*A Theory of Nonviolent Action* Stellan Vinthagen, 2015-11-15 In this ground breaking and much needed book Stellan Vinthagen provides the first major systematic attempt to develop a theory of nonviolent action since Gene Sharp's seminal *The Politics of Nonviolent Action* in 1973 Employing a rich collection of historical and contemporary social movements from various parts of the world as examples from the civil rights movement in America to anti Apartheid protestors in South Africa to Gandhi and his followers in India and addressing core theoretical issues concerning nonviolent action in an innovative penetrating way Vinthagen argues for a repertoire of nonviolence that combines resistance and construction Contrary to earlier research this repertoire consisting of dialogue facilitation normative regulation power breaking and utopian enactment is shown to be both multidimensional and contradictory creating difficult contradictions within nonviolence while simultaneously providing its creative and transformative force An important contribution in the field *A Theory of Nonviolent Action* is essential for anyone involved with nonviolent action who wants to think about what they are doing

**Is Religion Killing Us?** Jack Nelson-Pallmeyer, 2015-08-27 Coverage of recent world events has focused on violence associated with Islam In this courageous and controversial book Jack Nelson Pallmeyer claims that this narrow view ignores the broader and unfortunate relationship between human violence and the sacred texts of Jews Christians and Muslims Both the Bible and the Quran he believes are riddled with violent images of God and with passages that can be reasonably interpreted to justify violence against enemies in service to God's will According to Nelson Pallmeyer many wondered how Muslims could in God's name kill innocent civilians by flying airplanes into the World Trade Center and the Pentagon Few however questioned U S leaders and citizens invoking God's name or assuming God's favor to fight the responsive war against terrorism And in the Middle East the roots of the continuing and seemingly unsolvable conflict and violence are to be found in both the Torah and the Quran Nelson Pallmeyer challenges the understanding of power that lies at the heart of the sacred texts of Judaism Christianity and Islam He argues that nonviolence is powerful and necessary and that a viable future for human beings and the planet depends on challenging the ways in which sacred texts reinforce visions of power that are largely abusive A viable future he says depends on re-visioning God's power Jack Nelson Pallmeyer is Assistant Professor of Justice and Peace Studies at the University of St Thomas in St Paul Minnesota For more than twenty years he has studied and written about the relationship of religion violence and peace and his books include *Jesus Against Christianity* *Reclaiming the Missing Jesus* Trinity Press International and *School of Assassins* *Guns Greed and Globalization* *Violence and Nonviolence* Peyman Vahabzadeh, 2019-02-07 Through an original and close reading of the key literature regarding both revolutionary violence and nonviolence this book collapses the widely assumed concepts of violence and nonviolence as mutually exclusive By revealing that violence and nonviolence are braided concepts arising from human action Peyman Vahabzadeh submits that in many cases the actions deemed to be either violent or nonviolent might actually produce outcomes that are not essentially

different Vahabzadeh offers a conceptual phenomenology of the key thinkers and theorists of both revolutionary violence and various approaches to nonviolence Arguing that violence is inseparable from civilizations Violence and Nonviolence concludes by making a number of original conceptualizations regarding the relationship between violence and nonviolence exploring the possibility of a nonviolent future and proposing to understand the relationship between the two concepts as concentric not opposites

*Resisting United Nations Security Council Resolutions* Sufyan Droubi, 2014-04-24 The United Nations Security Council has primary responsibility for maintaining international peace and security In discharging its powers it must act in accordance with the Purposes and Principles of the UN and observe the rules governing voting and procedure established in the Organisation s Charter The Council adopts mandatory resolutions that may establish obligations for members and non members and such obligations trump conflicting obligations originating from any other international agreement Member States must cooperate with the Organisation and among themselves in the implementation of any action prescribed by the Council against States whose behaviour the Council considers an act of aggression or a threat to or breach of international peace and security This book analyses resistance to Security Council resolutions and puts forward a theory of lawful resistance Sufyan Droubi takes a positivist approach to the UN Charter regarding it as a constitution Special emphasis is placed on the construction of the Charter s meaning through the practice of both organs and Members of the UN and on the need to enhance the effectiveness of the Organization with due respect to the rule of law The book proposes that nonviolent resistance to a mandatory resolution of the Security Council on grounds that the latter is incompatible with the Charter or jus cogens norms may be considered lawful under the Charter if some elements are present In exploring a number of case studies of individual and collective State resistance to mandatory Council resolutions the book proposes that resistance may function as a rudimentary

**Just Policing, Not War** Gerald Schlabach, 2007 2008 Catholic Press Association Honorable Mention For decades the Catholic Church and historical peace churches such as the Mennonites have come together in ecumenical discussions about war and peace The dividing point has always been between pacifism the view held by Mennonites and other peace churches and the just war theory that dominates Catholic thinking on the issue Given the transformation of global relations over this period increased interdependency and communication as well as the fall of the Soviet Union emerging nationalism movements and the slow development of international courts the time is right to rethink the Christian response to war Gerald Schlabach has proposed just policing theory as a way to narrow the gap between just war and pacifist traditions If the world can address problems of violence through a police model instead of a conventional military model there may be a role for Christians from all traditions In this volume Schlabach presents his theory and has invited a number of scholars representing Catholic Mennonite and other traditions to respond to the theory and address a number of key questions What do we mean by policing Can policing solve conflicts beyond one's own borders How does just policing theory address terrorism Is international policing possible and what would it look like Is just policing a Christian solution that meets the criteria of both traditions This important volume offers a fresh and meaningful discussion to help Christians of all traditions navigate the difficult questions of how to live in these times of violence and war

Crawford,2019 Reclaiming the Great World House in the 21st Century Cross Disciplinary Explorations of the Vision of Martin Luther King Jr does just that Established and emerging scholars explore Martin Luther King Jr s global vision and his lasting relevance to a globalized rights culture The editors further explain that this edited collection looks at King afresh in his own historical context while also refocusing his legacy of ideas and social praxis in broader directions for today and tomorrow Employing King s metaphor of the great world house with major attention to racism poverty and war or what he called the evil triumvirate the focus is on King s appraisal of and approach to the global human struggle in the 1950s and 60s and on the extent to which his social witness and praxis takes on new hues and pertinence not only in the ongoing struggles against racism poverty and economic injustice and violence and human destruction but also in the mounting efforts to eliminate problems such sexism homophobia and religious bigotry and intolerance from the global landscape The conclusion is that King s ideas and models of social protest are not only alive but also growing in vitality and popularity in the 21st century especially as humans worldwide are struggling daily with the lingering antiquated thinking and behavior around race and ethnicity the widening gap between the haves and the have nots the mounting cycles of violence torture and terrorism and the frustrating and growing chasms resulting from religious pluralism and the subordination and marginalization of certain sectors of the human family based on gender and sexuality

**But for Birmingham** Glenn T. Eskew,2000-11-09 Birmingham served as the stage for some of the most dramatic and important moments in the history of

the civil rights struggle In this vivid narrative account Glenn Eskew traces the evolution of nonviolent protest in the city focusing particularly on the sometimes problematic intersection of the local and national movements Eskew describes the changing face of Birmingham's civil rights campaign from the politics of accommodation practiced by the city's black bourgeoisie in the 1950s to local pastor Fred L. Shuttlesworth's groundbreaking use of nonviolent direct action to challenge segregation during the late 1950s and early 1960s In 1963 the national movement in the person of Martin Luther King Jr. turned to Birmingham The national uproar that followed on Police Commissioner Bull Connor's use of dogs and fire hoses against the demonstrators provided the impetus behind passage of the watershed Civil Rights Act of 1964 Paradoxically though the larger victory won in the streets of Birmingham did little for many of the city's black citizens argues Eskew The cancellation of protest marches before any clear cut gains had been made left Shuttlesworth feeling betrayed even as King claimed a personal victory While African Americans were admitted to the leadership of the city the way power was exercised and for whom remained fundamentally unchanged

**The Psychology of Demonization** Nahi Alon, Haim Omer, 2006-08-15 Throughout human history the relationships of individuals and groups have been disrupted by what the authors sum up as demonization the attribution of basic destructive qualities to the other or to forces within the self Demonization results in constant suspicion and blame a systematic disregard of positive events pressure to eradicate the putative negative persons or forces and a growing readiness to engage in escalating conflict Richly illustrated with 24 case stories this book explores the psychological processes involved in demonization and their implications for the effort to effect change in relationships psychotherapy and beyond the office or clinic in the daily lives of families organizations and societies Recent popular psychology the authors argue has tended to encourage demonization An appropriate alternative to this view is known as the tragic view Suffering is inevitable in life negative outcomes are a result of a confluence of factors over which one has only a very limited control there is no possibility of reading into the hidden demonic layers of the other's mind the other's actions like our own are multiply motivated escalation is a tragic development rather than the result of an evil master plan and finally skills for promoting acceptance and reducing escalation are necessary for diminishing interpersonal suffering The authors describe and illustrate a series of these skills both for psychotherapy and for personal use Finally they lay out an approach to consolation and acceptance the neglect of which they attribute to the dominance of demonic views The Psychology of Demonization Promoting Acceptance and Reducing Conflict will be appreciated by all those professionally and personally concerned with the state of relationships

Roman Catholic teaching toward a commitment to active nonviolence that could qualify the church as a peace church As a moral theologian specializing in social ethics Schlabach explores how this trend in Catholic social teaching will need to take shape if Catholics are to follow through Globalization he argues is an invitation to recognize what was always supposed to be true in Catholic ecclesiology Christ gives Christians an identity that crosses borders To become a truly catholic global peace church in which peacemaking is church wide and parish deep Catholics should recognize that they have always properly been a diaspora people with an identity that transcends tribe and nation state

**The Violence of Climate Change** Kevin J. O'Brien, 2017-06-01 Climate change is viewed as a primarily scientific economic or political issue While acknowledging the legitimacy of these perspectives Kevin J O'Brien argues that we should respond to climate change first and foremost as a case of systematic and structural violence Global warming is largely caused by the carbon emissions of the affluent emissions that harm the poor first and worst Climate change is violence because it divides human beings from one another and from the earth O'Brien offers a constructive and creative response to this violence through practical examples of activism and nonviolent peacemaking providing brief biographies of five Christians in the United States John Woolman Jane Addams Dorothy Day Martin Luther King Jr and Cesar Chavez These activists idealism social commitment and political savvy offer lessons of resistance applicable to the struggle against climate change and for social justice
