Good Old Days My Ass David A. Fryxell,2012-10-04 Welcome to the Not So Glorious Days With the uncertain economy lingering wars and the ever present threats of everything from bird flu to Bieber Fever it s tempting to long for the good old days But just how good were they Buckle up for a bumpy ride down memory lane and try not to get trampled as these 665 funny history facts and terrifying truths reveal the unfortunate reality of life during the eighteenth nineteenth and early twentieth centuries From patents that should still be pending to hairdos that attract vermin these horrors will leave you thankful you didn t have to struggle to live through them Brace yourself as the truth hits you like an ice cold Victorian era shower with enough pressure to knock you unconscious Get ready to shudder with laughter or horror at these funny moments in history that are not to be forgotten

Dirty Words Hannah Bradby,2013-11-05 Did dinosaurs contribute to global warming What is rubbish theory and what indeed is rubbish And how did the whale become a cuddly toy And why did we decide to saturate our land and food with pesticides Dirty Words examines all of these questions and also includes a study of pollution in fiction from the fogs of Dickens to the smog of Chandler advice on how to be an environmental troublemaker and a suggestion of our choice of futures the world as an icebox or a greenhouse This entertaining and provocative collection of pieces by a group of environmental experts challenges the reader to take a closer look at the current pollution debate Originally published in 1991

Crime Control As Industry Nils Christie,2016-10-04 Crime Control As Industry translated into many languages is a modern classic of criminology and sociology Nils Christie one of the leading criminologists of his era argues that crime control rather than crime itself is the real danger for our future Prison populations especially in Russia and America have grown at an increasingly rapid rate and show no signs of slowing Christie argues that this vast and growing population is the equivalent of a modern gulag run by a rapacious industry both public and private with vested interests in incarceration Pain and confinement are products like any other with a potentially limitless supply of

resources Widely hailed as a classic account of crime and restorative justice Crime Control As Industry s prophetic insights and proposed solutions are essential reading for anyone interested in crime and the global penal system This Routledge Classics edition includes a new foreword by David Garland **The Better Angels of Our Nature** Steven Pinker,2012-09-25 Faced with the ceaseless stream of news about war crime and terrorism one could easily think this is the most violent age ever seen Yet as bestselling author Pinker shows in this startling and engaging new work just the opposite is true
