

A whimsical illustration featuring a large, fluffy yellow bear and a small pink rabbit sitting on a large, weathered log. The bear is on the left, sitting upright with its back to the viewer, looking towards the right. It has a blue bowl with yellow food in front of it. The rabbit is on the right, sitting upright and facing the bear. The background is a soft, hazy landscape with light blue and white clouds. In the top left corner, there is a branch with green leaves. In the top right, a small fly is flying with long, curved lines behind it. Two small brown butterflies are flying on the left side. The ground is green grass with some brown patches. The overall style is soft and painterly.

mothers and she argues that we can reimagine intimacy through books. Herself a book lover and writer, a teacher of literature and a single mom, Anderson reflects on the loneliness and the strength that can come from living, writing, and parenting alone. *Shadow Work* puts writers such as Jane Austen, Mary Shelley, Laurence Sterne, and Shakespeare into unexpected conversations with authors of children's literature and contemporary fiction, among them Roald Dahl, Laura Ingalls Wilder, Zadie Smith, and Lewis Carroll. Elegantly and poignantly written, this book examines what it means to revisit longtime literary companions and how literature can help us better understand what we show and hide about ourselves. **Homeschooling**

and a nurturing professor join forces on a potentially groundbreaking medical study that sparks a profound connection neither saw coming. In this unconventional romantic drama from the author who brought you the book club favorite *Somebody's Wife*, Dr. Dresden Xavier moved his family back to his hometown of Monroe City after an unfortunate tragedy. Searching for an escape from the reality of grief and depression, Dresden buries himself in a grueling medical research project that could yield life-changing results. What was supposed to be a short-term partnership with the professor of nursing at Monroe University quickly morphs into a case study of love, or maybe just an experiential error. Harper Kingsley, a loving wife, mother, and professor, sought tenure and a little peace and happiness in her fast-paced life. In the public eye, Harper is a poised perfectionist, but behind closed doors, she desperately fights to mend the broken threads of her feeble family. Lies, sickness, and secrets that could destroy her family permeate her soul until the healing touch of Dr. Xavier changes her trajectory. What was supposed to be a clinical research assignment evolves into something much greater and beyond their control.
