THE RIGHT HONOURABLE L.D. FRASER

"The United Nations serves humanity in a wide variety of fields - social, political and economic. But its primary purpose - which will determine its success or failure - is to preserve and strengthen the peace by insulating the negotiation of international force behind international decisions."

To anyone who wishes to understand both the importance and the difficulty of achieving this high and essential purpose, the book *The Politics of Peace-keeping* is a 'must'. It is the product of painstaking research and careful judgment and makes a very important contribution to the vital subject with which it deals."

The Politics Of Peace Keeping Studies In International Security:

The Politics of Peacekeeping in the Post-cold War Era David S. Sorenson, Pia Christina Wood, 2005 This book focuses on explaining peacekeeping commitment decisions at the nation state level filling a gap in the peacekeeping scholarly literature on the political dynamics of peacekeeping decisions The Politics of Peace-keeping Alan James, 1969 United Nations Peacekeeping and the Politics of Authoritarianism Sarah von Billerbeck, Birte Julia Gippert, Kseniya Oksamytna, Oisín Tansey, 2025-01-11 What impact does UN peacekeeping have on the politics of authoritarianism in host countries This book advances a theoretically innovative and empirically rich answer to this question while the UN does not intentionally promote authoritarianism it faces a number of constraints and dilemmas that give rise to what we call authoritarian enabling Enabling can occur through two mechanisms capacity building and the creation of a permissive environment which enhance the ability of host governments to engage in authoritarian behavior and signal to them that doing so is low cost This book illustrates these two mechanisms with four in depth case studies of UN peacekeeping operations UNTAC in Cambodia MONUC MONUSCO in the Democratic Republic of Congo MINUSTAH in Haiti and UNMIL in Liberia The analysis is based on primary interview data from over 200 interviews The authors explore the sources of enabling identifying the trade offs and contradictions that give rise to these two mechanisms They include respect for sovereignty the importance of working relations with the host government the tension between democracy and other mission goals the pressure to demonstrate quick results and divergences within missions and the broader international community While enabling stops short of the outright promotion of authoritarianism it explains why the UN s activities often appear to contradict its stated objectives and the outcomes it delivers fall short of its goals In addition to its theoretical and empirical contributions the book suggests how these dilemmas and challenges can be overcome The Organization of African Unity and Peacekeeping Mack L. The Economics of UN Peacekeeping Nadège Sheehan, 2011-07-25 Peacekeeping is a security concept that is very representative of the current interventionism multilateralism human rights and humanitarian ideas UN peacekeeping plays an important role in international security and includes various activities that go beyond the original roles assigned to UN armed forces e g humanitarian aid election supervision disarmament mine clearance civilian protection and peacebuilding The problem is to define the economic efficiency of these operations and to develop some recommendations in the context of an economic globalization process Although UN peacekeeping has shortcomings it must be considered essential for organizing and defending the world politico economic order UN peacekeeping is a political activity but its production strongly depends on nations economic considerations Governments make political decisions that also take into account the economic gains they expect to obtain from their contribution to any specific mission With low means and inadequate strategies to meet the challenges UN peacekeeping must pay particular attention to resolving the problems of free riding and of prisoner s dilemma in contributions that delay deployments and create significant financial problems Understanding how peacekeeping can be most cost effectively carried out while considering the importance of legitimacy in interventions is essential This book believes that regional organizations can ease the UN s financial responsibility by managing conflicts in their regions But to be most effective they must involve the UN in their interventions This book also emphasizes UN peacekeeping trust funds as the key to better financial effectiveness It strongly recommends that NATO be empowered by the UN with the role of global peace police and proposes the establishment of a UN high ranking team of international specialists in peacekeeping issues

Promoting Peace with Information Daniel Lindley, 2021-02-09 It is normally assumed that international security regimes such as the United Nations can reduce the risk of war by increasing transparency among adversarial nations The more adversaries understand each other's intentions and capabilities the thinking goes the less likely they are to be led to war by miscalculations and unwarranted fears But how is transparency provided how does it actually work and how effective is it in preserving or restoring peace In Promoting Peace with Information Dan Lindley provides the first scholarly answer to these important questions Lindley rigorously examines a wide range of cases including U N peacekeeping operations in Cyprus the Golan Heights Namibia and Cambodia arms control agreements including the Nuclear Non Proliferation Treaty and the historical example of the Concert of Europe which sought to keep the peace following the defeat of Napoleon in 1815 Making nuanced arguments based on extensive use of primary sources interviews and field research Lindley shows when transparency succeeds in promoting peace and when it fails His analysis reveals for example that it is surprisingly hard for U N buffer zone monitors to increase transparency yet U N nation building missions have creatively used transparency to refute harmful rumors and foster democracy For scholars Promoting Peace with Information is a major advance into the relatively uncharted intersection of institutionalism and security studies For policymakers its findings will lead to wiser peacekeeping public diplomacy and nation building
