of this foundation is not the promotion of scientific investigation and discovery but rather the assimilation and interpretation of that which has been or shall be hereafter discovered and its application to human welfare especially by the building of the truths of science and philosophy into the structure of a broadened and purified religion The founder believes that such a religion will greatly stimulate intelligent effort for the improvement of human conditions and the advancement of the race in strength and excellence of character To this end it is desired that a series of lectures given by men eminent in their respective departments on ethics the history of civilization and religion biblical research all sciences and branches of knowledge which have an important bearing on the subject all the great laws of nature especially of evolution also such interpretations of literature and sociology as are in accord with the spirit of this foundation to the end that the Christian spirit may be nurtured in the fullest light of the world s knowledge and that mankind may be helped to attain its highest possible welfare and happiness upon this earth The present work constitutes the thirty fourth volume published on this foundation **The Presence of the Word** Walter J. Ong, 1967 **Reading the Word of God in the Presence of God** Vern S.
