Border States in the Work of Tom Mac Intyre Catriona Ryan, 2012-01-17 This work analyses the prose and drama of the Irish writer Tom Mac Intyre and the concept of postmodernism It examines how Mac Intyre balances traditional themes with experimentation which in the Irish literary canon is unusual This book argues that Mac Intyre's position in the Irish literary canon is an idiosyncratic one in that he combines two contrary aspects of Irish literature between what Beckett terms as the Yeatsian antiquarians who valorize the

Victorian Gael and the others whose aesthetic involves a European influenced breakdown of the object which is associated with Beckett Mac Intyre's experimentation involves a breakdown of the object in order to uncover an unconscious Irish mythological and linguistic space in language His approach to language experimentation is Yeatsian and this is what the author terms as paleo postmodern Thus the project considers how Mac Intyre incorporates Yeatsian revivalism with postmodern deconstruction in his drama and short stories

Perspectives on Contemporary Irish Theatre Anne Etienne, Thierry Dubost, 2017-10-20 This book addresses the notion posed by Thomas Kilroy in his definition of a playwright's creative process We write plays I feel in order to populate the stage It gathers eclectic reflections on contemporary Irish theatre from both Irish theatre practitioners and international academics The eighteen contributions offer innovative perspectives on Irish theatre since the early 1990s up to the present testifying to the development of themes explored by emerging and established playwrights as well as to the revolutions in practices and approaches to the stage that have taken place in the last thirty years This cross disciplinary collection devotes as much attention to contextual questions and approaches to the stage in practice as it does to the play text in its traditional and revised forms The essays and interviews encourage dialectic exchange between analytical studies on contemporary Irish theatre and contributions by theatre practitioners

Breaking Forms Christie Fox, 2009-03-26 Ireland in the 1990s experienced fast immediate and radical social change Dubbed the Celtic Tiger the Irish economy provided for changes in the arts landscape as well particularly as an outlet for the expression of this change A profound shift in Irish drama expressed as an attempt to redefine what a play is what an audience is regardless of the theme of the work allowed for a replication of this societal change in the theatre Theatre artists collaborating to bring physicality to the Irish stage sought to explore express and reflect a part of society that they felt could not be represented naturalistically They rejected nostalgia and indeed often mocked it The newly emerging Irish theatre deprivileged the author and moved away from the literary tradition to incorporate performance techniques and movement on an equal basis to the written text These productions emphasized the visual because artists found that words alone could not express the inchoate emotions brought on by globalization and cultural shifts Breaking Forms is an attempt to provide a vocabulary for talking about Irish performance and an incursion in the understanding and definition of the idea of Irish gesture The manuscript profiles several theatre companies to find common ground and provide an analysis of their performances theatre and texts
