THIS IS A GREEK POINT  
EVENT!

# The Greek Point Of View

**Claude Bissell**

## **The Greek Point Of View:**

**The Greek Point of View** Maurice Hutton, 1925

**If Sons, Then Heirs** Caroline Johnson Hodge, 2007-07-13

Christianity is widely understood to be a universal religion that transcends the particularities of history and culture including differences related to kinship and ethnicity In traditional Pauline scholarship this portrait of Christianity has been justified by the letters of Paul Interpreters claim that Paul eliminates ethnicity or at least separates it from what is important about Christianity This study challenges that perception Through a detailed examination of kinship and ethnic language in Paul s letters Johnson Hodge argues that notions of peoplehood and lineage are not rejected or downplayed by Paul instead they are central to his gospel Paul s chief concern is the status of the gentile peoples who are alienated from the God of Israel Ethnicity defines this theological problem just as it shapes his own evangelizing of the ethnic and religious other According to Paul God has responded to the gentile predicament through Christ Johnson Hodge details how Paul uses the logic of patrilineal descent to construct a myth of origins for gentiles through baptism into Christ the gentiles become descendants of Abraham adopted sons of God and coheirs with Christ Although Jews and gentiles now share a common ancestor they are not collapsed into one group of Christians for example They are separate but related lineages of Abraham Through comparisons with other ancient authors Johnson Hodge shows that Paul is not alone in his strategic use of kinship and ethnic language Because kinship and ethnicity present themselves as natural and fixed yet are also open to negotiation and reworking they are effective tools in organizing people and power shaping self understanding and defining membership If Sons Then Heirs demonstrates that Paul s thinking is immersed in the story of Israel He speaks not as a Christian theologian but as a first century Jewish teacher of gentiles responding to concrete situations in these early communities of Christ followers As such Paul does not reject or critique Judaism but responds to God s call to be a light to the nations

## **The Greek Revolution**

Paschalis M. Kitromilides, Constantinos Tsoukalas, 2021-03-25 Winner of the 2022 London Hellenic Prize On the bicentennial of the Greek Revolution an essential guide to the momentous war for independence of the Greeks from the Ottoman Empire The Greek war for independence 1821 1830 often goes missing from discussion of the Age of Revolutions Yet the rebellion against Ottoman rule was enormously influential in its time and its resonances are felt across modern history The Greeks inspired others to throw off the oppression that developed in the backlash to the French Revolution And Europeans in general were hardly blind to the sight of Christian subjects toppling Muslim rulers In this collection of essays Paschalis Kitromilides and Constantinos Tsoukalas bring together scholars writing on the many facets of the Greek Revolution and placing it squarely within the revolutionary age An impressive roster of contributors traces the revolution as it unfolded and analyzes its regional and transnational repercussions including the Romanian and Serbian revolts that spread the spirit of the Greek uprising through the Balkans The essays also elucidate religious and cultural dimensions of Greek nationalism including the power of the Orthodox church One essay looks at the triumph of the idea of a Greek homeland which bound the

Greek diaspora and its financial contributions to the revolutionary cause Another essay examines the Ottoman response involving a series of reforms to the imperial military and allegiance system Noted scholars cover major figures of the revolution events as they were interpreted in the press art literature and music and the impact of intellectual movements such as philhellenism and the Enlightenment Authoritative and accessible The Greek Revolution confirms the profound political significance and long lasting cultural legacies of a pivotal event in world history The Gutenberg Galaxy Marshall McLuhan,2017-06-22 The Gutenberg Galaxy catapulted Marshall McLuhan to fame as a media theorist and in time a new media prognosticator Fifty years after its initial publication this landmark text is more significant than ever before Readers will be amazed by McLuhan s prescience unmatched by anyone since predicting as he did the dramatic technological innovations that have fundamentally changed how we communicate The Gutenberg Galaxy foresaw the networked compressed global village that would emerge in the late twentieth and twenty first centuries despite having been written when black and white television was ubiquitous This new edition of The Gutenberg Galaxy celebrates both the centennial of McLuhan s birth and the fifty year anniversary of the book s publication A new interior design updates The Gutenberg Galaxy for twenty first century readers while honouring the innovative avant garde spirit of the original This edition also includes new introductory essays that illuminate McLuhan s lasting effect on a variety of scholarly fields and popular culture A must read for those who inhabit today s global village The Gutenberg Galaxy is an indispensable road map for our evolving communication landscape A History of Greek Literature Moses Hadas,1950-03-22 A History of Greek Literature **The Greek Victories and the Persian Ebb 480-479 BC** Manousos E. Kambouris,2022-12-01 The dramatic conclusion to this trilogy explains the reversal of fortunes and final defeat of Xerxes Persian invasion of Greece not as unlikely as usually presupposed The focus is on the successful repulse of the Persian massive armada at Salamis a resounding naval victory with parallels to the English defeat of the Spanish Armada Along with the backstage policies and cloak and dagger events the analysis of hard data of naval and military realities and environment shows the reason for this outcome and more so of the closely fought double campaign of the following year that ended the Persian threat The massive land victory at Plataea that ousted the empire from mainland Greece and crippled its armies and the amphibious operation at Mycale that destroyed the remnants of the royal Grand Armada and shut the doors to further Persian incursions in Greece is examined in detail Manousos Kambouris examines in depth the plans potential assets and liabilities of the two protagonists to explain command decisions and developments in the field This is a fine finale to this fresh appraisal of these hugely significant events **The Role of Religion in History** George Walsh,2017-09-08 This comprehensive survey of religion and its profound effects on history provides a historical context for in depth analysis of theological social and political themes in which religion plays a major role George Walsh first traces the rise and impact of primitive religions He looks at Indian traditions including Hinduism Buddhism and Jainism and analyzes the Semitic tradition of Judaism and Christianity and the evolving conception

of a personal God He discusses the history and chief doctrines of Islam as well with its fundamental respect for desert tribal values and its emphasis on both the authority of God and the brotherhood of believers Walsh then compares Judaism and Christianity He sees Judaism as marked by a profound ambivalence between the values of tribal nomadic desert life and the values of urban civilization individualism and collectivism Judaism is this worldly but the Christian worldview is other worldly Walsh closes with a timely discussion of the ethical political and economic teachings of the Judeo Christian tradition focusing specifically on their differing attitudes toward sex reproduction and marriage their basic views of mind and body and man's relation to God

*Writing Material Culture History* Anne Gerritsen, Giorgio Riello, 2021-02-25 *Writing Material Culture History 2e* examines the methodologies used in the historical study of material culture Looking at archaeology anthropology art history and literary studies the book provides students with a fundamental understanding of the relationship between artefacts and historical narratives The book addresses the role of museums the impact of the digital age and the representations of objects in public history bringing together students and specialists from around the world This new edition includes A new substantive introduction from the editors providing a useful roadmap for students and specialists A more balanced and easy to use structure including methodological chapters and object in focus chapters consisting of case studies for classroom discussion New chapters showing greater engagement with 20th century material culture non European artefacts and the definitions and limits of material culture as a discipline Offers global coverage and discussion of both the early modern and modern periods *Writing Material Culture History 2e* is an essential tool for students seeking to understand the potential of objects to re cast established historical narratives in new and exciting ways

**University College** Claude Bissell, 1953-12-15 For a century University College has had a profound and continuous influence on the cultural development of Canada The authors of this volume show us University College as a political and educational institution as a physical structure that has aroused admiration and scholarly curiosity as the home of a long line of great teachers and scholars and of a student body diverse in its origins and spirited in its attitudes and finally as the embodiment of an educational idea that transcends curricula and prescriptions

*Homage to Pythagoras* Christopher Bamford, 1994 *Homage to Pythagoras* collects essential documents by people at the leading edge of the sacred sciences today These articles both scholarly and sympathetic to the Pythagorean perspective are proof of the contemporary interest in Pythagoras philosophy as a living reality and provide a major addition to the field of Pythagorean studies and traditional mathematics

Contents  
Introduction by Christopher Bamford Ancient Temple Architecture by Robert Lawlor The Platonic Tradition on the Nature of Proportion by Keith Critchlow What is Sacred Architecture by Keith Critchlow Twelve Criteria for Sacred Architecture by Keith Critchlow Pythagorean Number as Form Color and Light by Robert Lawlor The Two Lights by Arthur Zajonc Apollo The Pythagorean Definition of God by Anne Macaulay Blake Yeats and Pythagoras by Kathleen Raine About the Authors
