The Politics Of Place Contentious Urban Redevelopment In Pittsburgh:

The Politics of Place Gregory J. Crowley, 2005-11-04 In urban America large scale redevelopment is a frequent news item Many proposals for such redevelopment are challenged sometimes successfully and other times to no avail The Politics of Place considers the reasons for these outcomes by examining five cases of contentious redevelopment in Pittsburgh Pennsylvania between 1949 and 2000 In four of these cases the challengers to redevelopment failed to create the conditions necessary for strong democratic participation In the fifth case the proposed reconstruction of Pittsburgh s downtown retail district 1997 2000 challengers succeeded and Crowley describes the crucial role of independent nonprofit organizations in bringing about this result At the heart of Crowley s discussion are questions central to any urban redevelopment debate Who participates in urban redevelopment what motivates them to do so and what structures in the political process open or close a democratic dialogue among the stakeholders Through his astute analysis Crowley answers these questions and posits a framework through which to view future contention in urban redevelopment **The Politics of Place** Gregory J. Crowley, 2005 Using five case studies of redevelopment in Pittsburgh Pennsylvania Gregory Crowley addresses important issues in urban redevelopment and provides a framework through which to view future contention **The Politics of Place** Gregory J. Crowley, 2005-11-04 In urban America large scale redevelopment is a frequent news item Many proposals for such redevelopment are challenged sometimes successfully and other times to no avail The Politics of Place considers the reasons for these outcomes by examining five cases of contentious redevelopment in Pittsburgh Pennsylvania between 1949 and 2000 In four of these cases the challengers to redevelopment failed to create the conditions necessary for strong democratic participation In the fifth case the proposed reconstruction of Pittsburgh s downtown retail district 1997 2000 challengers succeeded and Crowley describes the crucial role of independent nonprofit organizations in bringing about this result At the heart of Crowley s discussion are questions central to any urban redevelopment debate Who participates in urban redevelopment what motivates them to do so and what structures in the political process open or close a democratic dialogue among the stakeholders Through his astute analysis Crowley answers these questions and posits a framework through which to view future contention in urban redevelopment **Remaking the Rust Belt** Tracy Neumann, 2016-06-28 Remaking the Rust Belt tells the story of how local leaders throughout the Rust Belt adapted internationally circulating ideas about postindustrial redevelopment to create the jobs and amenities they believed would attract middle class professionals but in so doing widened and deepened economic inequality among urban residents **The Deindustrialized World** Steven High, Lachlan MacKinnon, Andrew Perchard, 2017-07-20 Since the 1970s the closure of mines mills and factories has marked a rupture in working class lives The Deindustrialized World interrogates the process of industrial ruination from the first impact of layoffs in metropolitan cities suburban areas and single industry towns to the shock waves that rippled outward affecting entire regions countries and beyond Scholars from France Canada Australia the United Kingdom and the United

States share personal stories of ruin and ruination and ask others what it means to be working class in a postindustrial world Part 1 examines the ruination of former workplaces and the failing health and injured bodies of industrial workers Part 2 brings to light disparities between rural resource towns and cities where hipster revitalization often overshadows industrial loss Part 3 reveals the ongoing impact of deindustrialization on working people and their place in the new global economy Together the chapters open a window on the lived experiences of people living at ground zero of deindustrialization revealing its layered impacts and examining how workers environmentalists activists and the state have responded to its challenges

Cities in the Urban Age Robert A. Beauregard, 2018-03-19 We live in a self proclaimed Urban Age where we celebrate the city as the source of economic prosperity a nurturer of social and cultural diversity and a place primed for democracy We proclaim the city as the fertile ground from which progress will arise Without cities we tell ourselves human civilization would falter and decay In *Cities in the Urban Age* Robert A. Beauregard argues that this line of thinking is not only hyperbolic it is too celebratory by half For Beauregard the city is a cauldron for four haunting contradictions First cities are equally defined by both their wealth and their poverty Second cities are simultaneously environmentally destructive and yet promise sustainability Third cities encourage rule by political machines and oligarchies even as they are essentially democratic and at least nominally open to all And fourth city life promotes tolerance among disparate groups even as the friction among them often erupts into violence Beauregard offers no simple solutions or proposed remedies for these contradictions indeed he doesn't necessarily hold that they need to be resolved since they are generative of city life Without these four tensions cities wouldn't be cities Rather Beauregard argues that only by recognizing these ambiguities and contradictions can we even begin to understand our moral obligations as well as the clearest paths toward equality justice and peace in urban settings

Speaking Pittsburghese Barbara Johnstone, 2013-10-28 An engaging exploration of the history of Pittsburghese one of the most recognizable urban dialects in the United States today **White Ice** Thomas Aiello, Brian M. Ingrassia, 2024-01-12 When NHL commissioner Clarence Campbell announced that Atlanta had received an NHL franchise ownership was tasked with selling a northern game that most of the city's Black residents had never experienced The team marketed itself to upper middle class White residents by portraying a hockey game as an exclusive event with the whiteness of the players themselves providing critical support for that claim In a city that had given Hank Aaron a cool reception and had effectively guaranteed the whitening of a successful Black basketball team the prospect of a sport with White players was an inherent draw that leaders hoped would mitigate White flight from the city and draw residents of the surrounding suburbs back to the city center The team was ultimately marketed as the Flames a reference to William Sherman's burning of Atlanta and the city's rise from the ashes to its rightful place as a Deep South hub of culture and economy It wasn't a name with specific racial coding but with the city's racial history and the Lost Cause iconography that dotted its landscape a Civil War name could only add to the impression of a White team playing to White fans in a majority Black city Thus the politics of civic development

and race combined yet again but this time in a form foreign to most longtime sports enthusiasts in the Deep South

Manhattan Projects Samuel Zipp, 2010-05-24 Moving beyond the usual good versus evil story that pits master planner Robert Moses against the plucky neighborhood advocate Jane Jacobs Samuel Zipp sheds new light on the rise and fall of New York's urban renewal in the decades after World War II Focusing on four iconic Manhattan projects the United Nations building Stuyvesant Town Lincoln Center and the great swaths of public housing in East Harlem Zipp unearths a host of forgotten stories and characters that flesh out the conventional history of urban renewal He shows how boosters hoped to make Manhattan the capital of modernity and a symbol of American power but even as the builders executed their plans a chorus of critics revealed the dark side of those Cold War visions attacking urban renewal for perpetuating deindustrialization racial segregation and class division for uprooting thousands and for implanting a new alienating cityscape Cold War era urban renewal was not merely a failed planning ideal Zipp concludes but also a crucial phase in the transformation of New York into both a world city and one mired in urban crisis

Tinsel and Rust Michael D. Dwyer, 2025 Tinsel and Rust tells the story of Hollywood's role in the shaping of the Rust Belt in the United States During the 1970s and 1980s filmic representations of shuttered auto plants furloughed millworkers and decaying downtowns in the industrial heartland contributed to pervasive narratives of American malaise and decline informing the wider cultural view of these cities and their people Author Michael D Dwyer untangles the complicated relationship between Hollywood and the Rust Belt exploring how the sociocultural image of the region has become a tool to tell stories about America's mythic past degraded present and potential futures Dwyer offers a reading in twofold through the conventional lens of film and cultural studies and through an interdisciplinary lens that pulls in elements of cultural geography and urban studies to understand the ways in which Americans learned to interpret the cities and towns of the industrial Midwest Each chapter spotlights a different Rust Belt city Johnstown Chicago Cleveland Pittsburgh and Detroit and considers how films and filmmaking processes helped shape audiences cultural understanding of those cities Over the course of the book Dwyer also examines several films which offer notable representations of the Rust Belt including *Slap Shot* *The Blues Brothers* *Major League* *The Perks of Being a Wallflower* and *It Follows* Finally the volume highlights how in more recent years cities like Pittsburgh Detroit and Cleveland have all attempted to remake their public image and revitalize their economies through film and media production

Citizen Environmentalists James Longhurst, 2012-06-22 A telling look at the lives and strategies of women environmental activists in the long 1960s solidly grounded in a national context

Comparative Civic Culture Laura A. Reese, Raymond A. Rosenfeld, 2016-05-23 The quest for a theoretical framework for understanding urban policy making has been a recurring focus of research into local governments Civic culture is a means for understanding how municipal policy makers weigh the interests of different groups govern the local community frame local goals engage in decision making and ultimately select and implement public policies While it seems that culture matters in local policy making how to measure culture in a valid

and replicable fashion presents a significant challenge which the authors address in this book They present their findings of a large multi city research project to explore the nature of civic culture in cities in the US and Canada The focus of their analysis is on three overarching systems of community power system the community value system and the community decision making system The authors address a number of questions around the nature of civic culture and the relationships between the three systemic elements of civic culture to refine and apply a more sophisticated theory of urban policy making

Communities of Resistance and Resilience in the Post-Industrial City Daniel Holland, 2024-08-01 This book is about the grassroots community revitalization movement in Pittsburgh Pennsylvania and Lyon France between 1980 and 2010 an extension of the post WWII civil rights campaign that is rarely considered It tells the story of residents attempts to improve their communities through social capital or people power In positive ways citizens created vibrant attractive neighborhoods But their actions also generated unintended consequences such as high real estate prices and minority displacement that threatened to unravel their hard work *Communities of Resistance and Resilience* is an ethnographic survey that relies on oral histories archival research on the ground site surveys and the author s personal experience as a neighborhood reinvestment practitioner for more than 30 years It brings to life stories that would otherwise remain obscured such as the lingering impact of the March for Equality and Against Racism organized in Lyon in 1983 and the formation of the Pittsburgh Community Reinvestment Group in Pittsburgh in 1988 both of which launched national movements This is of great use to scholars of transatlantic history as well as a general audience interested in modern social movements in the United States and France

After the Factory James J. Connolly, 2010-10-14 The most pressing question facing the small and mid sized cities of America s industrial heartland is how to reinvent themselves Once thriving communities in the Northeastern and Midwestern U S have decayed sharply as the high wage manufacturing jobs that provided the foundation for their prosperity disappeared A few larger cities had the resources to adjust but most smaller places that relied on factory work have struggled to do so Unless and until they find new economic roles for themselves the small cities will continue to decline Reinventing these smaller cities is a tall order A few might still function as nodes of industrial production But landing a foreign owned auto manufacturer or a green energy plant hardly solves every problem The new jobs will not be unionized and thus will not pay nearly as much as the positions lost The competition among localities for high tech and knowledge economy firms is intense Decaying towns with poor schools and few amenities are hardly in a good position to attract the creative class workers they need Getting to the point where they can lure such companies will require extensive retooling not just economically but in terms of their built environment cultural character political economy and demographic mix Such changes often run counter to the historical currents that defined these places as factory towns *After the Factory* examines the fate of industrial small cities from a variety of angles It includes essays from a variety of disciplines that consider the sources and character of economic growth in small cities They delve into the history of industrial small cities explore the

strategies that some have adopted and propose new tacks for these communities as they struggle to move forward in the twenty first century Together they constitute a unique look at an important and understudied dimension of urban studies and globalization

Planning in Divided Cities Frank Gaffikin, Mike Morrissey, 2011-04-18 Does planning in contested cities inadvertently make the divisions worse The 60s and 70s saw a strong role of planning social engineering etc but there has since been a move towards a more decentralised community planning approach The book examines urban planning and policy in the context of deeply contested space where place identity and cultural affinities are reshaping cities Throughout the world contentions around identity and territory abound and in Britain this problem has found recent expression in debates about multiculturalism and social cohesion These issues are most visible in the urban arena where socially polarised communities co habit cities also marked by divided ethnic loyalties The relationship between the two is complicated by the typical pattern that social disadvantage is disproportionately concentrated among ethnic groups who also experience a social and cultural estrangement based on religious or racial identity Navigating between social exclusion and community cohesion is essential for the urban challenges of efficient resource use environmental enhancement and the development of a flourishing economy The book addresses planning in divided cities in a UK and international context examining cities such as Chicago hyper segregated around race and Jerusalem acting as a crucible for a wider conflict The first section deals with concepts and theories examining the research literature and situating the issue within the urban challenges of competitiveness and inclusion Section 2 covers collaborative planning and identifies models of planning policy and urban governance that can operate in contested space Section 3 presents case studies from Belfast Chicago and Jerusalem examining both the historical contemporary features of these cities and their potential trajectories The final section offers conclusions and ways forward drawing the lessons for creating shared space in a pluralist cities and addressing cohesion and multiculturalism Addresses important contemporary issue of social cohesion vs urban competitiveness focus on impact of government policies will appeal to practitioners in urban management local government and regeneration Examines role of planning in cities worldwide divided by religion race socio economic etc Explores debate about contested space in urban policy and planning Identifies models for understanding contested spaces in cities as a way of improving effectiveness of government policy

The Theatre of August Wilson Alan Nadel, 2018-05-17 The first comprehensive study of August Wilson s drama introduces the major themes and motifs that unite Wilson s ten play cycle about African American life in each decade of the twentieth century Framed by Wilson s life experiences and informed by his extensive interviews this book provides fresh coherent detailed readings of each play well situated in the extant scholarship It also provides an overview of the cycle as a whole demonstrating how it comprises a compelling interrogation of American culture and historiography Keenly aware of the musical paradigms informing Wilson s dramatic technique Nadel shows how jazz and particularly the blues provide the structural mechanisms that allow Wilson to examine alternative notions of time property and law Wilson s

improvisational logics become crucial to expressing his notions of black identity and resituating the relationship of literal to figurative in the African American community The final two chapters include contributions by scholars Harry J Elam Jr and Donald E Pease

Augmented and Mixed Reality for Communities Joshua A. Fisher, 2021-07-14 Using mixed and augmented reality in communities is an emerging media practice that is reshaping how we interact with our cities and neighbors From the politics of city hall to crosswalks and playgrounds mixed and augmented reality will offer a diverse range of new ways to interact with our communities In 2016 apps for augmented reality politics began to appear in app stores Similarly the blockbuster success of Pok mon Go illustrated how even forgotten street corners can become a magical space for play In 2019 a court case in Milwaukee Wisconsin extended first amendment rights to augmented reality For all the good that these emerging media provide there will and have been consequences Augmented and Mixed Reality for Communities will help students and practitioners navigate the ethical design and development of these kinds of experiences to transform their cities As one of the first books of its kind each chapter in the book prepares readers to contribute to the Augmented City By providing insight into how these emerging media work the book seeks to democratize the augmented and mixed reality space Authors within this volume represent some of the leading scholars and practitioners working in the augmented and mixed reality space for civic media cultural heritage civic games ethical design and social justice Readers will find practical insights for the design and development to create their own compelling experiences Teachers will find that the text provides in depth critical analyses for thought provoking classroom discussions

Fields of Play Robert T. Hayashi, 2023-09-26 Americans love sports from neighborhood pickup basketball to the National Football League and everything in between While no city better demonstrates the connection between athletic games and community than Pittsburgh Pennsylvania the common association of the city s professional sports teams with its blue collar industrial past illustrates a white nostalgic perspective that excludes the voices of many who labored in the mines and mills and played on local fields In this original and lyrical history Robert T Hayashi addresses this gap by uncovering and sharing overlooked tales of the region s less famous athletes Chinese baseball players Black women hunters Jewish summer campers and coalminer soccer stars These athletes created separate spaces of play while demanding equal access to the region s opportunities on and off the field Weaving together personal narrative with accounts from media popular culture legal cases and archival sources Fields of Play details how powerful individuals and organizations used recreation to promote their interests and shape public memory Combining this rigorous archival research with a poet s voice Hayashi vividly portrays how coal towns settlement houses municipal swimming pools state game lands stadia and the city s landmark rivers were all sites of struggle over inclusion and the meaning of play in the Steel City

Dixieball Thomas Aiello, 2024-01-12 In Dixieball Thomas Aiello considers the cultural function of professional basketball in the Deep South between 1947 and 1979 Making a strong case for the role of race in this process Aiello ties the South s initial animus toward basketball to the same complex

that motivated the region to sacrifice its own economic interests to the cause of white supremacy Fans of basketball as compared to other team sports were closer to the players who showed more of their bodies blackness then had more visibility in basketball than it had in other sports By the time Lyndon Johnson signed the Voting Rights Act in 1965 African Americans made up 47.5 percent of professional basketball players and despite integrating later than baseball and football it was fast becoming known as a black sport Over time survival for southern teams grew more tenuous fan support more fickle and racial incidents between players and fans more hostile Racism clashed with civic development in a fast evolving region To identify the sources of this clash Dixieball locates the main points of intersection between professional basketball and the Deep South in the two decades prior to the region's first major franchise Aiello then takes readers to New Orleans where the first major Deep South professional basketball team the New Orleans Buccaneers was born and on to Atlanta Birmingham St. Louis and others leading up to 1979 Scholars of sport and Southern history alike will find Dixieball a compelling contribution to the lively interdisciplinary discussions animating the Sport and Popular Culture series *Approaches to Teaching the Plays of August Wilson* Sandra G. Shannon, Sandra L. Richards, 2016-06-01 Offers pedagogical techniques for teaching August Wilson's plays in the college classroom using topics such as jazz spatial politics memory satire African belief systems fractals Pittsburgh women urbanism Shakespeare and Tennessee Williams Includes information on editions reference works biographies and online resources Gives syllabus suggestions for undergraduate and graduate courses
