Reclaiming the Farrier's Soul Takes In Depth Look at Ancient Art of Farriery Highlighting Changes Necessary to Improve Performance and Horse Welfare Life long rider and horse owner Alvin Blench seeks to bring craft of farriery in line with current horseshoeing needs essential for modern day breeds of horses Reclaiming the Farrier's Soul is aimed at horse lovers everywhere as well as those interested in horse welfare It provides the equestrian community with key lessons to build their knowledge about shoeing enabling them to communicate better and more productively with their farrier The book provides valuable lessons with over 85 color photographs and key principles which provide guidelines to raising horseshoeing standards Farriery is one of the world's oldest crafts It has acquired a special mystique down through the centuries but this ancient history also increases resistance to change Parts of the farriery process now need a modern perspective This has become more evident especially since WWII now that working horses for farm and transport have been replaced by pleasure riding sport horses which have totally different hooves and shoeing requirements As a result some farriery techniques are outdated but there are also a number of key areas where shoeing improvements need to be made not just for aesthetic reasons but to improve a horse's performance capability and comfort One example is hot shoeing which can have a profoundly negative effect on the horse's welfare if shoes that are too hot are held on for too long on sensitive hooves There are other potential problem areas such as incorrect hoof angles poor trimming and nailing which can lead to lameness and discomfort While these issues are a fundamental part of the farrier's job they also need to be better understood by horse owners so they can improve their dialogue with them to get a better shoeing standard This serves a dual purpose of getting improved welfare and also superior performance from their horses The book is a must for horse lovers

Well-shod Don Baskins, Randy Witte, 1997 An illustrated guide to horseshoeing that discusses horse handling tools basic trimming and shoeing the forge corrective shoeing shoeing standards and the farrier client relationship
