**The Problem of Evil** Michael L. Peterson, 2016-11-15 Of all the issues in the philosophy of religion the problem of reconciling belief in God with evil in the world arguably commands more attention than any other For over two decades Michael L Peterson s *The Problem of Evil Selected Readings* has been the most widely recognized and used anthology on the subject Peterson s expanded and updated second edition retains the key features of the original and presents the main positions and strategies in the latest philosophical literature on the subject It will remain the most complete introduction to the subject as well as a resource for advanced study Peterson organizes his selection of classical and contemporary sources into four parts important statements addressing the problem of evil from great literature and classical philosophy debates based on the logical evidential and existential versions of the problem major attempts to square God s justice with the presence of evil such as Augustinian Irenaean process openness and felix culpa theodicies and debates on the problem of evil covering such concepts as a best possible world natural evil and natural laws gratuitous evil the skeptical theist defense and the bearing of biological evolution on the problem The second edition includes classical excerpts from the book of Job Voltaire Dostoevsky Augustine Aquinas Leibniz and Hume and twenty five essays that have shaped the contemporary discussion by J L Mackie Alvin Plantinga William Rowe Marilyn Adams John Hick William Hasker Paul Draper Michael Bergmann Eleonore Stump Peter van Inwagen and numerous others Whether a professional philosopher student or interested layperson the reader will be able to work through a number of issues related to how evil in the world affects belief in God

*The Drama of Job* Stephen Finlan, 2025-03-20 *The Drama of Job* dives into the vigorous theological debate about the problem of suffering and the requirements of faith in the book of Job Several intriguing responses or answers are voiced by the characters but none is fully satisfying The value and the inadequacy of each answer are examined The emphasis is upon Job s and Elihu s attempts to get at the truth Elihu stresses God s mercy speaking of God s varied and energetic attempts to rescue people The appendix provides a daring stageplay highlighting the significance of Elihu

*The Wonder of the Cross* Richard A. Shenk, 2013-05-08 When considering and confronting the problem of evil we may be asking the wrong question Why is there evil in the world if God is good and powerful It may be wrong because it smuggles in an unbiblical premise God can and should use his coercive power to relieve suffering since he is both good and able But what if coercive power does not work to accomplish God s goals This book is an investigation into the possibility that the noncoercive power of the Cross must be at the center of this issue and that the Cross could reform this question We could ask instead How is God destroying evil and suffering and why is he taking so long The answer to this reframed question might be He is using evil and suffering to destroy evil and suffering for His People this is how long it takes While not a solution to the problem of evil could this help us learn to delight in God in a world in which evil and suffering seem at times so relentless

**Middle Knowledge** John D. Laing, 2019-03-21 Most Christians believe God is in control but they are unsure of how to reconcile that

control with their struggles with sin the command to evangelize and the immense suffering in the world and their own lives Laing offers an introduction to the doctrine of providence based on the theory of middle knowledge first articulated in the sixteenth century This view describes how creatures have true free will and God has perfect knowledge of what each creature could and would do in any circumstance Middle knowledge helps answer the most perplexing theological questions predestination and salvation the existence of evil divine and human authorship of Scripture and science and the Christian faith Laing provides extensive biblical support as well as practical applications for this theology

*Braided Selves* Pamela Cooper-White, 2011-06-10 What if we are more multiple as persons than traditional psychology has taught us to believe And what if our multiplicity is a part of how we are made in the very image of a loving relational multiple God How have modern Western notions of Oneness caused harm to both individuals and society And how can an appreciation of our multiplicity help liberate the voices of those who live at the margins both of society and within our own complex selves *Braided Selves* explores these questions from the perspectives of postmodern pastoral psychology and Trinitarian theology with implications for the practice of spiritual care counseling and psychotherapy This volume gathers ten years of essays on this theme by preeminent pastoral theologian Pamela Cooper White whose writings bring into dialogue postmodern feminist and psychoanalytic theory and constructive theology

*Basic Issues in Medieval Philosophy - Second Edition* Richard N. Bosley, Martin M. Tweedale, 2006-05-09 In this important collection the editors argue that medieval philosophy is best studied as an interactive discussion between thinkers working on very much the same problems despite being often widely separated in time or place Each section opens with at least one selection from a classical philosopher and there are many points at which the readings chosen refer to other works that the reader will also find in this collection There is a considerable amount of material from central figures such as Augustine Abelard Duns Scotus and William of Ockham as well as extensive texts from thinkers in the medieval Islamic world Each selection is prefaced by a brief introduction by the editors providing a philosophical and religious background to help make the material more accessible to the reader This edition updated throughout contains a substantial new chapter on medieval psychology and philosophy of mind with texts from authors not previously represented such as John Buridan and Peter John Olivi
