The Press and America Michael C. Emery, Edwin Emery, Nancy L. Roberts, 1996 Textbook on mass media **The Press and America** Edwin Emery, 1972 The Press and America Michael C. Emery, Edwin Emery, 1992 *The Press and America* Michael C. Emery, Edwin Emery, Nancy L. Roberts, 1996 *The Press and America* Nancy L. Roberts, 1996 **The Black Press** Todd Vogel, 2001 The Black Press progresses chronologically from abolitionist newspapers to today's Internet and reveals how the black press's content and its very form changed with evolving historical conditions in America **The Press as Public Educator** Colin Lacey, David Longman, 1997 Looking at media education and the environment this book argues that it is essential to examine their connections and the adequacy of these relationships for the future The focus is on the educational function of the press and the problem that forms a context for this focus is the environment **The Press** Geneva Overholser, Kathleen Hall Jamieson, 2005-05-26 With the guidance of editors Geneva Overholser and Kathleen Hall Jamieson this superb collection of essays written by the nation's leading authorities on journalism illuminates the role of the press in a democracy investigating alternative models used throughout world history to better understand how the American press has evolved into what it is today The book also examines the history identity roles and future of the American press with an emphasis on topics of concern to both practitioners and consumers of American media The Press in Times of Crisis Lloyd E. Chiasson, 1995-09-30 Throughout American history the press has been incredibly adept at making the public aware The history of the press in crisis situations is in many ways the story of public attitudes and the story of America This book looks at the press over time and the way it has functioned in times of crisis It considers press coverage of 13 events spanning a time frame that includes the birth of the nation its political economic and social struggles as a young country and its civil war It tells how a young agrarian society grew into an industrial giant and how it changed from isolationist to a world power It relates how this country coped with the growth of socialism two world wars civil unrest and with the problem of world overpopulation The American press has performed various functions throughout the years The Colonial Press served as a vehicle of discussion debate and finally agitation and in the process may have defined itself and laid a groundwork for the press's future roles The press has agitated advocated and persuaded It has been duped it has been unfair and it has misled This volume considers such concepts as advocacy journalism a central theme of the chapters on abolitionists and David Duke and social responsibility a primary part of the chapter on Japanese American internment The press's attempt to lead public opinion is the focus of the chapters on the partisan press the antebellum period and the first Red Scare in 1919 The chapter on Joseph McCarthy looks at the concepts of objectivity and the use and misuse of pseudo news The final chapter on overpopulation deals extensively with agenda setting The Presidents vs. the Press Harold Holzer, 2020-08-25 An award winning presidential historian offers an authoritative account of American presidents' attacks on our freedom of the press The FAKE NEWS media Donald Trump has tweeted is not my enemy it is the enemy of the American People Has our free press

ever faced as great a threat Perhaps not but the tension between presidents and journalists is as old as the republic itself Every president has been convinced of his own honesty and transparency every reporter who has covered the White House beat has believed with equal fervency that his or her journalistic rigor protects the country from danger Our first president George Washington was also the first to grouse about his treatment in the newspapers although he kept his complaints private Subsequent chiefs like John Adams Abraham Lincoln Woodrow Wilson and Barack Obama were not so reticent going so far as to wield executive power to overturn press freedoms and even to prosecute journalists Theodore Roosevelt was the first president to actively manage the stable of reporters who followed him doling out information steering coverage and squashing stories that interfered with his agenda It was a strategy that galvanized TR s public support but the lesson was lost on Woodrow Wilson who never accepted reporters into his inner circle Franklin Roosevelt transformed media relations forever holding more than a thousand presidential press conferences and harnessing the new power of radio at times bypassing the press altogether John F Kennedy excelled on television and charmed reporters to hide his personal life while Richard Nixon was the first to cast the press as a public enemy From the days of newsprint and pamphlets to the rise of Facebook and Twitter each president has harnessed the media whether intentional or not to imprint his own character on the office In this remarkable new history acclaimed scholar Harold Holzer examines the dual rise of the American presidency and the media that shaped it From Washington to Trump he chronicles the disputes and distrust between these core institutions that define the United States of America revealing that the essence of their confrontation is built into the fabric of the nation

The Media's Role in Defining the Nation David A. Copeland, David Copeland, 2010 In 1897 William Randolph Hearst said that his newspaper did not simply cover events that had already happened It doesn t wait for things to turn up Hearst said It turns them up This book traces the close relationship between media and the United States development from the colonial period to the twenty first century It explores how the active voice of citizen journalists and trained media professionals has turned to media to direct the moral compass of the people and to set the agenda for a nation and discusses how changes in technology have altered the way in which participatory journalism is practiced What makes the book powerful is that its assessment of the influence and use of media encompasses many levels it explores the potential of media as an agent for change from within small communities to the national stage [The American Press and the Cold War](#) Oliver Elliott, 2018-04-20 During the Cold War the United States enabled the rise of President Syngman Rhee s repressive government in South Korea and yet neither the American occupation nor Rhee s growing authoritarianism ever became particularly controversial news stories in the United States Could the press have done more to scrutinize American actions in Korea Did journalists fail to act as an adequate check on American power In the first archive based account of how American journalism responded to one of the most significant stories in the history of American foreign relations Oliver Elliott shows how a group of foreign correspondents battling U S military authorities and pro Rhee lobbyists brought the issue of South

Korean authoritarianism into the American political mainstream on the eve of the Korean War However when war came in June 1950 the press rapidly abandoned its scrutiny of South Korean democracy marking a crucial moment of transition from the era of postwar idealism to the Cold War norm of American support for authoritarian allies **Inez** Linda J.

Lumsden,2004-07-08 Inez Milholland was the most glamorous suffragist of the 1910s and a fearless crusader for women s rights Moving in radical circles she agitated for social change in the prewar years and she epitomized the independent New Woman of the time Her death at age 30 while stumping for suffrage in California in 1916 made her the sole martyr of the American suffrage movement Her death helped inspire two years of militant protests by the National Woman s Party including the picketing of the White House which led in 1920 to ratification of the 19th Amendment granting women the right to vote Lumsden s study of this colorful and influential figure restores to history an important link between the homebound women of the 19th century and the iconoclastic feminists of the 1970s Hidden in the Shadow of Truth Reginald E.

Hicks,2010-05 Hidden in the Shadow of Truth was written by Reginald E Hicks neither to absolve nor to indict black males for their current social condition It was written rather to provide a comprehensive and accurate explanation as to why so many black males seem to be led by the nose toward the prison doors Why is it that black juveniles consistently outpace their white Hispanic and Asian counterparts by a margin of more than 2 to 1 in the commission of murders aggravated assaults weapons law violations forcible rapes robberies and motor vehicle thefts Why is it that blacks account for only 13 percent of the total U S population but a full 41 percent of the incarcerated Hicks explains that the mentality of many black youth is a product of a very unique socialization process wherein the family the school system the peer group and the mass media have collectively failed in their responsibilities making black boys more prone to choosing the path of incarceration or enslavement through criminality In this exceptional work Reginald E Hicks presents the truth the whole truth and nothing but the truth letting the chips fall where they may Encyclopedia of American Journalism Stephen L. Vaughn,2007-12-11 The

Radio Journalism in America Jim Cox,2013-04-29 This history of radio news reporting recounts and assesses the contributions of radio toward keeping America informed since the 1920s It identifies distinct periods and milestones in

broadcast journalism and includes a biographical dictionary of important figures who brought news to the airwaves. Americans were dependent on radio for cheap entertainment during the Great Depression and for critical information during the Second World War when no other medium could approach its speed and accessibility. Radio's diminished influence in the age of television beginning in the 1950s is studied as the aural medium shifted from being at the core of many families' activities to more specialized applications reaching narrowly defined listener bases. Many people turned elsewhere for the news. And now even TV is challenged by yet newer media. The introduction of technological marvels throughout the past hundred years has significantly altered what Americans hear and how, when, and where they hear it. *The Idea of a Free Press* David A. Copeland, 2006-07-21. Spanning nearly four centuries in Britain and America, Copeland's book reveals how the tension between government control and the right to debate public affairs openly ultimately led to the idea of a free press.

Crying the News Vincent DiGirolamo, 2019. *Crying the News: A History of America's Newsboys* is the first book to place newsboys at the center of American history, analyzing their inseparable role as economic actors and cultural symbols in the creation of print capitalism, popular democracy, and national character. DiGirolamo's sweeping narrative traces the shifting fortunes of these little merchants over a century of war and peace, prosperity and depression, exploitation and reform, chronicling their exploits in every region of the country as well as on the railroads that linked them. Hedged Margot Susca, 2024-01-23. The untold history of an American catastrophe: The ultrawealthy largely own and guide the newspaper system in the United States. Through entities like hedge funds and private equity firms, this investor class continues to dismantle the one institution meant to give voice to average citizens in a democracy. Margot Susca reveals the little-known history of how private investment took over the newspaper industry. Drawing on a political economy of media, Susca's analysis uses in-depth interviews and documentary evidence to examine issues surrounding ownership and power. Susca also traces the scorched earth policies of layoffs, debt, cash outs, and wholesale newspaper closings left behind by private investors and the effects of the devastation on the future of news and information. Throughout, Susca reveals an industry rocked less by external forces like lost ad revenue and more by ownership and management obsessed with profit and beholden to private fund interests that feel no responsibility toward journalism or the public it is meant to serve. Building a Housewife's Paradise Tracey Deutsch, 2010. An examination of the history of food distribution in the United States explores the roles that gender, business class, and the state played in the evolution of American grocery stores.
