The Principle Of Changes Understanding The I Ching:

The Principle of Changes: Understanding the I Ching Jung Young Lee, 1971 **I Ching** Edward A. Hacker, Steve Moore, Lorraine Patsco, 2002 This volume is a comprehensive collection of critical essays on *The Taming of the Shrew* and includes extensive discussions of the play's various printed versions and its theatrical productions. Aspinall has included only those essays that offer the most influential and controversial arguments surrounding the play. The issues discussed include gender, authority, female autonomy, and unruliness; courtship and marriage; language and speech; and performance and theatricality.

Journeys at the Margin Jung Young Lee, 1999 Being an immigrant is both being in between two cultures that of the immigrant and that of the dominant group and being in both of these cultures. It ultimately means being in beyond the two cultures together. In this book a group of prominent Asian American Christian theologians reflect in an autobiographical form on how being an Asian and a North American has shaped the way they understand the Christian story. As the United States becomes increasingly multiethnic and multicultural, this book offers useful suggestions on how to meet the challenge of cultural diversity in both Church and society.

The Primary Way Chung-ying Cheng, 2020-09-01 In *The Primary Way*, the distinguished scholar of Chinese philosophy, Chung-ying Cheng synthesizes his lifetime of work on the *Yijing* (also known as the *I Ching* or *Book of Changes*). Cheng offers a systematic engagement with the classic Chinese text as a philosophy that is still valuable and relevant today. In contemporary philosophical terms, Cheng has developed the ontological hermeneutics of the *Yijing* as well as its philosophical methodology of symbolic reference in a holistic and onto-generative system of trigrams and hexagrams. The book is organized around eight themes that illuminate Cheng's interpretation of the *Yijing* as a philosophy for creative human action and transformation. He demonstrates how the philosophy of change in the *Yijing* embodies early Chinese ontology, cosmology, epistemology, and virtue ethics in the interpretation of divinatory judgments. Cheng's work shows how the philosophy of change contains a vision of humanity as creatively related to heaven and earth and how it gives positive meaning to any change as part of a ceaseless creativity. With this understanding, it enables humanity to develop its potential as a partner of heaven and earth.

The Trinity Veli-Matti Kärkkäinen, 2007-01-01 Unique for its breadth in studying theologians not only from Europe and North America but also from Latin America, Asia, and Africa, this landmark volume introduces the doctrine of the Trinity, examining the work and thought of contemporary theologians throughout the world. Veli-Matti Kärkkäinen provides an overview of the biblical roots of the doctrine, discussing both the idea of plurality in God in the Old Testament and the rise of Trinitarian understandings in the New Testament. He details the historical growth of Trinitarian traditions and delves into specific theologies, both Western and non-Western. Also including both an introductory consideration of the doctrine's significance and a concluding assessment and agenda for future thought, Kärkkäinen's *The Trinity* is the broadest and most comprehensive contemporary study on the Trinity available.

Lee, 2012-12-06 Dietrich Bonhoeffer writing in his cell in a Nazi prison expressed a most remarkable idea Men go to God in His need This is the insight he observed which distinguishes the Christian faith from all other religions It is a universal belief that God or the gods should come to help man in his mortal human need But this is not the God and Father of Jesus Christ Even as Jesus in Gethsemane chided his disciples for their sloth in not keeping watch with him during his agony so God the Father must look to His creatures for their faith and sympathy Therein lies the basis for the Christian answer to man kind's perennial complaint Why do men suffer Not all theologians believing Christians or believers in a personal God can share this idea Traditionally the Eastern Orthodox thinkers have adhered to the rule of apophatic theology that is there are boundaries of knowledge about God which the human mind even when enlightened by revelation cannot cross So who can say that God the Eternal One is susceptible to what we call suffering It is better to hold one's silence on so deep a mystery Still others are loathe to acknowledge God's passibility for varying reasons God is ultimate and perfect therefore he cannot know suffering or other emotions God is impersonal therefore it is meaningless to ascribe personal anthropopathic feelings to Him Many angels may fear to tread on
