Rossow, Linda Sue Warner, 2000 In this book Rossow and Warner incorporate the best of all the advances in the theories and developments in the field on study devoted to the principals'hip since 1990 Although the titles to the eleven chapters remain the same as those found in the first edition much has changed Since many areas addressed in the first edition are nearly timeless some topics are presented again One of the basic premises in the first edition came from a clear change in the direction the principals'hip was taking in the late 1980s and early 1990s There was a movement away from principal as manager of people and a building to principal as instructional leader Unlike a number of movements in education which turn out to be merely fads there has been no change in this direction for principals'hip The literature and the

training for future principals continues to capture the concept that principals must be instructional leaders while attending to the safety of students and teachers This book will assist those responsible for the education of principals as well as help those already in the field become updated on the newest advances in the discipline      **Principalship from A to Z, The (Study Guide)** Ronald Williamson, Barbara Blackburn, 2014-01-09 Written to accompany the strategies presented in The Principalship from A Z the activities in this book will help you apply the leadership concepts of Blackburn and Williamson to your own experiences as principal Here the authors guide you through the process of turning each idea into an actionable plan for your school allowing you to take productive next steps immediately The activities in this guide prompt you to ACT Assess where you are right now Identify your school s strengths and challenges Consider trying something new step out of your comfort zone and visualize yourself implementing a better plan and Take away a valuable idea Put your strategy into practice as soon as today      *The Principalship* Thomas J.
